

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Sorrento Surf Life Saving Club	Community Services	Purchase of a new Inflatable Rubber Boat (IRB) to conduct rescues	\$9,000	\$4,500	\$4,500	The project addresses: Demonstrated need in the community; Community support in either cash or kind with the contribution from the Australian Surf Life Saving Council of \$4,500.00 – 50% of the cost of the IRB; and The Council's Community Funding Policy & Guidelines
Whitfords Volunteer Sea Rescue Group	Community Services	Purchase of audiovisual material. This will be used for education of both young and old members of the local community in 'Safety at Sea'.	\$4,550	\$4,550	\$3,200	The panel assessed that this was a unique project within the City which supports new initiatives bringing identified positive benefits to young people. However it was assessed that as Whitfords Sea Rescue Group provides services from City Beach to Burns Beach funding could be sought from other Councils such as the City of Stirling so only part funding has been recommended.
Woodvale Baptist Church	Community Services	Purchase equipment necessary for running a Seniors Group on a weekly basis	\$2,400	\$2,400	\$800	The panel assessed that this project met the funding objectives by demonstrating a local response to the needs of seniors in the City. However the panel assessed that only part funding should be granted as only a small percentage of seniors in the City of Joondalup would benefit from this funding. The Woodvale Baptist Church will not be advertising this group and is relying on word of mouth only to recruit new members. Funding is recommended for a set of carpet bowls, tennis table and playing equipment and dart board.
Woodturners Association of WA	Community Services	Purchase of equipment to better display the more artistic skills that are a part of woodturning	\$2,300	\$2,300	\$1,150	The panel assessed that this was an activity that would involve seniors in more active involvement in their community. However it is recommended that only half the amount of funding requested should be granted and that the group be directed to the City of Wanneroo to apply for the other half of the funds needed.
1st Beldon Scout Group	Community Services	Extended training for Scout Leaders. This will allow the leaders to offer many more interesting and challenging activities to their youth members in a safe and well structured environment.	\$980	\$980	\$980	The project addresses: Value for money; Demonstrated need in the community; and Community support in either cash or kind – all other costs for the scout group are self funded.
Whitford Church of Christ	Community Services	Conduct a nine week program entitled "A search for intimacy". This will assist teenagers and their parents to understand and manage their sexuality & it's ramifications in our society.	\$18,660	\$9,300	\$1,300	A large part of the grant requested is for an \$8,000 video projector. The panel assessed that to grant this amount, which is one third of the total funds available of the Community Services budget was not appropriate. It is suggested that Council funds other important costs listed in the budget such as training videos, promotional brochures and a VCR which total \$1,300.00.
Relationships Australia	Community Services	Camp for young people living in the Joondalup area who have witnessed domestic violence or been affected by parental separation. The camp would complement existing service for young people which Relationships Australia (WA) already provide through their Joondalup office.	\$11,240	\$2,500	\$1,500	After assessing Relationships Australia's budget the panel have recommended only part funding of this application. The camp costs including food, accommodation and adventure activities for 3 days and nights total \$1,500.00. The panel assessed that other costs could be funded elsewhere.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Dads Landing Pad	Community Services	Provide monthly activity outings for dad's and their children.	\$11,220	\$3,960	\$1,300	Dad's Landing Pad have stated in their application that their membership extends as far York to Geraldton to Mandurah and across the entire metropolitan area. The panel therefore assessed that only one third of the funding - \$1,300 – should be approved which should encompass the costs for those members within the City of Joondalup.
Kingsley Community Family Centre Playgroup	Community Services	Purchase of educational toys and equipment	\$3,080	\$2,500	\$0	This project did not meet the priorities of the Community Services Fund. This project was not aimed specifically towards Youth or Seniors. The panel also assessed that this project could be funded through the Lotteries Commission and therefore did not meet the criteria that all other funding sources had been exhausted.
