Emergency Management	70
Traffic Management Program	71
Road Safety Action Plan	71

INTRODUCTION

The City's Planning Framework is structured to ensure operational activities are being driven and delivered in alignment with the strategic priorities of the organisation. The Strategic Plan 2008 – 2011 is a key component of this planning framework. It is the overarching plan that provides direction for all activities and guides the development and provision of the City's services and programs through the five Key Focus Areas of:

- Leadership and Governance.
- The Natural Environment.
- Economic Prosperity and Growth.
- The Built Environment.
- Community Wellbeing.

The Planning Framework is made up of a series of plans to implement the City's Vision *to be a sustainable City and community that is committed to service delivery excellence and operates under the principles of good governance*. The City's mission is *to undertake all our activities with the endeavour of meeting community expectations and achieving sustainable lifestyles*.

The Framework includes:

- The Strategic Plan - provides the broad future strategic direction for the City for the period 2008 – 2011;
- The 20-Year Financial Plan - provides a broad overview of the major projects, programs and resource requirements over the next 4 years (The Plan includes 20-year financial projections);
- The Corporate Plan – sets out the strategies and actions to develop internal systems and organisational capacity during 2008 – 2011 in order to achieve the commitments set out in the Strategic Plan;
- The Annual Plan – which contains annual actions to achieve the vision of the Strategic Plan 2008 – 2011;
- Directorate Plans – contain details of annual projects and programs to be delivered by each Directorate;
- Business Unit Action Plans – contain details of the annual programs, services and activities for each Business Unit; and
- The Annual Budget.

Quarterly progress reports against the Annual Plan provide Council and the community with a full assessment of the City's progress in relation to the achievement of pre-determined milestones for major projects and programs. Full progress reports against the Capital Works Program will be provided at the same time as Annual Plan Progress Reports to Council.

Garry Hunt
Chief Executive Officer

HIGHLIGHTS – JULY TO SEPTEMBER 2009 QUARTER

KEY FOCUS AREA 1 – LEADERSHIP AND GOVERNANCE

Community Consultation – Ocean Reef Marina

The community consultation on the Concept Plan for the Ocean Reef Marina Project was the largest consultation undertaken by the City with 11,728 responses received. An overwhelming majority of the responses, 93.9%, were in favour of developing the Ocean Reef Marina site and 95.6% were in support of the proposed Concept Plan. Those most supportive of progressing the development were the residents and ratepayers of the North Central Ward, and, in particular, the suburb of Ocean Reef, where the development will be located.

Customer Satisfaction Survey

Each year the City conducts a Customer Satisfaction Survey to measure the views of residents on the services provided by the City. The 2008-2009 Customer Satisfaction Survey was conducted by an independent market research company in June 2009. The overall satisfaction rating of 83% for the services and facilities provided by the City remains very high and shows a slight increase from the 2007-2008 satisfaction level. The number of residents who are very satisfied with the services provided by the City increased significantly from previous years.

A number of specific services received very high satisfaction ratings, including:

- Libraries (93.5%),
- Fortnightly recycling services (92.6%),
- Parks and Public Open Spaces (91.5%)
- Weekly rubbish collections (85.8%)
- Festivals and Events (90.3%)
- Sport and Recreation (90.2%)
- Appearance of Streets (84.1%)
- Planning Services (89.7%)
- Building Services (80.0%)

Local Government Reform Submission

The Council responded to the Minister for Local Government's proposal for local government reform strategies.

KEY FOCUS AREA 2 - THE NATURAL ENVIRONMENT

Water Conservation Plan

The City has installed flow meters in all parks to monitor the City's groundwater usage. This will greatly assist in informing water reduction strategies, such as changes to watering schedules and highlighting where maintenance is required to watering systems.

