PURPOSE/ EXECUTIVE SUMMARY

For the Committee to give further consideration to the composition of the Community Reference Group (CRG) following Council's deferral of this matter.

BACKGROUND

At its meeting held on 18 December 2007, Council resolved:

“that in accordance with clause 58(a) of the Standing Orders Local Law 2005 Council DEFERS the appointment of the Community Reference Group for the Ocean Reef Marina and REFERS the matter back to the Ocean Reef Marina Committee for further consideration.”

Prior to the deferral of this matter at that Council meeting, the following motions and amendments were moved and seconded but not voted on:

MOVED Mayor Pickard, SECONDED Cr Jacob that Council:

- 1 *NOTES the unconfirmed minutes of the Ocean Reef Marina Committee held on 12 December 2007, forming Attachment 1 to Report C88-12/07;*
- 2 *ENDORSES the appointment of the following members to the Community Reference Group:*

- *Boating WA (Mr B Barnett)*

- 3 *the Mayor be appointed as Chairperson on the Community Reference Group and that all Elected Members be entitled to attend meetings of the Community Reference Group as observers.*

AMENDMENT MOVED Cr Macdonald, SECONDED Cr Fishwick that an additional Point 4 be added to the Motion as follows:

- “4 *SEEKS confirmation from those groups in Category C that they are representative of those entities and increase membership of the Community Reference Group to 34 and that the following persons be incorporated into the Committee as additional representatives of Category D, being:*

*Mr B Buzzard
Mr R Tilbrook
Ms D Ironmonger
Ms M Noble”*

Background information provided to the ORM Committee

The following background information to the CRG was submitted to the Ocean Reef Marina Committee at its meeting held on 12 December 2007:

- The City commissioned a consultancy firm called Gryphon to prepare a Community Participation Plan (CPP).
- Gryphon prepared this plan which recommended the establishment of a Community Reference Group (CRG) containing 30 people with membership broken down as follows:
 - Category A 10 individuals representing residents of Ocean Reef.
 - Category B 10 individuals representing surrounding suburbs including Iluka, Mullaloo, Heathridge, Connolly and Currambine.
 - Category C Five individuals representing community groups/agencies.

- Category D Five individuals representing the northwest corridor communities.
- The Plan noted that “in the event that there are more individuals willing to serve on the CRG than there are places available, the final make up of the group will be decided by randomised selection”.
- The CPP was developed having regard to the City’s Public Participation Strategy which was adopted by Council.
- This Strategy includes a section headed ‘How all sectors and groups can have the opportunity to participate’. Under this heading, it is stated:

“Participation targets may be achieved through:

- *Random selection of residents from the City’s databases with a personalised invitation to participate.*
- *Identifying and contacting individuals and groups with a special interest in the issue and inviting their participation.*
- *Advertising through public notices for expressions of interest in community newspapers to the wider community.*
- *Design, delivery and targeting of community education programs which are effective in empowering stakeholders to participate.*

However representation on an issue is determined, the decision should be made public in the interests of good governance”.

- The Strategy also includes a section on the public participation process where it is stated that “activities in this phase include ... identification of process for achievement of participation targets for the project, eg random selection, direct mail, displays at local venues”.
- The CPP was presented to Council on 24 April 2007. Rather than endorsing the CPP, Council resolved to:

- “1 Note the Gryphon report and the proposed CPP.*
- 2 Establish a CRG to a maximum of 30 people.*
- 3 Support the proposed role for the CRG as outlined on page 9 of the Gryphon report.”*

Council also resolved to establish the ORM at this meeting. Here it is important to note that the CPP was noted but not endorsed by Council. The only relevant decision for the purposes of this report is that the CRG would have a maximum of 30 people.

- A meeting of the ORM was held on 17 July. At this meeting a report was presented entitled ‘Commencing the Ocean Reef Consultation Process’. This report stated:

“The Ocean Reef Marina Committee’s first task will be to identify those people who should be appointed to the Community Reference Group. This consideration will be based on the expressions of interest received. The actual appointment of members to the Community Reference Group will be made by Council as the Committee has no delegated authority”.

- Here it is important to note that the report mentions the Group's composition being based on the expressions of interest received. City Officers took this to mean that only people who expressed an interest would be considered.
- Because the report 'Commencing the Ocean Reef Consultation Process' was not highly detailed and specific, the Officer's recommendation was that the Committee note the report. However, the Committee resolved to:

- "1 *Endorse the community participation approach outlined in this report (i.e the paragraph quoted above), and;*
- 2 *Note that Council will determine and endorse the final composition of the Community Reference Group.*"

- The ORM met again on 12 December to consider a report in relation to the public feedback received.
- This report presented the expressions of interest in accordance with the four categories identified in the CPP (which had only been noted by Council). It is for this reason that the report to the Committee on 12 December stated "The original report on the consultation process proposed a CRG of 30 people drawn from the four categories in the following manner Further, in the event that more individuals were willing to serve on the CRG than there were places available, the final make up of the group was to be decided by randomised selection".