Dad-Eze Home and Professional Services	Community Services	To establish this service as a non-profit entity and to pay for primary insurances and promotional material	\$2,500	\$2,500	\$0	This group did not meet the eligible organisation criteria as they are not incorporated nor a recognised not for profit organisation. As the organisation is not established they could not provide any financial statements and therefore could not satisfy that appropriate accountability processes were in place. There is currently another not for profit organisation providing similar services to support separated fathers in this area called Dads Landing Pad and it was suggested by the panel that Dad-Eze contact this group before pursuing anything further.
Sorrento Quay	Community Services	Conduct a week of interactive activities and entertainment to involve school leavers and other youth	\$26,775	\$6,090	\$0	This group did not meet the eligible organisation criteria as they are not incorporated nor a recognised not for profit organisation.
Connolly Primary School	Community Services	Trial a Carpool registry page on its Home Web Site. It hoped to allow the school community to register and access people within the community who wished to carpool their vehicles for commuting children, parents and teachers to and from school and associated events.	\$2,500	\$2,500	\$0	This group did not meet the objectives or priorities of the Community Services fund as the project was aimed at school children, parents & teachers not aimed towards youth or seniors.
Poynter Primary School	Community Services	Upgrade the playground equipment in their preprimary centre to enable the resources to be shared with playgroups in the community.	\$14,840	\$2,475	\$0	This group did not meet the objectives or priorities of the Community Services fund as the project was aimed at pre-school aged children not aimed towards youth or seniors. The panel assessed that this project could be funded through the Lotteries Commission and therefore did not meet the criteria that all other funding sources had been exhausted.
Northside Youth	Community Services	Develop a mentoring program for Yanchep & Clarkson High School students and bring them to Joondalup to celebrate youth, develop positive relationships with youth and youth leaders and other activities for youth.	\$3,000	\$1,912	\$0	The panel decided not to recommend funding as the project was not aimed at youth within the City of Joondalup and assessed that this group should be referred to the City of Wanneroo for funding.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Brazilian Community	Community Services	Provide a program named 'To Live For' which aims to increase awareness of suicidal signs among Brazilian youth and to prevent or decrease the number of suicides by inviting Brazilian artists to perform at schools showing Brazilian dance, music and food.	\$1,500	\$1,500	\$0	The panel decided not to recommend funding for this project as there were no statistics provided on the amount of Brazilian youth within the City of Joondalup community nor the rates of suicide among this group. No financial statements were provided and the panel assessed that this group could not prove that appropriate accountability processes were in place.
Padbury Kindergarten	Community Services	Installation of reverse cycle airconditioning.	\$7,000	\$4,200	\$0	This group did not meet the objectives or priorities of the Community Services fund as the project was aimed at pre-school aged children not aimed towards youth or seniors. However the Padbury Kindergarten is housed in a Council owned building and their application for the installation may be considered separately to this process as part of Council's budget process.
Heathridge Central Playgroup	Community Services	Upgrade current old equipment and to buy new equipment to incorporate older children that will now attend the playgroup due to the later school year start. This will be aimed at 4 and 5 year old children.	\$1,712	\$1,500	\$0	This group did not meet the objectives or priorities of the Community Services fund as the project was aimed at pre-school aged children not aimed towards youth or seniors.
Wanneroo Employment Skills Training Network (WESTN) Inc	Community Services	Funding is sought to assess the general interest of a group of Joondalup's senior citizens in the formation of an internet club.	\$5,600	\$2,500	\$0	WESTN's hope is that such a club will bring seniors and youth together through the net and email. Although this organisation's project meets the community services funding objectives and priorities the panel assessed that funding for the project could be sought from the Lotteries Commission or Federal Government. WESTN also produced financial reports showing a substantial surplus of funds as at 30 June 2000 that could also possibly be used for this project. Therefore the panel recommend that funding be denied for this project on the grounds that not all other funding sources have been exhausted.
