

Joondalup Districts Cricket Club

Total Project Cost	\$30,000
Funding Requested	\$20,000
Club Contribution	\$10,000

Breakdown of Costs:

Coaching Fees	\$24,000
Venue Hire	\$ 6,000
<u>Total Cost</u>	<u>\$30,000</u>

Program Objective:

To provide experienced coaches that will up skill local players and coaches within the Joondalup Districts Cricket Club.

Key Strategies:

- Appointment of two (2) Level 2 coaches and two (2) Level 3 coaches;
- Experienced coaches to conduct training sessions;
- Club coaches to implement knowledge and skills learnt into the district and local clubs programs.

Panel Assessment:

The City of Joondalup Player and Coaching Development Program aims to further enhance club coaches skills including batting, wicket keeping, fielding and bowling through mentoring from experienced coaches. This will assist the coaches role in player development.

The Joondalup Districts Cricket Club has secured the services of four (4) Cricket Australia accredited coaches in Murray Robbins, Noel Knight, Peter Clough and Denver D'Cruze. Details of the coaches experience is listed below:

- Murray Robbins (Level 3 Coach) – Represented Western Australia at senior level and coached Fremantle for 4 years.
- Noel Knight (Level 3 Coach) - Former assistant state coach and former coach of Subiaco Floreat, Scarborough, Wanneroo and Bayswater Morley. Currently coaches professionally in England.
- Peter Clough (Level 2 Coach) – Represented both New South Wales and Western Australia at senior level and is the bowling coach at the Western Australia Cricket Association (WACA).
- Denver D'Cruze (Level 2 Coach) – Represented Australian Capital Territory and is a cricket officer for the WACA.

The proposed project proposal fits within the Sports Development Program guidelines. The project will enhance the sports community profile, and will develop pathways for local sports people to achieve the highest possible level of competition. It will also educate and provide new skills to coaches which will have an ongoing benefit to the club.

The Club will contribute to the project by covering a component of the coaching fees and the costs associated with the hire of Revolution Sports Centre. The cost of this contribution has been estimated at \$10,000.

Opportunities offered to the City:

The application proposes to recognise the City's support by:

- Displaying the City's logo on all club newsletters
- Displaying the City's logo on the clubs letter head;
- Displaying the City's logo on all clothing (tracksuit and shirts);
- Displaying City signage at Iluka Reserve;

The Club will also be required to recognise the City's contribution through a cheque presentation and press release in the Community Newspaper.

Summary:

The Joondalup Districts Cricket Club is the City's premier cricket club with players feeding from local community cricket clubs including Ocean Ridge, Edgewater and Joondalup Kinross. The number of players involved in the club has remained consistent over the past three (3) years with 60 senior and 110 junior active members. The club has produced players who have represented the state and country.

Coaches play an important role in player development within the club. Although the program will benefit only a small proportion of the community, it will provide an avenue to develop cricketers from the area into State and National representatives. This increases the profile of cricket and provides young cricketers in the community with a pathway to achieve their goals.

It is recommended that the club meets on a regular basis with City officers to provide updates on the progress of the program and its major achievements. It is also recommended that the club work towards a new Strategic Business Plan outlining the future direction of the club to assist in the planning of future projects and programs.

Summary of Funding Recommended:

Coaching	\$18,000
Venue Hire	\$ 2,000
Total Cost	\$20,000

Sorrento Football Club

Total Project Cost	\$18,025
Funding Requested	\$15,840
Club Contribution	\$ 2,185

Breakdown of Costs:

Sport Science Specialist	\$15,840
Equipment	\$ 2,185
Total Cost	\$18,025

Program Objective:

To provide professional assessment of physiological attributes of players to compliment the Club's player development program.

Key Strategies:

- Appointment of a Sport Science Specialist;
- Identify objective baseline data as to physiological attributes of all players in 13 – 16 years junior competitions;
- Identify objective baseline data as to physiological attributes of all players in 18 years, Reserves and First Team senior competition;
- Utilise data in the development of individual players;
- Utilise data in the development of Sorrento Football Club teams.

Panel Assessment:

The Player Profiling Program aims to provide professional assessments by Andrew Ross of players' physiological attributes to support player development.

The Sorrento Football club has secured the services of one (1) Sport Science Specialist Andrew Ross. Andrew has a Masters of Exercise Science (Strength and Conditioning) from Edith Cowan University. He has a special interest and extensive experience in player assessment and development in various sports at both state and national level. The club is confident that they can also secure the services of Sport Science students to assist Andrew.

In early 2010 Jesse Coad, a University student was on secondment to the club as part of his practicum requirements. Jesse conducted a limited number of physiological assessments. Players and coaches indicated the assessments were a valuable tool for the development of players and the club. The club supported the expansion of the testing program to include more players and assessments.

The proposed project proposal fits within the Sports Development Program guidelines. The project is a new initiative that will enhance the sports community profile, and will develop pathways for local sports people to achieve the highest possible level of competition.

The Club will contribute to the project by covering the purchase of equipment required for the program. The cost of this contribution has been estimated at \$2,185.

Opportunities offered to the City:

The application proposes to recognise the City's support by:

- Displaying the City's logo within match day programs;
- Displaying the City's logo on all club newsletters;

- Displaying the City's logo on the clubs letter head;
- Displaying the city's logo on the clubs website;
- Displaying the City's logo on new items of clothing;
- Displaying City signage at Percy Doyle Reserve;
- Provide Sorrento Football Club representatives for utilisation in any appropriate City of Joondalup events.

The Club will also be required to recognise the City's contribution through a cheque presentation and press release in the Community Newspaper.

Summary:

The Sorrento Football Club is one of the State's leading football (soccer) clubs with teams competing at the highest level of football, both at junior and senior level within Western Australia. The club has had an increase in membership numbers over the last two (2) years. The club has produced players who have represented football at state and national level.

Physiological characteristics of football players are an integral part of talent identification and development programs. Football players have to adapt to the physical demands of the game, which is multi-factorial. The positional role of a player is related to his or her physiological capacity. Therefore the player development within the club will benefit from the assessment of players physiological attributes. This program will support the club to continue developing players who go on to represent the state and nation.

It is recommended that the club meets on a regular basis with City officers to provide updates on the progress of the program and its major achievements.