Here it is important to note the use of the word 'was' in the final sentence above. Random selection was proposed in the CPP. However, this was not endorsed by Council and no replacement system was identified.

- As a result of the fact that Council had made no decision in relation to the selection of members, the final paragraph of the comment section gave two options for selection: either "to assess each applicant's submission while the other is through random selection".
- The final sentence under the comment section noted "Here it should be noted that the City's Community Consultation Plan suggests random selection as an appropriate method to use in certain cases".
- This sentence was kept deliberately vague as the Public Participation Strategy does not deal with this situation directly. However it does mention random selection in a range of places while there is no mention of selection on merit.

DETAILS

A total of 132 Expressions of Interest were received for membership of the CRG. Of the four categories of membership identified, the following lists the number of applications in each category.

| | | |
|------------|---|----|
| Category A | Ocean Reef residents | 68 |
| Category B | Residents of Iluka, Mullaloo, Heathridge, Connolly and Currambine | 30 |
| Category C | Representatives of community interest groups/occupiers | 23 |
| Category D | North West Corridor communities | 11 |

A summary of the EOIs received is provided in Attachment 1 to this report. The actual applications are provided in the Councillor's Reading Room and copies have been made for members of the ORM Committee.

At the ORM Committee meeting of 12 December 2007, seven submissions were discovered at the last moment which were presented on the night. Having considered these in more detail subsequent to the meeting, each had been excluded deliberately for the following reasons.

| Category | Applicant | Comments |
|------------|-------------|---|
| Category A | J Burgess | He provided no reason for inclusion. City Officers tried to make contact with all people who provided no reason in an effort to establish a reason for their interest. Mr Burgess was unable to be contacted and so was excluded. |
| | S Bray * | While Mr Bray nominated, he provided a further comment which stated "I am unable to participate". Consequently, he was excluded. |
| | S Richard | Application received after the closing date and consequently excluded. |
| Category B | B McKie | She provided no reason for inclusion. City Officers tried to make contact with all people who provided no reason in an effort to establish a reason for their interest. Ms McKie was unable to be contacted and so was excluded. |
| | D Isaacson | This person was included in the ORM Committee's report which summarised the applicants however, the actual application was missing. This was presented in the folder on the night. |
| Category C | L Brandsch | Application received after the closing date and consequently excluded. |
| | M Scundrett | He indicated he was representing both himself and a company 'Aquasports Boat Hire'. He indicated an address of Glen Forest, outside of the North West Corridor and was subsequently excluded. |
| Category D | J Chadwick | Application received after the closing date and, consequently excluded. |

* It should be noted that the Committee selected Mr S Bray as a representative of Category B. It should also be noted that Mr Bray's application indicated that he was a resident of both Ocean Reef and Iluka, together with the fact that he indicated "I regret that due to travel commitments and other work commitments I am unable to participate as much as I would like, ie. I am unable to attend meetings in Perth at this time."

An application was also received on 4 October 2007, six days after the closing date, from a Mr George Shaw. Mr Shaw indicated he sought membership under Category A as he is a resident of Ocean Reef.

Link to Strategic Plan:

Key Focus Area: Organisational Development

Objective: To ensure the City responds to and communicates with the community

Regional Significance:

Certain CRG members are likely to represent the broader region.

Sustainability Implications:

Not Applicable.

Consultation:

This report addresses the nominations submitted through the consultative process.

COMMENT

In reconsidering the CRG's composition the Committee needs to make a number of decisions.

- 1 Should applicants be selected randomly or on merit?

As indicated in the background section to this report, no definitive position can be gauged from past decisions of Council on which approach to use. It is noted that at its 12 December 2007 meeting, the Committee chose the merit option.

- 2 Should the CRG's composition be expanded beyond 30?

Here it should be noted that Council previously made the decision (24 April 2007) that the group contain a maximum of 30 people. Any extension would require this decision to be amended.

- 3 Should five people be chosen from the broader North West corridor community?

The CPP recommended five people be drawn from the broader North West corridor although this position was never endorsed by Council.

- 4 Should more than five positions be allocated to community groups/agencies?

The CPP recommended that five people be drawn from this category although this was never endorsed by Council.

- 5 How should late applications, applications which provided no reason for membership and applications from outside of the North West corridor be dealt with?

Applicants in these categories were originally excluded because they were either submitted outside of the timeline, provided no rationale for involvement or were outside the participation area envisaged in the CPP.

6 How should the application from Mr S Bray be dealt with?

Mr Bray nominated under Category B but then stated “I regret that due to travel commitments and other work commitments I am unable to participate as much as I would like, i.e. I am unable to attend meetings in Perth at this time”. Mr Bray was not included in the original list of applicants because of this statement. His application was identified in the last minute cross-check of applications and presented to the Committee on the night. The Committee selected Mr Bray as a Category B member.

WARD: North Central

**RESPONSIBLE
DIRECTOR:** Mr Garry Hunt
Office of CEO

PURPOSE / EXECUTIVE SUMMARY

To provide the Committee with the meetings notes of the Ocean Reef Marina Steering Committee.