		TOTAL COMMUNITY SERVICES	\$128,857	\$58,167	\$14,730	

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Wanneroo Sofcrosse Modcrosse Club	Sport and Recreation	To conduct workshops and try out days at Primary Schools in the City of Joondalup.	\$4,660	\$2,000	\$1,320	The program was regarded as positive in its attempts to promote what is considered a minority sport. The applicant has been running the program for the past 4 years with increasing success and participation levels. Partial funding was granted based on the fact that the club's target schools also include children from the City of Wanneroo and hence funding was decided on a population ratio of 66%.
Joondalup District Cricket Club	Sport and Recreation	To conduct cricket coaching clinics during the summer holiday period.	\$4,500	\$2,500	\$2,000	The panel concluded that the project has merit in its approach to promoting participation in cricket and enhancement of the skill levels of juniors. The funding is however subject to the club supplying the accreditation's of the coaches being used and further details relating to the times and dates of the clinics to the satisfaction of the Manager of Leisure and Ranger services.
Wanneroo Basketball Association	Sport and Recreation	To conduct a 1 week activity camp over the school holiday period.	\$6,900	\$2,500	\$1,670	Partial funding is recommended as the Wanneroo Basketball Association has a large target market, which includes the City of Wanneroo. Therefore, 66% of the funding was recommended based on the population ratio.
Wanneroo Lacrosse Club	Sport and Recreation	To encourage high school students to achieve a higher level in the sport of lacrosse.	\$3,500	\$2,500	\$1,750	The project was viewed as positively developing a minority sport with the focus being on young people in the sometimes difficult teenage years. Schools that have participated in recent years have expressed the benefits and opportunities of the program. The panel recommend an equal 50/50 share with the club for the total cost of the project on the proviso that all schools targeted are within the City of Joondalup.
Sorrento Soccer, Sports and Social Club	Sport and Recreation	To provide a soccer skills and knowledge training clinic for juniors.	\$4,200	\$3,620	\$1,500	It was seen as a worthy program, focusing on enhancing the development of junior soccer in the City of Joondalup. The panel decided that the supply of soccer balls was the responsibility of the club and that they should already possess a first aid kit. Disregarding these costs, the panel is recommending funding 50% of the total project cost.
Perth Wave Ski Club	Sport and Recreation	To provide a wave ski development course in early 2001.	\$2,900	\$1,740	\$1,450	The program was seen as extending the variety of recreational opportunities in the community and promoting the use of beaches as leisure facilities. Funding was only recommended subject to the participants all residing in the City of Joondalup. The panel recommended funding equal to half the total project cost.
Joondalup Brothers Rugby Union Football Club	Sport and Recreation	To provide equipment for juniors to train and play safely and also for program promotion and financial assistance.	\$2,500	\$2,500	\$800	The club is attempting to build its junior membership base and equipment that enables young people to train and avoid injury was recognised as important by the assessment panel. The remainder of the application lacked planning and therefore it was suggested that funding be provided for only the safety equipment required at 50% of the total cost.
Connolly Little Athletics Club	Sport and Recreation	To provide specialist training clinics and additional athletics equipment.	\$2,890	\$2,476	\$700	The proposed coaching clinics were considered a valuable community activity to enhance junior development. The funding request for the type of equipment proposed was viewed as the responsibility of the club and association and hence the assessment panel recommended funding 50% of the total cost of the coaching clinics.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Kingsley Junior Football Club	Sport and Recreation	To provide a quality coaching education seminar and player retention program.	\$3,240	\$2,500	\$1,000	The proposed coach's education project was considered to be a worthwhile initiative to assist in the development of coaching techniques and ultimately junior skill enhancement. The panel suggested joint provision with the club and therefore proposes 50% of the total cost of the coaching education seminar.
West Perth Football Club	Sport and Recreation	To conduct school holiday coaching clinics in March and April 2001.	\$5,800	\$2,400	\$2,150	The proposed program involves a large number of participants with the aim of directing them into local football clubs. All aspects have been well planned and the club and association contributions illustrate commitment. The panel did question the cost for facility rental and as a result recommended deducting this from the total funding request.