KEY FOCUS AREA 3 – ECONOMIC PROSPERITY AND GROWTH

City of Joondalup Business Newsletter

The City distributed a Business Newsletter to local businesses in July aimed at promoting economic development activities within the district. The Newsletter contained a wide range of articles, including the appointment of the City's new Economic Development Advisor, the progress of the City Centre Structure Plan, major developments in the City, the Edith Cowan North West Metro Small Business Awards, Business Forums, Small Business Centre funding, online support for the Business Sector through the City's website, with new community and economic profile services and the street renewal program.

Information for the Business Community

The City's website now includes the facility to review comprehensive statistical data on the City of Joondalup's economic profile. Information includes details of the structure of the local economy, the different sections of the labour force, the types of local business and industries in the area, transport connections, infrastructure and other assets. The Economic Profile will be promoted at the City's next Business Forum to be held in November 2009.

KEY FOCUS AREA 4 – THE BUILT ENVIRONMENT

Capital Works Program

The July to September quarter saw significant progress or completion of a number of major Capital Works Projects, including:

- The completion and the official opening of Quindalup Dunes Pathway which connects Craigie Open Space to Warrandyte Park. The walking trail and new fencing will help protect and rehabilitate the dune system while providing improved and safer access to Craigie Open Space.
- Completion of the playground upgrades in Chichester Park, Woodvale, and Greenwich Park, Kingsley.
- Significant progress towards the completion of Connolly Drive Carriageway Duplication.
- Completion of major earthworks for feral proof fencing at Craigie Bushland.

KEY FOCUS AREA 5 – COMMUNITY WELLBEING

NAIDOC Week – 6 – 12 July 2009

NAIDOC Week is a nationwide celebration of the history, culture and achievements of Australia's Indigenous people. A range of activities were held to acknowledge the importance of local Indigenous culture. These included an official flag-raising ceremony, story-telling at Whitford and Joondalup Libraries, and an interactive dance performance at Lakeside Joondalup Shopping City. A Fun Day was held at the City's Leisure Centre in Craigie, with arts, crafts, music, dance, story-telling, a Bush Tucker BBQ, and appearances by players from the Perth Lynx Basketball team and the Fremantle Dockers. The City collaborated with Edith Cowan University and the Department of Corrective Services to hold an exhibition of print works by Indigenous artists from Casuarina Prison. The works were displayed at the blend(er) gallery and at Edith Cowan University Breathing Space Gallery in Mt Lawley.

Joondalup Eisteddfod – 15 August to 6 September 2009

The City of Joondalup Eisteddfod is a performing arts competition which provides an opportunity for performers to showcase their skills in public. The event was held at Edith Cowan University and attracted over 1,100 participants which is an increase of 8.5% compared with 2008. The event concluded with the Eisteddfod Winners' Concert on 18 September 2009.

Aquatic Expansion Project – Craigie Leisure Centre

Construction of the Aquatic Expansion Project at Craigie Leisure Centre has progressed with portions of the 50m pool being tiled, the completion of the meeting room and the concrete poured for the splash pad.

Endorsement of the Positive Ageing Plan 2009-2012

The Positive Ageing Plan was endorsed by Council at its meeting on 21 July 2009. The Plan will ensure that the needs of older people in the community are addressed by the City. The Positive Ageing Plan contains a significant number of strategies and targets to be achieved.

Art of Ageing Events

A range of Art of Ageing events were held in September 2009 as part of the activities promoted within the City's Positive Ageing Plan. The events included entertainment and information sessions and highlights included performances from the Western Australian Academy of Performing Arts and local artists, who entertained participants with music, singing, dancing and comedy.

Expo displays from Transperth and the City's Road Safety and TravelSmart Programs focused on the importance of being active and using public transport. The City offered *Get on Bus Tours* which showed participants how buses connect with the train system in the Joondalup area.

Children's Book Week

The 64th annual Children's Book Week themed *Book Safari* was held in August 2009 with 2249 students from local schools, including home school students, participating in 46 events. Events were also held for the public. Local and national authors, drama workshops and storytellers were included as part of the program.

Legend to indicate status of the project:

√ Project completed	↑ On track	→ Slightly behind schedule