BACKGROUND

At the meeting of 24 April 2007, Council agreed to the establishment of a Steering Committee, comprising the Chief Executive Officer, representatives of the Western Australian Planning Commission, Department of Planning and Infrastructure, LandCorp and the Water Corporation, to oversee the day-to-day activities of the Project Group.

The Project Group was established to manage the project, and consists of City officers, State Government Departmental representatives and relevant consultants. The Coffey Group (formerly Clifton Coney Group) has been appointed as the external Project Manager for this project, in accordance with their contract with the City.

The reporting structure of the project is:

On 17 December 2007 background documentation was circulated to Elected Members, particularly in relation to past decisions of the Ocean Reef Marina Committee and the Council, as well as clarification of the Terms of Reference of the Committee, the public participation process and recent past decisions of the Council in relation to the project.

DETAILS

The Ocean Reef Marina Steering Committee has met on four occasions, with the last meeting held at the Marina site to allow attendees to see the layout and contours of the site.

OCEAN REEF RESIDENTS

| Surname | First Name | Age | Reasoning for Selection |
|----------|------------|---------|--|
| Axford | Jane | | I have lived in Ocean Reef for over 11 years and wish to continue enjoying life in this suburb |
| Bailey | Timothy | 42 – 47 | I am a school teacher and a parent. I have strong views on the design proposal that caters for families and the environment. |
| Bamforth | Emma | 30 – 35 | ...very interested in serving on the community reference group and believe I could be a valuable contributor to the structure planning process....involved in the environmental and planning industry for over 12 years both as a consultant and state government employee. ...organised and been a facilitator at a number of community consultation programs and have presented at and consulted with many key stakeholder groups for a range of infrastructure projects in Perth. ... also been a serving member on the community reference group for the Yellagonga Regional Park management plan. As a local resident I have a keen interest in the marina development and with my planning and environmental background I believe I could be a valuable member on the marina development community reference group. |
| Beasley | Michael | 60 - 65 | I would be keen to serve on this committee as a local resident...All my business life I have been in commercial real estate. Own business. Also a property developer. Major client in the UK was a joint owner of the Brighton Marina and was involved in extension of facilities. Aware of the balance to be achieved in terms of commerciality, local needs and broader picture and environmental concerned. |
| Bruce | Gordon | 42 - 47 | I own 2 properties in Ocean Reef, one of which is my primary residence and another one in Mullaloo, therefore I have a vested interest in seeing Ocean Reef and the surrounding area prosper.I may not have been involved in any council activity before as am a manager in an oil company, but I'm sure I could contribute something. |
| Calder | Nicholas | 30 – 35 | Ratepayer since 1999. Development of the marina site should be eco-friendly. Would be a shame if we took all the natural rolling dunes and any wildlife away in the process of development, which should be based on sustainable principles. I am a chartered accountant and a registered company auditor and will bring a realistic financial perspective to this development. |
| Cameron | Roger | 72 – 77 | I have an open mind with a business development background - have been in retail and leisure. |
| Campion | Natalie | 36 – 41 | As a wife, mother and marketing professional and Ocean Reef resident I have much to offer a committee. I currently consult as a Stakeholder Manager advising companies how to analyse, plan and manage their corporate and project stakeholders. I have a degree in Media and Public Relations and a vested interest in seeing this project move forward for my family and community. My children attend Ocean Reef Primary and my husband is a Director of Carmichael Capital Markets. I have the resources to volunteer my time and adequately fulfill the obligations of this committee. I would be especially useful in addressing the community liaison aspects of the committee through scheduling and Gantt Chart organisation. Please ask me on the committee as I would very much like to contribute where asked. |
| Carlson | Simon | 42 - 47 | I would like to be involved in the marina's future |
| Chadwick | Gareth | 36 – 41 | I have worked in land development for a number of years. Within Western Power as Team Leader Land Development, SKM as Distribution Design Team Leader and currently Design Manager at Alliance Power and Data. I currently work closely with Western Power, Horizon Power, also the Land Development and Mining Industries. I have previously worked closely with civil engineers and have overseen stages of the Electrical design of both Mindarie and Port Catherine (Coogee) Marinas. I have good understanding of the processes involved and would be happy to share my knowledge and contacts with the City of Joondalup. |