Joondalup City Rollers	Sport and Recreation	To provide a free school holiday coaching clinic.	\$1,500	\$1,500	\$1,500	The assessment panel members agreed that the project had merit in its attempt to encourage participation and offer varied opportunities in what is considered a minority sport. The program does however lack budgetary planning and hence it is recommended that funding be allocated on the proviso that the club revise all aspects of the budget, commit matching funds and resubmit to the satisfaction of the Manager of Leisure and Ranger Services.
Joondalup Hockey Club	Sport and Recreation	To provide hockey to a new age group of young people.	\$20,500	\$2,500	\$2,500	This is a new initiative aimed at offering young people under 9 years the opportunity to play hockey. The program will increase participation and expand club membership bases through the addition of new competitions. The club and association are also imputing \$18,000 towards the project, highlighting their commitment.
Baumaris Bowling Club	Sport and Recreation	To provide a greenkeepers shed to store equipment.	\$13,000	\$2,500	\$0	The panel recommended refusing this application, as it did not meet the Community Funding Program's selection criteria. This fund does not provide for the construction of a storage shed for equipment and it goes against Council practice to fund additional storage for user groups.
Dancesport WA.(1)	Sport and Recreation	To provide personal sponsorship to assist training and travel expenses.	\$2,500	\$2,500	\$0	The assessment panel recommended refusing funding to this applicant as the application failed to meet the selection criteria. The project did not demonstrate how it would increase participation in the sport, or offer community benefits.
Dancesport WA.(2)	Sport and Recreation	To provide personal sponsorship to assist training and travel expenses.	\$2,500	\$2,500	\$0	The assessment panel recommended refusing funding to this applicant as the application failed to meet the selection criteria. The project did not demonstrate how it would increase participation in the sport, or offer community benefits.
Whitfords Junior Cricket Club	Sport and Recreation	To publish a book depicting the history of the junior club.	\$7,500	\$2,500	\$0	The panel recommended that the applicant be refused funding because it has not met the selection criteria in the Sport and Recreation category of the Community Funding Program. It was considered that the project would not increase recreational participation.
Kingsley Amateur Football Club	Sport and Recreation	To provide specialised equipment and a trainer to assist junior footballers in the transition to senior ranks.	\$3,090	\$2,090	\$0	The panel recommended that this application be refused as there was insufficient detail relating to the program planning and how the program would increase participation.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Joondalup little Athletics Centre	Sport and Recreation	To construct 2 horizontal long jump pits.	\$10,000	\$10,000	\$0	The panel recommended that this application be refused as it failed sections of the selection criteria. For a capital project all other potential sources of funding must have been exhausted and this has not been attempted. The centre is advised to put in an application to the Community Sport and Recreation Facility Fund.
Sacred Heart College	Sport and Recreation	To conduct a Friday night family badminton club.	\$4,426	\$2,426	\$0	The panel recommended that this application be refused. It was considered that the program was narrow in its focus with little project planning. The panel did not consider there to be significant benefits from the project to the community.
Joondalup City Community Youth	Sport and Recreation	To provide skateboard equipment for the community youth group.	\$3,000	\$2,500	\$0	The Panel recommended that this application for funding be refused. The application lacked sufficient planning detail in regard to who would have access to the equipment, would it be available at all times, who would provide supervision and be liable in case of incidents and whether the funds sought purchase equipment of an adequate standard?
		TOTAL SPORT AND RECREATION	\$109,106	\$55,752	\$18,340	
Te Rangatahi Maori Club	Culture and the Arts	To present a Polynesian Festival.	\$2,500	\$2,500	\$1,920	It was recognised that this festival involved the active participation of the Joondalup Polynesian community whilst also reaching out and involving the wider Joondalup community. The project acknowledges Noongar culture and promotes multiculturalism and reconciliation.
