local leaders local solutions

PROGRAM & REGISTRATION

CONFERENCE PROGRAM

Wednesday 1 August

1.30–4.00PM

- 10.00–12.00PM Display area set up
- 12.00–2.00PM Registration & display area open for viewing
- 2.00–2.30PM Exhibition area opened by ICLEI/AGO
- 2.30–5.00PM **PRE-CONFERENCE BRIEFING**
Scene setting 2001 CCP™ Conference:
 - Special welcome to new CCP™ members
 - CCP™ mid-term review
 - AGO programs – update
 - CCP™ into the future
 - International update
- 5.00–6.30PM Exhibition area open for viewing and networking
- 5.15–6.30PM **INAUGURAL MEETING OF ICLEI MEMBERS AUSTRALIA/NEW ZEALAND**
Hosted by ICLEI
Civic Centre Reception Room
- 6.30PM **'COOL DRINKS' EVENT**
Hosted by City of Charles Sturt with assistance by the South Australian Cool Communities Project

Thursday 2 August Local Leaders – Taking Action

- 9.00–10.15AM **WELCOME**
- 1 Introduction and welcome by Gwen Andrews, Chief Executive Australian Greenhouse Office
 - 2 Kaurua People Greeting
 - 3 Welcome by Harold F Anderson, Mayor, City of Charles Sturt
 - 4 Address by John Ross, President, Australian Local Government Association
 - 5 Official Opening Address by Senator The Hon Robert Hill, Minister for the Environment and Heritage (tbc)
- 10.15–11.00AM **MORNING TEA**
Civic Centre Reception Room
- 11.00–11.45AM **KEYNOTE ADDRESS – TONY RICHARDSON**
Local Leaders, Taking Action
Delegates are given scope in a lively address delivered by global consultant Tony Richardson. The conference theme for the day Local Leaders – Taking Action is explored with wit and intellect to set the scene for the day's field excursions and concurrent discussion sessions.
- 11.45AM–12.30PM **NETWORKING EXERCISE**
- 12.30–1.30PM **LUNCH**
Exhibition Area

CONCURRENT FIELD EXCURSIONS LOCAL LEADERS TAKING ACTION

A Corporate Leadership

Steps to the Stars

Adelaide City Council

The Colonel Light Centre is a 10 storey building that houses the majority of Adelaide City Council's administrative staff. Built in the 1970s, the Centre is in the early stages of a refurbishment and retrofit. Recently renovated, the Council's Customer Centre, won the RAA 2000 Award of Merit. Join Adelaide City Council and learn of its achievements in corporate efficiency. There will also be an outline and discussion of the Council's proposed application of Light Emitting Diode Technology for its traffic lights.

B Maximising Efficiencies

Solutions in Renewable Energy

Burnside Council

The Burnside Millennium Project will see the redeveloped library, community centre and administration building linked, designed and fitted out in a way that maximises energy efficiency whilst saving the Council money. Incorporated initiatives include Photovoltaic technology, Natural ventilation, Double glazing, Solar power, and Thermal efficiency. You will see that energy efficiency initiatives already incorporated into this project promote Burnside as a leader and a smart council.

C Promoting Partnerships

Let's Get Digital

City of Charles Sturt

Under the auspices of the CCP™ program, Charles Sturt Council has entered into partnership with Gerard Industries and Pierlite Pty Ltd to undertake the Digital Precinct Energy Partnership Project. The project tackles energy conservation and greenhouse gas abatement at a local level through the AGO's Challenge Allies program. Through Allies, larger Greenhouse Challenge companies extend their greenhouse reduction commitments to smaller businesses through a mentoring process. This tour takes in other projects including the Switched on to Solar Lighting Project and the Exporter's Club Lighting Retrofit project.

D Improving Performance

Cogeneration for the neXt-generation

Port Adelaide-Enfield Council

The Osbourne Cogeneration Plant incorporates state of the art technology for improved environmental performance and adopts the energy efficiency Cogeneration process. Cogeneration is an efficient form of power generation and energy delivery that involves the production of useable energy in more than one form (i.e. electricity and heat). In this process thermal energy, which is normally wasted in the process of electricity generation in a conventional power station, is used productively in cogeneration. The results are impressive: reduction in energy costs, improved reliability in energy supply, decrease in overall greenhouse gas emissions. Let Port Adelaide-Enfield Council take you through its partnership approach in this project.