|-------------|---------|---------|--|
| Coney | Alan | 54 - 59 | I have lived in the northern beachside suburbs for over 20 years and seen the development of both Hillarys boat harbour and Mindarie marina....I have an understanding of what will attract people/families to a marina development ... essential for ... a successful development...into the future. |
| Corria | Carlos | 66 - 71 | If I am needed I have the time...as retired. ...Engineer with business experience. ...Worked as a director for private and public companies including my own...I have travelled extensively having been around the world many times. |
| Crane | Robyn | 60 - 65 | Extensive experience in land planning and development of community infrastructure (recreation centres, child care centres, cultural facilities, sporting venues). Shire president for 5 years and led the Shire of Roebourne during one of its greatest periods of expansion. GEO of the Pilbara Development Commission. Responsibility for a number of major budgets including the Karijini Visitor Centre and the Onslow Sea Wall. Direct responsibility for design acceptance and financial control. Understanding of financial implications of projects prior to construction and scheduled maintenance. |
| Crouch | Ray | 54 - 59 | My family and myself have lived in Ocean Reef for the last 19 years. Using the Marina and facilities we would love to see them upgraded so that everyone could enjoy them. |
| Culloton | Marise | 42 - 47 | I live within 500 meters |
| Cunningham | Sean | 36 - 41 | As a keen surfer and diver (I shore dive both North and South of existing Marina) I hope to be able to help reduce marine eco damage and help develop facilities for surfers and divers. |
| Dailey | Lynne | 24 - 29 | I have an interest in community life and this is a major development project for my suburb. I would like to act as a representative from my age demographic. I also see this as an opportunity to be part of the development of a new marina, one that should reflect the area and its residents. |
| Dallas | Roger | 54 - 59 | I have lived in this coastal area for many years, and fought to get the Ocean Reef Rd extended together with the Marina extension, when I formed part of the Ocean Reef Action Group. I formed part of the Community Reference Group at that particular point in time, and never missed a single meeting. I have worked for the government for over 30 years in the building trade and know how the system works. I am keen to see this project get a move on after 30 years of waiting, and would be proud to say I might have contributed something positive, or have been some small help along the way. |
| Donkersloot | G | 66 - 71 | Always been interested in improving this beautiful area and community to the benefits of our [indecipherable] and also the forgotten seniors. More should be done so they can come together and enjoy this beautiful area with friends. |
| Donnelly | Karen | 48 - 53 | I moved to Ocean Reef (and Australia) 5 years ago, excited by the prospect of the development of the marina, I have young adult children, am close to people with small children, have elderly relatives who visit long term. I feel I have a wide range of interests I can represent. |
| Eastwood | Ken | 66 - 71 | I participate in water sport activities within the Ocean Reef area of the City. I am now a retired Public Servant having served with State Government for 20 years, having served with Ministry of Sport and Recreation and being seconded as Senior Recreation Officer to the City of Swan, City of Stirling and the City of Perth. I hold a degree in Social Science (Recreation). My community work within the state allowed me to receive the British Empire Medal. I have been prominent in the Community Planning of a number of recreational centres and facilities within the above local authorities. Within my past employment I was Vice President to the Public Service Union then the C.S.A. now the C.P.S.U. I have a wealth of knowledge of working within local Community Structures and on numerous Local Government Committees. I would be grateful for the opportunity to serve the City in the development of this future facility. I am fully aware that the completion of this facility may be many years away, but it is most pleasing to see that the City has the foresight to seek community participation at the early stage. |
| Ellerby | Annette | 30 - 35 | As a resident of Ocean Reef, I am able to have contact with a large number of other residents who will be directly affected by this development. I can therefore assist with gathering or representing views. I am also an employee of the City of Joondalup and feel that I am well placed to understand and articulate the plans and proposals of the City. |

| Farquhar | George | 72 - 77 | 25 years building industry; 10 years local council recreation leisure; 20 years sail deck training officer. |
| Fasolo | Kerry | 54 - 59 | I do not represent any groups, but as a long time resident have been eagerly awaiting the fruition of this project. As it is still going to be some time it seems a pity that some temporary (but still tasteful) café has not been developed for the people who walk through the area already. Although I do not represent I would be prepared to canvass local school P&C groups for their opinions and to keep them informed of the progress of the community reference group. |
| Fleming | Rhonda | 48 - 53 | Believer of people "getting a voice" and being heard. Walked streets locally encouraging people to complete forms and not complain about Council's decision after the event. |
| Foord | Gavin | 42 - 47 | Being involved in design, development and management of a hotel marina in Malaysia, combined with the fact I have the availability of off-shore investment as well as hold over 30 years experience, I would welcome the opportunity to participate in this important community project. |
| Gillespie | Robert | 48 - 53 | As an owner of a penned boat and my house overlooks the Ocean Reef Marina, I would love to get the Marina going as soon as possible. As an employee of the City of Wanneroo I worked on the carparks and dived on the launch ramps. I would like nothing better than to see the job I started so long ago finished. |
| Green | Rob | 42 - 47 | I have extensive commercial marketing experience and have been involved in tourist attractions and developments overseas. I am a Manager for Joondalup Brothers Rugby Club based at Beaumaris Sports Association. Ocean Reef resident. Can commit to time for CRG. Young family understand type of facilities and attractions. Travelled extensively - experienced diversity of attractions. Served OR Primary School P&C. Successful fundraising. No commercial vested interest. Support careful consideration of a sustainable local facility. Member of OR Sea Sports Club. Can communicate with and disseminate information to local residents, Rugby Club, OR Primary, Sea Sports Club and local businesses. |
| Greene | Kenneth | 54 - 59 | As a 20 year resident (12 in Beldon & 8 in Ocean Reef) I and my family have developed a strong loyalty and affection for the area and I am very keen to ensure we get a development that meets the needs of the community, the environment and business. My wife and I live and work locally. I have good people skills and can work well within a team environment with proven planning skills gained as a professional manager in a corporate environment. I took part in the Ocean Reef Rd extension workshops which I found to be a very rewarding experience and I'm very keen to be a part of this important and exciting development in our city. |
| Harrison | G | 54 - 59 | Resident - special interest in that the marina development is of highest standard benefitting all local communities |
| Higgo | Garth | 48 - 53 | I have a strong interest in seeing the Marina enhance the profile of the residents of the north western suburbs. - I am a senior executive in Business Development in the mining industry in WA and believe I can bring another perspective to the committee. I am a qualified diving instructor and have a strong connection with the ocean and its environs. |
| Hughes | Nathan | 24 - 29 | Living in Beaumaris with a young family, I want to have an involvement in terms of how my community is shaped. I have grown up in the Ocean Reef area, having gone to the local schools and am now employed in a professional capacity with a bank in the area. I am interested not only in a personal perspective, but also in a professional capacity in terms of what changes are being made in my local community. I believe that I would be suitable to represent my general demographic. |
| Hunter | Tom | 48 - 53 | ...lived in Ocean Reef for 13 years and plan to remain here for the rest of my life, so I have a keen interest in seeing this suburb developing in a positive manner. |
| Janisch | Werner | 36 - 41 | I have lived in Ocean Reef for several years and plan to stay in this suburb for the foreseeable future. I have a baby boy, who is being taken care of by his mother and father. I would like to create a healthy living environment for a young family to grow up in. The Ocean Reef marina will form an integral part of our immediate surroundings and will be used extensively. We as a family use the Ocean Reef foreshore and its beaches extensively and responsibly. I would like to help build an environment in which business can grow, families and friends can enjoy the beautiful scenery Ocean Reef has to offer and fans of the water can go out there and use the Ocean Reef Marina as a starting point to their adventures in the big blue. I am enthusiastic about this topic and want to make a difference in the community. |

