PARKS AND PUBLIC OPEN SPACES CLASSIFICATION FRAMEWORK

ACTIVE RESERVES

Active reserves are areas used predominantly for organised sporting activities. They require high maintenance in order to sustain quality turfs and typically have floodlighting of a standard required to support sports participation.

REGIONAL PARKS

Regional Parks have the capacity to service the needs of the Joondalup community and may also attract users from outside the City. These parks incorporate a wide range and large number of multi-use sport, leisure and recreation based facilities.

- Three sporting grounds
- Ability to cater for a multiple number of activities at one time
- Major sporting infrastructure such as tennis courts, cricket wickets (practice and competition)
- Floodlighting to facilitate sports participation
- Two community facilities (usually of a high standard and may incorporate other facilities such as spectator seating and playground areas)
- Change-rooms and toilet facilities
- Capacity for 500 cars to park within or around the perimeter of the park grounds

DISTRICT PARKS

District parks service the local area, as well as, several surrounding suburbs. Organised sporting activities, both senior/junior are predominantly undertaken at these locations, though passive recreational activities such as walking and play equipment use also occur

- Two sporting grounds or the ability to provide two sporting grounds
- Ability to cater for a multiple number of activities at one time
- Major sporting infrastructure such as tennis courts, cricket wickets (practice and competition)
- Floodlighting to facilitate sports participation
- One community facility
- Change-rooms and toilet facilities
- Capacity for 100 cars to park within or around the perimeter of the park grounds
- Play equipment
- Bench seating

LOCAL PARKS

Local parks are designed to cater for the needs of the community within the suburb. Seasonal organised sporting activities, both senior/junior are able to be undertaken at these locations as well as other passive recreational activities.

- Single sporting ground
- Ability to cater for a single sport (seasonal) at one time
- Minor sporting infrastructure (basketball ring, tennis hit-up wall, BMX track, etc.)
- Floodlighting to facilitate sports participation
- Change-rooms and toilet facilities
- Capacity for 50 cars to park within or around the perimeter of the park grounds
- Play equipment
- Bench seating

NEIGHBOURHOOD PARKS

Neighbourhood parks are smaller parks that service the surrounding streets. Organised junior sporting activities are able to be undertaken at these locations as well as other passive recreational activities.

- Single sporting ground of a size suitable for junior competition
- Ability to cater for a single sport (seasonal) at one time
- Minor sporting infrastructure (basketball ring, tennis hit-up wall, BMX track, etc.)
- Floodlighting to facilitate sports participation
- Toilet facilities
- Capacity for 20 cars to park within or around the perimeter of the park grounds
- Play equipment
- Bench seating

PASSIVE RESERVES

Passive reserves are areas used for recreational activities that do not involve organised sport. They usually contain low-maintenance turf with a medium quality surface condition, suitable for low-wear applications. Passive reserves can either encourage long stay usage with BBQ, playground and toilet facilities or short stay usage with fewer facilities. Floodlighting at these locations support safety and security purposes only and are not suitable for active sports participation.

REGIONAL OPEN SPACE

Regional open space areas are not used for active sport and recreation. They accommodate the needs of the wider Joondalup community and beyond and encourage both short and long stay usage.

- Floodlighting for safety and security
- Toilet facilities
- Capacity for 100 cars to park within or around the perimeter of the park grounds
- Play equipment
- BBQs
- Shelters
- Bench seating
- Footpaths

LOCAL OPEN SPACE

Local open space areas are not used for active sport and recreation and accommodate the needs of the surrounding streets. They encourage short stay usage for unorganised play, walking and animal activities, if permitted under the City's local laws.

- Play equipment
- · Bench seating

NEIGHBOURHOOD OPEN SPACE

Neighbourhood open space areas are small open areas not used for active sport and recreation. They encourage short stay usage and are used predominantly as attractive thoroughfares or spaces conducive to passive activities such as walking.

- Grassed or open area
- Little or no facilities