E Identifying Opportunities

Wasted Gas – Wasted Opportunity

City of Tea Tree Gully

In some regions, current and old landfill sites have unrealised and often untapped resources. One such region has taken the step to realise some gains not only for itself but also for the entire community. The City of Tea Tree Gully has promoted the collection and use of landfill gas through a partnership project with a private company that collects and uses landfill gas to produce electricity. Two adjacent old landfill sites are being used to collect landfill gas, converting it to electricity and placing this electricity on the grid. Delegates will have the opportunity to talk to the Manager of the larger of the two sites and experience first hand the transformation of waste into useable clean energy.

4.00–4.30PM **AFTERNOON TEA**

4.30–5.30PM **CONCURRENT SESSIONS**

Local Leaders Taking Action

- A Corporate Leadership**
Steps to the Stars
Discussion facilitated by Adelaide City Council
- B Maximising Efficiencies**
Solutions in Renewable Energy
Discussion facilitated by Burnside Council
- C Promoting Partnerships**
Let's Get Digital
Discussion facilitated by City of Charles Sturt
- D Improving Performance**
Cogeneration for the neXt-generation
Discussion facilitated by Port Adelaide-Enfield Council
- E Identifying Opportunities**
Wasted Gas – Wasted Opportunity
Discussion facilitated by City of Tea Tree Gully

7.00–10.00PM **CONFERENCE DINNER & RECOGNITION AWARDS CEREMONY**

Address given by Gwen Andrews,
Chief Executive, Australian Greenhouse Office

Friday 3 August
Local Leaders Finding Solutions

9.00–9.30AM **KEYNOTE ADDRESS**

Business Leaders Make a Difference
The Hon Wayne Matthews MP for South Australia will outline South Australia's Greenhouse Policy.

Dr Chris Mitchell will bring us the latest 'on greenhouse science with a perspective guaranteed to get us thinking about our role in climate change.

9.30–10.30AM **PANEL SESSION – LOCAL IMPACT, GLOBAL CHANGE**
Our panel will discuss the place of local government in an ever-changing world.

Corporate Perspective
Molly Olsen Harrison will provide an insightful view on how our local leaders are finding solutions whilst improving business outcomes.

Local Government Leader
Michael Malouf, CEO, Melbourne City Council will outline local governments leading role in greenhouse action.

Greenhouse – Local government support programs
Australian Greenhouse Office

Insurance Industry
Speaker to be confirmed

10.30–11.00AM **MORNING TEA**

11.00–11.45AM **CONCURRENT SESSIONS 1**
Leading the Agenda & Taking Early Action – AGO Program Update

- A Energy**
Energy Efficiency
Renewable Energy
Alternative Fuels
Renewable Energy Commercialisation
Photovoltaic Rebate

- B Partnerships**
Household Greenhouse Action
Cool Communities
ERIP
Greenhouse Challenge & Greenhouse Allies
Greenhouse Gas Abatement Program

11.45–12.30PM **CONCURRENT SESSIONS 2**
Leading the Agenda & Taking Early Action – AGO Program Update

- A Energy**
Energy Efficiency
Renewable Energy
Alternative Fuels
Renewable Energy Commercialisation
Photovoltaic Rebate
- B Partnerships**
Household Greenhouse Action
Cool Communities
ERIP
Greenhouse Challenge & Greenhouse Allies
Greenhouse Gas Abatement Program

12.30–1.30PM **LUNCH**

1.30–2.15PM **CONCURRENT SESSIONS 3**
Promoting Sustainable Energy

- A 'If you can't measure it, you can't manage it'**
Measuring energy use – realising your losses
Facilitated by The Australian Municipal Energy Improvement Facility
- B 'Localised needs, localised response'**
Sustainable Transport
- C What not to do – 'The regional approach'**
North Central Greenhouse Gas Abatement Consortium – North Central Catchment Region Victoria, Facilitated by Terry White

2.15–3.45PM **PLENARY SESSION**

Working with your community
Engaging your community in taking action on global warming presents a number of challenges. This session brings together a panel of people who have been directly involved in developing and implementing projects which have a focus on this difficult area. The session will comprise of a short presentation from each panel member on the most valuable lessons learned regarding strategies for motivating and involving the community in greenhouse action. The panel will be available for questions following the presentations.

'Efficient Brisbane'
Scott Loosee

'Greenhouse Action Showcase'
Peter Dormand, AMEIF

'Supporting your Community'
Master Plumbers and Mechanical Services Association of Victoria

'Community Involvement'
John Denlay, Cool Communities Facilitator,
Conservation Council of South Australia

3.45–4.15PM **CLOSING PLENARY**
Leaders in Local Government Panel
[Lessons learnt and the way forward]

Please note that the conference program is correct at the time of printing, however, the organisers reserve the right to change the program where necessary.