OCEAN REEF RESIDENTS

| | | | |
|-----------|---------|---------|---|
| Joselyn | Keith | 48 - 53 | I have been a resident of Ocean Reef since arriving in Perth from the UK in 1999 with my young family. We have an interest in sailing and water sports and maintain a close association with ORSSC. 30 years experience in...earthmoving...building construction...currently employed as a building manager for a major reconstruction company. |
| Jowett | Jeffrey | 54 - 59 | I am a long-term Ocean Reef resident, and a keen recreational fisherman. I have over 11.5 years Local Govt experience, specifically related to infrastructure and facilities management & maintenance. |
| Leather | Melanie | 54 - 59 | I have served 4 years on the Ocean Reef Residents Association (now defunct). I have actively lobbied for the developement for 10 Years. I am willing to give feed back to residents of Ocean Reef & to field residents input and enquiries. |
| Manson | Mark | 42 - 47 | As a local soccer coach I am constantly in touch with the local community and feel I have a good insight to their desires and aspirations. As a father I feel I can relate to the requirements of both adults and the children of the community. |
| Marchant | Cecily | 42 - 47 | I am a Mother of 3. grandmother of 2, therefore the future and growth of the Joondalup region is very important to me. I understand and have studied the importance of a healthy balance between environmental conservation versus commercial/residential economic growth. My family will be living straight across the road from the marina. My children and grandchildren will frequent the premises. |
| Martin | Ingrid | 48 - 53 | I am not involved in any group. I am a mother of 4 and I have lived in this area for over 20 years. I want to ensure that the development is what the people of Ocean Reef and the surrounding areas want. I have experience in decision making both as a mother and a business owner. As a divorcee, I have successfully run my own business and brought up my children in Ocean Reef. |
| May | Karyl | 36 - 41 | I have lived in Ocean Reef for 15 years and my 2 children attend school locally. I am keen to see the development make progress after all this time and would be happy to contribute my local knowledge and professional business experience to a reference group. |
| McLennan | Murray | 48 - 53 | First lived in Ocean Reef since 1984. Have been watching the northern coast develop - and would like to contribute by ensuring that future development is appropriately planned. |
| Miller | David | 36 - 41 | I am a local resident who is keen to see the marina proceed, but on good design principles. |
| Moro | Jim | 42 - 47 | I have experience serving in community based committees as I have recently served a two year term as a board member for the Water Corporation's Customer Advisory Council. |
| Mortimore | Geoff | 48 - 53 | I think being well travelled I can bring in a lot of good ideas |
| Nichols | Kerry | 54 - 59 | I moved to Ocean Reef to enjoy the wonderful coastal lifestyle. I also thought that the Marina must be imminent and I have purchased a house overlooking the Boat Harbour. My friends and work colleagues would tell you that I am very motivated to participate in committees. I have been President of a large association in WA and now serve on the National Board. I am not wealthy nor am I poor so I believe I could represent the average rate payer in the area without bias. I am very keen for this project to happen and would be interested in trying to progress this project rather than seeing it be continually delayed. The area is screaming for something to be done. The success of Burns Beach cafe should tell you that. I would be very interested in being part of this committee so would appreciate your consideration of including me in the consultation group |
| Pearson | Gerald | 66 - 71 | Ocean Reef resident. Very supportive of the Marina Development Project. |
| Powell | Joy | 48 - 53 | Eagerly awaited the arrival of the Marina. Long term resident. Would like to be part of its history and creation. A voice for neighbours and friends. Member of an international children's charity - National Secretary for Australia. Also served on social and fundraising committees. Hosted vistors from around the world - a good ambassador for the development. |