Our Lady of the Mission Whitford Parish	Culture and the Arts	For children from local primary schools to make a tile mural	\$5,176	\$2,500	\$2,000	It was recognised that this project, involving over 1,000 children, had direct skills development benefits to the children involved and also provided a permanent feature for the community to enjoy, creating a greater sense of community. The project encourages children to see that their individual creation could form part of a much larger work. The Parish is contributing more than half of the total cost of the project.
Joondalup Encore Theatre Society	Culture and the Arts	To purchase two wireless headset microphones.	\$9,490	\$1,190	\$1,190	It was recognised that the purchase of this equipment would greatly enhance the activities of this group and assist them in providing quality theatre to a broad audience in Joondalup. JETS encourages the communication and co-operation between ages and offers skills development to members. Future applications are encouraged to be skills development based rather than for capital purchase.
Joondalup City Church Inc.	Culture and the Arts	To present Carols by Candlelight.	\$7,300	\$2,500	\$1,500	It was recognised that the event had broad community appeal while having a specific focus on youth and participation by youth. The applicant had attracted significant support from other organisations within the community as well as making its own contribution to the project. The amount allocated was reduced as the panel assessed they should not be funding pyrotechnics and because the funding round was very competitive.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
The Embroiderers' Guild of Western Australia	Culture and the Arts	To create a work commemorating the Centenary of Federation to be presented to the City of Joondalup	\$17,500	\$2,500	\$500	The importance of celebrating the Centenary of Federation was recognised and the group was commended on its encouragement of youth and experienced community members working together. Funding was subject to the receipt of a revised budget and limited to \$500 and seen as a contribution towards the project.
Whitford Catholic Primary School	Culture and the Arts	For an Aboriginal Artist in Residence to work with children to develop awareness of Indigenous culture.	\$4,000	\$2,500	\$1,000	It was recognised that the project involved the active participation and skills development of children and encouraged a greater understanding of Aboriginal culture. It was assessed that half of the Aboriginal Artist's fee could be supported.
Whitfords Junior Cricket Club	Culture and the Arts	To publish the history of the Whitfords Junior Cricket Club	\$7,500	\$2,500	\$1,250	It was recognised that the project involved community literary and research activity and encouraged a sense of pride and community. It was agreed to fund half of the printing costs, with the suggestion that the applicant charge a small fee for the book to cover the other half of the printing costs.
Storytelling Guild of Australia	Culture and the Arts	Storytelling presentation drawing on gender, multicultural and indigenous perspectives	\$2,242	\$1,002	\$1,002	It was recognised that the project made an important contribution in recording and presenting oral history specific to the City of Joondalup together with offering the wider community an accessible cultural event.
Peter Cowan Writers Centre	Culture and the Arts	For creative writing workshops for 7 – 17 year olds	\$3,568	\$2,468	\$2,468	It was recognised that creative workshops directed specifically to youth would offer good community benefits and encourage increased literary activity within the region.
North Metro Music Club	Culture and the Arts	A free concert showcasing local music talent	\$2,500	\$2,500	\$2,000	It was recognised that the application provided important skills development and performance opportunities for young local musicians while also offering a free public event of broad appeal. The funding request was reduced by \$500 with the applicant encouraged to raise other sources of income.
West Coast Warblers	Culture and the Arts	A choral festival encouraging participation of schools and seniors groups		\$1,500	\$1,000	It was recognised that the festival encouraged choral activity and a sense of achievement by providing a performance opportunity in a non-competitive environment for a large number of children. Funding was reduced by \$500 with the applicant encouraged to seek funds for other sources.
Beaumaris Primary School	Culture and the Arts	For a male Artist in Residence to encourage dance by boys.	\$3,600	\$1,600	\$1,600	The importance of encouraging boys' engagement in arts activity and skills development opportunities was recognised. The financial contribution by the applicant and students was commended.