REGISTRATION FORM

TAX INVOICE

(This will become a tax invoice on payment of any fees paid)

ABN: 31-172-328-350

PERSONAL DETAILS

Surname
First name
Title (Mr/Ms/Mrs/Dr/Cr/other)
Position
Organisation
Mailing address
Suburb/City
State/Territory Postcode
Phone Fax
Email
Preferred name for badge
Special requirements (dietary etc)

CONFERENCE DETAILS

- ☐ I will attend the conference – (registration fee \$150)
☐ I will attend an Excursion, 2 August 2001

First Preference
Second Preference

I will attend a Concurrent Session 1, 3 August 2001

Please number in order of preference

- ☐ A Energy
☐ B Partnerships

I will attend Concurrent Session 2, 3 August 2001

Please number in order of preference

- ☐ A Energy
☐ B Partnerships

I will attend Concurrent Session 3, 3 August 2001

Please number in order of preference

- ☐ A 'If you can't measure it, you can't manage it'
☐ B 'Localised needs, localised response'
☐ C What not to do – 'The regional approach'

- ☐ I am interested in promoting a display
☐ I wish to apply for a registration subsidy
☐ I wish to apply for accommodation and airfare subsidy

I would like to attend the following social functions

- ☐ Cool Drinks – welcome function (included in registration)
☐ Conference Dinner – \$50.00
☐ ICLEI Inaugural Meeting *

PAYMENT DETAILS

- ☐ I enclose a cheque payable to the Cities for Climate Protection™ Conference
☐ I wish to pay by credit card and hereby authorise the amount of

\$ to be charged to my credit card

- ☐ Mastercard ☐ Visa ☐ Bankcard

Credit card number

Signature

Payment for fees and social functions must accompany all registration forms.

Please return by 20 July 2001 to:
Cities for Climate Protection™ Conference
PO Box 201
Deakin West ACT 2600
Australia

* ICLEI A/NZ will contact ICLEI members prior to the conference, with details of the inaugural meeting

Welcome from the Minister

I would like to welcome you to the 2009 Cities for Climate Protection Conference.

The theme of the Conference, 'Local Leaders Local Solutions', has been chosen to reflect the active role that local governments are playing in helping Australia meet its international climate change commitments, such as the commitment to 'challenging the status quo' and the combined efforts of all Australians – our local, state and Commonwealth governments, our industry and our local communities.

Cities for Climate Protection (CCP) Australia is a national program that assists Australia's local governments to achieve sustainable reductions in their greenhouse gas emissions.

This conference will address the importance of local governments coming together to achieve sustainable long-term reductions in their greenhouse gas emissions through their participation in the Federally funded CCP Australia Program.

In terms of the health and well being of our communities, Australian local governments are playing a vital role in changing the practices of businesses, industries and households within their jurisdictions in addressing climate change challenges.

This role can only be enhanced through healthy discussion and debate. Therefore I urge you to participate in what will be a thought provoking conference and share your vision for the future needs of Australia and its communities.

*Senator the Hon Robert Hill
Minister for The Environment and Heritage*

Welcome from the Mayor

Welcome to the City of Charles Sturt, The Switched On City – where local solutions to climate change have seen partnerships form, companies benefit and Council take a leadership role on one of the most important environment issues facing the planet.

When we call ourselves "switched on", we have in mind a Council and organisation which is forward thinking, in tune with its people and its environment, so – despite our brand conjuring up images of energy consumption – we are very much concerned with our stake in the future and ensuring generations to come will benefit from us being "switched on to sustainability".

We are proud to play host to this important conference and trust it will be an enlightening experience for delegates.

*Harold F Anderson
OAM JP
Mayor
City of Charles Sturt*

Greetings from Cities for Climate Protection Australia

After more than three years building the foundations for local government greenhouse action in Australia, CCP has embarked on a new era for the program.

CCP Australia is delivered through a Partnership between the Australian Greenhouse Office and the International Council for Local Environmental Initiatives (ICLEI) – and that partnership continues to be as strong as ever.

Our early work focused chiefly on building the capacity within councils to take action, educate and inform the participants of greenhouse issues and develop the skills needed to implement the milestone framework.

CCP Australia has now reached a pivotal point where we have moved beyond a generic approach to all councils, and are now tailoring our support as much as we can to individual council needs.

CCP Australia continues to show that local government can make a difference. Local government's combined response can deliver real greenhouse savings at both a national and global level.

We thank all CCP Australia local governments for their continuous commitment and hard work in making CCP Australia an internationally renowned success. Through this conference we look forward to building on our successes, taking early action and preparing for the future.

*Given Andrews
Chief Executive
Australian Greenhouse Office
Wayne Wescott
Executive Director
ICLEI Australia/New Zealand*