OCEAN REEF RESIDENTS

| | | | |
|------------|----------|---------|--|
| Richardson | Phil | 54 – 59 | I have lived in the area since 1989 and the potential of the marina development was a factor in choosing Ocean Reef as my home. I am a retired head of a northern suburb high school science department and have analytic skills and communication and social skills including conflict resolution. I am not associated with any political party or other interest group. I have the interest of my fellow Ocean Reef residents as my primary motivation, and then the interests of my fellow Joondalup ratepayers, and not investors or developers. I have time to be involved. |
| Rodgers | Caroline | 42 – 47 | I live directly opposite the existing facilities. All changes will have severe impacts upon my view which is what I paid for when I purchased the house. |
| Rolfe | Mary | 42 – 47 | As I do not represent any particular group I feel that I could look at the proposals from the perspective of a local resident who is not going to be effected by anything that is put forward therefore I could give an unbiased opinion. Also I could liase with my neighbours and ask for varied opinions and pass these on through the committee. I feel this is a very important issue that will have an impact on all suburbs also that the normal person should have a say. |
| Seifert | Jerry | 60 - 65 | I am an older, long-term resident of OR, who wants the best outcome for locals. I respect the fact that others may have different goals and opinions, which may be just as valid as mine. I have no ties to any lobby groups, and am thus less likely to make biased judgements. I am an engineer, trained in logical thinking prior to taking action. |
| Spaseski | Cane | 42 – 47 | I have lived at Ocean Reef for 14 years and having the right balance of development at the marina site is very important. I am a town planner and can contribute towards the decision making process to develop a sustainable marina that gets a local community focus. |
| Strange | Irene | 54 - 59 | Because I live in Venturi Drive which is near the development and I would like to see the area grow in a way that benefits everyone. I am a licensed real estate agent and dealing with people in the area on a daily basis. |
| Stuart | Terry | 60 - 65 | Lived in...suburb over 18 years...awaiting development. ...experience of committee meetings...for a year involved with committee [on] health, safety and welfare for Disability Services...[involving] government, union officials, management etc [Served overseas] as Emergency Services Coordinator. ...travelled most of the world...interest in boating...[viewed] marinas in Europe, Mediterranean, Persian Gulf, Far East. Hands on sailing experience. Interests...architecture and photography...involved in building design. |
| Tait | John | 48 – 53 | I have, I believe, a very balanced view of the environmental/developmental balance and have been involved in building, some design work and committees in the past. |
| Thompson | Brian | 30 – 35 | I am a long term resident of Ocean Reef aged 34, with varied interests such as fishing and water activities, family oriented and social activities. I would also like to see the area developed with better facilities but realise that this can only be done by balancing the varied needs of residential, recreational, business, and commercial. As a relatively well travelled person within Australia and overseas I believe I can offer something to planning a community supported project. |
| Thomson | Maureen | 54 - 59 | I have lived in Ocean Reef for twenty years, love the area, would like to downsize in the future whilst remaining within my community. I am realistic, having both worked and lectured in Community Development, understanding budget constraints etc and the merging of communities with local govt. to secure the best outcome. I am excited by the much needed development and appreciate the importance of creating a uniqueness to work for the area, and to avoid a quick fix to pick up the overspill from Hillarys as it cannot cope with the increasing numbers of visitors every year. |
| Trainor | Marta | 48 – 53 | I attended the meetings of the ocean reef road extension and was pleased that our concerns were taken into account. We have been waiting for a move on the marina for many years. It is time some action is taken to make it start happening. I understand the marina is going to be smaller than Hillarys and larger than Mindarie. We should learn from both those marinas and improve on it. The marina will attract tourism and offer employment for local people. |
| Tweed | Tom | 36 - 41 | I live in Ocean Reef and care about what happens here. |

