SUMMARY OF TENDER SUBMISSIONS

Tenderer & Description of Response	Is it Compliant? Yes or No	Comment Against Criteria				Evaluation Score	Estimated Contract Price	Rank
		Capacity	Demonstrated Experience in Providing Similar Services	Demonstrated Understanding of the Required Tasks	Social and economic effects on the local community			
Riverjet Pty Ltd trading as Riverjet Pipeline Solutions	Yes	It was established in 2003. It currently has 12 full time employees and two part time casual staff. Its organisational structure and details of key personnel including their qualifications and years of experience in the industry were supplied. Details of specialised equipment that will be used to complete the works and after hour contacts for emergency requirements were provided. It is well resourced and the company will employ additional staff if required. It operates with its own quality management system and has a safety policy in place. Copies of its safety procedures and statistics were supplied.	It has extensive experience in providing similar services. It is currently undertaking cleaning of stormwater drainage pipes and structures for a number of local governments including the Cities of Cockburn, Canning, Stirling and Joondalup.	It demonstrated a thorough understanding and appreciation of the City's requirements. Its proposed methodology included a list of tasks to be carried out, from mobilisation of appropriate staff and plant to site clean and invoicing upon completion of works.	It is located in Belmont. It stated the company will always utilise locally based suppliers, where possible, for goods and services.	77.6%	\$542,300	1
All requirements have been met.

<p>The Trustee for Rico Family Trust trading as Solo Resource Recovery</p> <p>All requirements have been met.</p>	Yes	It commenced operation in 1932. Its organisation structure and details of key personnel including their role and industry experience were provided. It indicated it has additional staff available to deliver the services and will utilise a sub-contractor for CCTV survey services required. However, the number of full-time employees was not provided. After hour contacts for emergency requirements and details of specialised equipment that will be used to carry out the works were supplied. It has an accredited quality management system and a safety policy in place. Copies of its safety management plan and statistics were provided.	It has demonstrated experience in providing similar services. Examples of works were provided and these included drain cleaning works for the City of South Perth, Cleartech and Water Corporation of WA. Also, it was recently awarded a contract with the City of Stirling for the cleaning and maintenance of storm water pit and structures.	It demonstrated a sound understanding of the required tasks. It stated that all waste will be collected in licensed Department of Environment Regulation (DER) vehicles with licensed controlled waste operator and waste will be disposed of at the licensed DER facilities. It proposed to submit a full methodology for each task prior to the commencement of the Contract.	<p>It is located in Naval Base.</p> <p>One of its subcontractors, Allpipe Technologies, is based in the City.</p>	72%	\$780,674	2

		Capacity	Demonstrated Experience in Providing Similar Services	Demonstrated Understanding of the Required Tasks	Social and economic effects on the local community			
Transpacific Industrial Solutions Pty Ltd	Yes	It was incorporated in 1987 and currently has approximately 6,500 employees across Australia and New Zealand. It indicated it has over 200 operators available at short notice. However, it provided details of two key personnel only and limited information on its structure of business in WA. It has an accredited quality management system to ISO9001 and a safety policy in place. The panel noted the company's safety statistics and after hour contacts for emergency requirements were not supplied.	It has demonstrated experience in providing similar services. Examples of works undertaken for a number of clients were provided and these included Downer Mouchel, Chevron, Alcoa and the City of South Perth. The panel noted two of these works were of a similar nature of which one was a small project for a one month period.	It did not submit sufficient information to demonstrate its understanding of the required tasks. Only a standard work instruction including risk assessment and hazard identification for operating a vac truck/jetting unit for vacuum/jetting storm water lines was supplied.	Its WA office is located in Malaga. It stated that as a provider of environmentally sensitive services, the company recognises the significance of the role it plays in the communities in which it operates.	41.5%	Failed to meet the acceptable score

Western Maze Pty Ltd trading as Western Educting Services	Not fully compliant	It has been in operation since 1988. Its structure of business and the number of full-time employees were not provided. Also, details of support team including skills of key personnel were not supplied. Some details of specialised equipment that will be used to carry out the works were provided. It provides a 24 hours, seven days a week service. However it did not address the ability to provide additional personnel and resources if required. It operates with its own quality management system and has a safety policy in place. A copy of its safety policy was provided but safety procedures were not supplied.	It submitted a brief response and did not provide sufficient information to demonstrate experience in providing similar services. It stated it has over the years work for local governments including the Cities of South Perth and Melville and the Shire of Mundaring. However, its Submission provided limited information on scope of works and dates of when works were carried out for its clients.	It demonstrated an understanding of the required tasks. Its approach to carry out the works included the engagement of four truck driver/plant operators for its trucks. It indicated when on site, the operators will work of a map ensuring scheduled cleaning of all the stormwater drainage structures in the area is complete.	It is located in Maddington. Response did not address assessable points of criterion.	40.5%	Failed to meet the acceptable score	
All requirements have not been met. It did not have the level of insurance coverage required for public liability.