Sacred Heart College	Culture and the Arts	For a male choreographer to encourage dance by boys.	\$2,500	\$2,500	\$1,200	The importance of encouraging boys' engagement in arts activity and skills development opportunities was recognised. It was agreed that funding would be offered for the choreographer's fee only while the applicant is encouraged to seek alternative sources of funding.
The Challenge Brass Band	Culture and the Arts	For the purchase of new uniforms for some band members.	\$3,250	\$2,400	\$0	While the good work of the applicant was strongly acknowledged it was assessed that the application scored low on Council's Community Funding priorities against other applications received. It was recommended that the applicant apply again next year with the focus of their application on the groups activities.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Al Afrah Bellydance Group	Culture and the Arts	For the purchase of capital equipment and support of workshops	\$4,200	\$2,200	\$0	While the applicant was commended for its high level of activity in offering bellydance workshops to the Joondalup community, the applicant was not incorporated and therefore did not meet the Council's conditions of funding.
Perth Harmony Chorus	Culture and the Arts	To present two choral performances to seniors and the general public.	\$7,700	\$2,500	\$0	It was assessed that the project did not have broad appeal or a youth focus. The application was not competitive when compared with other applications received in this round of funding.
Salvation Army Heathridge Corps	Culture and the Arts	To present Carols by Candlelight at Heathridge Park	\$3,500	\$1,500	\$0	While the excellent and important work of the applicant was recognised, the application did not address the assessment criteria and therefore information was not available to properly assess the application. It was recommended that the applicant apply again next year and seek assistance with the development of the application.
Woodvale Primary School	Culture and the Arts	To run a 1 ½ day choral camp for school children.	\$2,500	\$500	\$0	The application did not fully address the assessment criteria. It was recommended that the applicant apply again next year and seek assistance with the development of the application.
Ocean Reef Primary School P&C	Culture and the Arts	To purchase instruments to establish a drum and bugle corps	\$1,984	\$2,000	\$0	The value of this project was recognised, in such a competitive round of funding it was suggested that the application be resubmitted next year showing some financial contribution from the applicant.
Sorrento Primary School	Culture and the Arts	To create a mural with the school children	\$1,700	\$1,700	\$0	While the excellent work of the artist proposed for this project was recognised it was assessed that the applicant should be making some financial contribution to this project.
Kulcha	Culture and the Arts	To run workshops in African culture culminating in a performance	\$7,100	\$6,400	\$0	While the value of this project was recognised, there was limited financial contribution from other sources and the project's high cost made the application less competitive.
Greenwood Senior High School	Culture and the Arts	To present an evening of Visual and Performing Arts	\$3,450	\$1,850	\$0	It was recognised that the concert was important to the students of the school and their parents but should form part of the school's normal curriculum activity. The application was not competitive when compared with other applications.
St. Stephen's School	Culture and the Arts	For an Indonesian Market Day	\$2,400	\$2,400	\$0	The value of this project was recognised, in such a competitive round of funding it was suggested that the application be resubmitted next year showing some financial contribution from the applicant.
Wanneroo Civic Choir	Culture and the Arts	To encourage youth involvement in the choir	\$2,772	\$2,372	\$0	While the youth focus was very pleasing and recognised it was assessed that the application was incomplete, as it was not clear how the proposed purchase of sheet music would achieve the stated objectives.
DJ Rev	Culture and the Arts	For a Latin Caribbean Family Picnic	\$1,765	\$1,415	\$0	While the free, multicultural event was supported the applicant was not incorporated and therefore did not meet the conditions of funding.
		TOTAL CULTURE AND THE ARTS	\$110,197	\$54,997	\$18,630	

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Joondalup Business Association	Economic Development	This project proposal aims at establishing a profile of businesses and business owners in the City of Joondalup and developing a database that can be continuously updated.	\$34,700	\$32,200	\$32,200	The Economic Development Assessment Panel recommends full funding. In order to receive full funding from the City of Joondalup the Joondalup Business Association will need to adhere to the additional condition set by the Community Economic Development Assessment Panel. The panel believes that due to the lack of monetary support from the Joondalup Business Association that the Business Audit will be the intellectual property of the City of Joondalup, however the Joondalup Business Association will have access to the information at all times.