My wife is a senior executive for a national company....experienced in ...project management...good experience in local government issues.... children went to Ocean Reef High School. Our property looks over part of the proposed marina site [yet] supporters of the proposal believing the coast is for all West Australians and visitors....active member of Whitfords Sea Rescue for 3 years...owned and moored a boat within Hillarys Marina. {Previous] members ...Whitfords Sea Sports Club and utilise the area...weekly whilst walking our dog. We are not members of, nor are aligned to any political party nor any local interest group....travel widely both within Australia and international [and we have] an excellent understanding of coastal and marina uses. |
| Windle | William | 54 – 59 | I would like the northern beaches to be family friendly where the weekends could be spent catching up with family and friends. - I like to keep up with whats going on in the area and would like to be involved in the marina's progress. |
| Woods | Kelvin | 42 – 47 | As a boat owner, resident of Ocean Reef and member of the Ocean Reef Sea Sports Club at the marina, I use the existing facilities there regularly. I would like input and to be kept informed as to progress on any potential development. |
| Woods | Murray | 42 - 47 | One of the major reasons for buying a block in 1999 and building a home in O/Reef was because of the future Marina amenity. Have had an interest in the style and type of development and want it to be a major attraction for the State so that the Joondalup City Centre can become a future focal point where people want to visit because of its closeness to a world class marina. |
| Young | Paul | 36 - 41 | Highly skilled communicator and participant in public consultative workshops.Understand the need for a structured plan outlining scope, budget, schedule, stakeholder management, Community communications plans, risk management, quality planning, resource constraints and contracting strategies and the integration of these key elements of the project. Understand the need for dessiminating information to wider community and have existing conduits to local sporting groups and interest groups. |

| Bryant | Anne | Connolly | 60 - 65 | I have a keen interest of what is happening in the surrounding suburb. I am a committee member of the Connolly Residents Association and can report back to residents at our local residents meeting which is held monthly. Involved in Mitchell Freeway Extension Hodges Drive Burns Beach Road for last 3 years. |
| Sgambelluri | Maria | Connolly | 42 - 47 | As the mother of primary and pre-school age children, I feel I would be a good representative of parents with young families. I am actively involved in the West Coastal group of the Australian Breastfeeding Association, which gives me further access to the knowing the needs and frustrations of young families when seeking entertainment or outings. I have lived in Connolly for nearly 14 years, and in this time have been pleased to see the enormous development of facilities in the City of Joondalup to transform the area from an 'outburb' to a well-served, happening place where it is good to live. I think the marina is something to get truly excited about and if well-done, will further raise the profile and desirability of our locality. |
| Taylor | Ian | Coolbinia | 54 - 59 | Represents Abalone Industry Association of WA. Concerned about the impact of any seaward extension on the abalone grounds. |
| Brooker | Paul | Heathridge | 36 - 41 | 1st submission. I have lived in the area a long time and have some very clear ideas about the development. I am a great listener and moderator. I have some project management experience. I will use this facility! 2nd submission. Represent Ocean Reef Progress Association. User of marina for fishing and boating. Will use development a great deal. Keen cafe/restaurant goers. |
| Flower | David | Heathridge | 42 - 47 | President Mullaloo Longboarders for the past 3 years. Also own a boat and regularly fish and dive out from Ocean Reef. Also a member of ORSCC |

| Cooper-Fowle | Rhett | Iluka | 42 - 47 | Represent Iluka Home Owners Association Inc., Lived in the Northern corridor for the past 15 years. 4 children here. Involved in previous community consultations on proposed uses. Members (currently 1345 house holds) interested in any development. Wish to represent our members to discover options being developed/considered, canvas our members to establish their preferred options, represent their interests in moving the development of this area to fruition as it has been on and off the development stage for many years. |
| Harfield | Mick | Iluka | 24 – 29 | WA Divers Club has over 150 members with over 65% them living north of scarbrough and use Ocean Reef marina as there main Launching ramp. I would like to be on the committee so we as a club we could have a little input into something that is going to affect our favourite past and future times in such a big way. |
| Rogers | Clem | Joondalup | 54 – 59 | The Small Business Centre is a focal point for the Northwest Region business community, especially those new businesses and those planning growth, by having representation on the committee quality information can be supplied to ensure an integrated and broader viewpoint can be given to the final outcome. We can communicate and liase with all sectors of business. |
| Clark | Peter | Kinross | 48 – 53 | I am a ratepayer of the City of Joondalup. I am a foundation member of the Mullaloo Longboarders club, where i have been a past president, club champion, club member of the year and general commitee member for a number of years. I helped draft our original submission to the City on this issue several years ago. I have a keen interest in the development of surfing in this are and the state. I have been surfing for almost 40 years and have the respect of the surfing community, I am well known in the community at large, and I have the ability to communicate with individuals and organisations in a positive manor. |

| McCormick | Gary | Mullaloo | 48 – 53 | <p>I have been involved in and still am involved in groups that use this type of proposed facility. Member Marmion Angling & Aquatic Club. Member (ex Patrol Captain) Mullaloo Surf Lifesaving Club (ex Board Member 3 years, Director of Education. Member of Mullaloo Longboarding Club 6 years. Member of the Board of Management Surfing WA Inc. My occupation is TAFEWA lecturer, Swan College and hold a Bachelor of Education. I have lived in Mullaloo for 20 years and participate in event surfing and represent longboard surfers in WA. While I do not represent the wider group of the community I do represent the many thousands of body boarders and surfboard riders. Remembering that in Western Australia one in five either surf or know someone who surfs and it is still growing. Tourism is attracting people from all over the world to areas that have good surf to learn or enjoy. Surf clothing is mainstream and many individuals make a living from this. It is as Australian as Surf Lifesavers and meat pies.</p> |

