Tenderer Description of Response	Is it Compliant? Yes or No	Comment Against Criteria				Evaluation Score
		Capacity	Demonstrated Experience in Providing Similar Services	Demonstrated Understanding of the Required Tasks	Social and economic effects on the local community	
Cleanaway Pty Ltd t/as Cleanaway	Yes	Cleanaway is a publicly listed ASX200 company. It has been in operation since 1972 (As Action Waste) with more than 4,000 employees and 3,000 vehicles across Australia. The WA branch has more than 600 employees and 300 heavy vehicles in multiple locations across WA. Its WA Head Office is at Malaga with depots at Malaga and Maddington. The operations structure of its Perth Metropolitan Region was supplied together with the role and experience of six key personnel. The company proposed to use new rear loaders and skid steers for this Contract. After-hours contacts for emergency requirements were addressed and the company has the ability to provide additional resources and personnel, if needed.	It demonstrated substantial experience providing waste collection services to WA local governments. It provides similar green waste collection services to the Cities of Albany and Nedlands and the Town of Mosman Park. It is also the City's current contractor for bulk hard waste, domestic rubbish and recycling collection services. Cleanaway provides municipal collection services to 34 local governments in WA and 100 across Australia.	It demonstrated a thorough understanding of the requirements. It offered pricing for both options and proposed to use Community Green Waste at Neerabup as the Contractor Nominated Facility. The detailed response addressed signage, waste streams, collection methodology, reporting and traffic management. The company proposed to use two teams each comprising of a labourer, one rear loader and one skid steer loader.	Its WA Head Office is at Malaga.  It employs local residents and supports community clubs and events in the Joondalup region.	72.8%
All requirements have been met.

West Tip Waste Control Pty Ltd I	Yes	West Tip Waste Control has been in operation since 1996. It is based in Malaga with 45 staff. An organisational chart was supplied with details of six key personnel. It has a fleet of 38 vehicles. After-hours contacts for emergency requirements and the ability to source additional resources and personnel were addressed.  The company operates on accredited ISO 9001:2008 Quality Management System. Copies of its safety manual, safety policy and safety records were provided	West Tip Waste Control demonstrated experience in waste collection and processing for a number of local governments and waste management services to John Holland. It has current contracts with the Cities of Perth (bulk waste services including mixed green waste collection and delivery), Subiaco (green waste collection and delivery and street sweeping) and Nedlands (bulk waste collection services and disposal services), the Shire of Kalamunda (transportation of waste to approved waste disposal sites), Western Metropolitan Regional Council (transportation of residual waste to landfill) and John Holland (waste management services)	The company demonstrated a sound understanding of the requirements. The company proposed to use two rear loaders and one skid steer loader with backups for this service. It offered pricing for both options and proposed to use its resources recovery facility C-Wise at Malaga as the Contractor Nominated Facility. The detailed response addressed composition and responsibilities of the team members, proposed collection procedure, non-standard collections, collection points and work areas. In addition to the RFT price options, it also proposed two price options to provide the services – one with all new vehicles and plant and the other with a new skid steer and six year old rear loaders.	It is based in Malaga.  It employs local residents and would offer site tours to local community and students of its resource recovery facility at Malaga.	61.6%
