Dowsing Concrete All requirements have been met.	Yes	It was established in 1985 and currently has approximately 30 employees. Its core service is provision of concrete works. Its Submission included the company's organisational chart, details of key personnel including their skills and years of experience. Details of specialised equipment that will be used to undertake the works and after hour contacts for emergency requirements were supplied. It operates with its own quality management system and has an OSH policy in place. Copies of its OSH policy and safety statistics (for the past two years) were provided. All employees hold a current construction safety awareness training card and basic worksite traffic management accreditation.	It currently services 13 government contracts mainly for provision of concrete works within the Perth metropolitan area. Examples of works for 12 local governments including the Cities of South Perth, Belmont, Melville, Swan and Wanneroo were supplied. However, these contracts were primarily for concrete construction works and did not include preliminary works prior to road resurfacing.	The company did not adequately demonstrate its understanding of the required tasks. It submitted a brief response and a general approach to carry out the works. The panel is not confident Dowsing Concrete, primarily a supplier for concrete works with extensive commitments around the Perth metropolitan area, is capable of completing the works for the City.	The company is located in Kewdale.	57.3%	\$3,790,371
