

O

Ocean Reef MARINA

WELCOME TO OCEAN REEF MARINA.

This exciting development will bring jobs, accommodation and amenities to the local area.

Ocean Reef Marina will become a world-class tourism, residential, retail and recreation precinct, meeting the needs of the boating and fishing community, local residents and visitors alike.

Late last year saw the announcement of State Government funding to kick-start the project and a Memorandum of Understanding between LandCorp and the City of Joondalup was recently signed, reinforcing both parties' commitment to the development.

NEXT STEPS

Our consultant team is now on board and, over the next few months, we'll be reviewing the studies, plans and community feedback received to date, so we can progress to the next stage of design.

The City of Joondalup is also continuing the Metropolitan Region Scheme (MRS) Amendment and Public Environmental Review (PER) processes, allowing the land zoning and environmental approvals to progress.

We'll be providing the community with regular updates as planning, approvals and activity on-site progresses.

If you would like to be kept up to date, please register your interest at landcorp.com.au/oceanreefmarina
