BG&E Pty Ltd (Alternate Offer)	Partially			Not as	sessed.			
Was offered with an alternative schedule of rates should the City agree to various amendments to the Specification, conditions of tendering and nine (9) conditions of Contract. These variations have the potential to increase contractual risk and cost to the City. As the company also submitted a fully compliant Offer accepting all the City's conditions, the number of variations involved in the Alternate Offer and the potential risk to the City was considered by the evaluation panel to be too high and accordingly the Offer was not included for further assessment