| Apthorpe | Majorie | Ocean Reef | 60 - 65 | Represents Friends of North Ocean Reef/Iluka Foreshore. I work in a volunteer capacity rehabilitating the natural bushland of the Ocean Reef foreshore so that all can enjoy this magnificent stretch of beautiful coastline. I talk with many local people and visitors in the course of my work, and am aware of those features that people most appreciate about our coastline. I am professionally qualified, and have a keen interest in marine erosion, sea level change, and sustainable development in a time of climate change. I am also well aware of the biodiversity objectives of the City of Joondalup's Environment Plan. |
| Bell | Terry | Ocean Reef | 60 - 65 | As a very close resident (500 metres from marina) and lifelong boat owner, I have had a keen interest in the marina development since it was built. I have followed the progress of the Hillarys marina and have many ideas as to the merits and otherwise of that has occurred there. I am an active member of the Ocean Reef Sea Sports Club and on the committee [...and representative of...] Australian Anglers Association , which will enable me to seek input and pass information to a large group of stakeholders. |
| Norman | Michael | Sorrento | 54 – 59 | Joondalup Community Coast Care Forum (Inc) is a community based organisation specifically established in 2000 to act as community reference group for monitoring issues and initiating action in relation to the Joondalup Coastal strip, particularly in relation to conservation, recreation, development, education and culture. I am currently hold the position of Chairman of this group. |
| Slomp | Andrew | Sorrento | 36 – 41 | I have 10 years experience in the Sunset coast from a residential and small business operators perspective. Most of these years in a marina environment and an able to look at the plan from a sustainable business perspective. |

|---------|------------|-----------|---------|---|
| Hunt | Edward | Clarkson | | I do not want to see the surf breaks that exist north of the marina destroyed. I am the founding president of the Mullaloo Longboard Club and founding member of the Joondalup Coastcare Forum. |
| Buzzard | Brian | Duncraig | 60 - 65 | As a boat enthusiast I would like to see a good Marina project without being aligned to any commercial interest group. As a pensioner I would like the outcome to be priced for the community benefit, not profit motive. As a father and grandfather I would like to leave a good legacy to all our future generations. I am 61, a TPI pensioner, RSL member and former deputy/principal. |
| Cutten | Ron | Duncraig | 66 - 71 | Member of the Ocean Reef Sea Sports Club |
| Ammon | Michael | Greenwood | 60 - 65 | The present Ocean Reef Marina and associated Club have given me a lot of pleasure over many years ...would like to be a part of the new development proposals. I have gained a little experience over my life and would like to be given the chance of a new experience and hopefully contribute something to the community reference group. Whilst I have an interest in the ORSSC I can also place myself in the position of the developers and surrounding neighbours of the Harbour. |
| Caddy | Graeme | Joondalup | 42 - 47 | I am a long term member of the Ocean Reef Sea Sports Club and have had prior involvement with the proposed development, though minor. |
| Noble | Michelle | Joondalup | 36 - 41 | I have never participated on a Community Reference Group before and having seen some tragic outcomes, think that the City of Joondalup must be making some poor choices in selecting participants. I would like to see the marina developed in a way that reflects the lifestyle and preferences of the growing number of professional people choosing to live in the City of Joondalup, rather than ending up at a tacky northern-suburbs embarrassment (again referencing to Sorrento Quay!). I live in Joondalup and have another property in Connolly, therefore have a strong interest in ensuring that the development adds value and appeal to the area. |
| Gasking | R | Kallaroo | 78+ | Was heavily involved in the development of Hillarys Yacht Club during its construction phase as Club Secretary |
| Repke | Rainer | Kallaroo | 66 - 71 | I have been living in Kallaroo for 8 years. I have experience in Project Development in many Countries, I am a retired Banking Executive, might be helpful to fund such a deal, I have travelled all over the world and know Resorts which might serve as a guidance. Would like to see that Perth stops to be guided by a low common denominator and starts to compete for best results. |
| Turner | Richard | Kallaroo | 78+ | I am interested to have input to the consultation process in order that the Marina caters to a wide range of ratepayers and not only to the lobbying vested interest groups. |

| Tilbrook | Rohan | Sorrento | 48 – 53 | Having been born and lived in Perth all my life and having grown up surfing and fishing the local Perth Beaches continuously for 40+ years I feel I have an intricate knowledge of the local coastline and having seen too many mistakes made by poorly informed or hasty decisions made because of influential economic pressure being applied to councils and committees with vested interests. I feel I can make an unbiased and valuable contribution to any committee without any vested interest except to offer my long term coastal use observations. |
| Ironmonger | Donna | Woodvale | 42 - 47 | My background is marketing, education and leisure in three different state of Australia and then overseas in California. My interest and current role is in local government and my passion is aquatics. This mix draws me to a project such as this. I feel I can contribute to this community reference group from a wider community perspective. I feel the City has the opportunity to develop a great facility that will surely enhance the economy, tourism, lifestyle and health and well-being in the northern corridor. |
