Ertech Pty Ltd All requirements have been met	Yes	It is a well established company that has been providing a diverse range of construction work throughout Australia since 1981. It has a total of 320 full time employees. It has also proposed key personnel with extensive experience in the construction of roads in WA. It is well equipped and operates a large inventory of modern plant and equipment. It has accredited Quality Management System to ISO9001, Environmental Management System to AS14001 and OH&S Management System to AS4801.	It has been in the road construction industry for many years and its Submission provided a clear outline of its approach and methodology which included an early part of project planning with implementation plan in establishing temporary infrastructure. In addition, it has also submitted an indicative project implementation plan.	It has extensive experience in completing similar projects as it has, since 1990, been undertaking work in road construction, landscaping and water reticulation. Recent project completed was the Mt Barker Bypass Road (\$9m) in April 2008. Other earlier projects completed were BHP Billiton Ravensthorpe Nickel Operations (\$44m), Albany Ring Road Stage 1 (\$11m), Great Eastern Highway Tammin to Kellerberrin (\$7m) and Bindoon North Section (\$4m).	It is located in Wangara and the company also has offices in South Australia and Victoria. Many of its employees live in the northern suburbs, having recently completed construction work in Burns Beach, Somerly and Carramar areas. Its workshops, equipment storage areas and major support facilities are all located at its Wangara site, enabling a very rapid response to any requirement.	97%	\$2,396,069.96	1