Sunset Coast Tourism Association Inc	Economic Development	To promote and coordinate the strategic economic development of tourism within the Sunset Coast Region in accordance with the association's Strategic Plan, by the annual production and distribution of a brochure outlining the tourism activities and attractions of the region.	\$43,000	\$5,000	\$5,000	The Economic Development Assessment Panel recommends full funding. The construction of a brochure supports the theme of Economic Vitality, Strategy 3.1 and 3.2, of the City of Joondalup's Strategic Plan 2000 – 2003. The brochure has the potential to encourage new business into the City of Joondalup area. As a tourism asset there is an identifiable need in advertising the tourist facilities within Joondalup.
		TOTAL ECONOMIC DEVELOPMENT	\$77,700	\$37,200	\$37,200	
Friends of Yellagonga Regional Park Inc	Environment Development	Community communication, involvement and education , Rehabilitation of Yellagonga	\$4,000	\$2,500	\$2,000	Partial grant of \$2,000 recommended, subject to compliance with Yellagonga Regional Park Management Plan. A final management plan is anticipated to be released in the near future.
Ocean Reef Primary School	Environment Development	Plantings with native plants of school grounds.	\$1,940	\$1,940	\$1,940	Eligible community group. Proposed project falls within Environmental Development funding objectives and priorities.
Friends of Warwick Senior High School Bushland	Environment Development	Concrete Path and First Aid Kit	\$792	\$792	\$655	Partial grant of \$655 recommended, for pathway construction. Construction of a pathway is consistent with the objectives of the Environmental Development fund. However, funding sought for the purchase of a first aid kit does not directly relate to Environmental Development fund objectives and priorities, and should therefore be sourced elsewhere.
Friends of Warwick Bushland	Environment Development	Information Display Board for Warwick Open Space	\$5,650	\$2,500	\$2,500	Eligible community group. Proposed project falls within Environmental Development funding objectives and priorities.
Currambine Primary School	Environment Development	Greenhouse construction	\$2,500	\$2,500	\$1,000	Partial funding \$1,000 recommended. Eligible organisation. Proposed project falls within Environmental Development funding objectives and priorities.
Woodvale SHS	Environment Development	Tree Planting, School oval	\$2,500	\$1,000	\$1,000	Eligible organisation. Proposed project falls within Environmental Development funding objectives and priorities.
Tightline Productions	Environment Development	Video Documentary, Lake Joondalup	\$30,500	\$16,500	\$0	Non-conforming application. The proponent is a private business. The City can not fund businesses, as specified in the eligibility criteria in the Community Funding Guidelines.

COMMUNITY FUNDING PROGRAM APPLICATIONS - 2000/2001

ATTACHMENT 1

Applicant / Organisation	Funding Category	Project Proposal	Total Cost of Project	Funding Sought	Funding Recommended	Comments
Connolly Primary School	Environment Development	"CarPool Easy" Web based car pooling project	\$2,500	\$2,500	\$0	Alternative sources of funding available eg. Lotteries Commission.
Friends of Korella Park Bushland	Environment Development	Weed spraying, brochure printing etc.	\$480	\$480	\$0	Weed control of Korella Park (and related brochure printing) is considered to be a City of Joondalup operational activity. Application does not meet all information requirements.
St Stevens School	Environment Development	Purchase of water quality monitoring equipment, for wetland field trips for students in the Joondalup area.	\$1,730	\$1,730	\$0	The City of Joondalup contributes funds towards water quality monitoring of Lake Joondalup, with data results reported to the City. An alternative funding source exists for the proposed project, via the Ribbons of Blue programme.
		TOTAL ENVIRONMENT DEVELOPMENT	\$52,592	\$32,442	\$9,095	
		TOTALS	\$478,452	\$238,558	\$97,995
