PROCEDURES FOR PUBLIC QUESTION TIME

The following procedures for the conduct of Public Question Time were adopted at the Council meeting held on 19 November 2013:

Where a meeting of a committee is open to the public the procedures for public question time and public statement time apply. In this regard these procedures are amended by substituting “Council” with “Committee” to provide proper context.

Questions asked verbally

- 1 Members of the public are invited to ask questions at Council Meetings.
- 2 Questions asked at an Ordinary Council meeting must relate to a matter that affects the City of Joondalup. Questions asked at a Special meeting of Council must relate to the purpose for which the meeting has been called.
- 3 A register will be provided for those persons wanting to ask questions to enter their name. Persons will be requested to come forward in the order in which they are registered, and to give their name and full address.
- 4 Public question time will be limited to two minutes per member of the public, with a limit of two verbal questions per member of the public.
- 5 Statements are not to precede the asking of a question during public question time. Statements should be made during public statement time.
- 6 Members of the public are encouraged to keep their questions brief to enable everyone who desires to ask a question to have the opportunity to do so.
- 7 Public question time will be allocated a minimum of 15 minutes and may be extended in intervals of up to 10 minutes by resolution of Council, but the total time allocated for public questions to be asked and responses to be given is not to exceed 35 minutes in total. Public question time is declared closed following the expiration of the allocated time period, or earlier than such time where there are no further questions.
- 8 Questions are to be directed to the Presiding Member and shall be asked politely, in good faith, and are not to be framed in such a way as to reflect adversely or be defamatory on a particular Elected Member or City employee. The Presiding Member shall decide to:
 - accept or reject any question and his/her decision is final
 - nominate a member of the Council and/or City employee to respond to the question
or
 - take a question on notice. In this case a written response will be provided as soon as possible, and included in the agenda of the next Council meeting.

- 9 Where an Elected Member is of the opinion that a member of the public is:
- asking a question at a Council meeting, that does not relate to a matter affecting the City
 - or
 - making a statement during public question time,
- they may bring it to the attention of the Presiding Member who will make a ruling.
- 10 Questions and any response will be summarised and included in the minutes of the Council meeting.
- 11 It is not intended that question time should be used as a means to obtain information that would not be made available if it was sought from the City's records under Section 5.94 of the *Local Government Act 1995* or the *Freedom of Information Act 1992* (FOI Act 1992). Where the response to a question(s) would require a substantial commitment of the City's resources, the Chief Executive Officer (CEO) will determine that it is an unreasonable impost upon the City and refuse to provide it. The CEO will advise the member of the public that the information may be sought in accordance with the FOI Act 1992.

Questions in Writing – (Residents and/or ratepayers of the City of Joondalup only)

- 1 Only City of Joondalup residents and/or ratepayers may submit questions to the City in writing.
- 2 Questions asked at an Ordinary Council meeting must relate to a matter that affects the City of Joondalup. Questions asked at a Special meeting of Council must relate to the purpose for which the meeting has been called.
- 3 The City will accept a maximum of five (5) written questions per City of Joondalup resident/ratepayer. To ensure equality and consistency, each part of a multi-part question will be treated as a question in its own right.
- 4 Questions lodged by 9.00am on the day immediately prior to the scheduled Council meeting will be responded to, where possible, at the Council meeting. These questions, and their responses, will be distributed to Elected Members and made available to the public in written form at the meeting.
- 5 The Presiding Member shall decide to accept or reject any written question and his/her decision is final. Where there is any concern about a question being offensive, defamatory or the like, the Presiding Member will make a determination in relation to the question. Questions determined as offensive, defamatory or the like will not be published. Where the Presiding Member rules questions to be out of order, an announcement to this effect will be made at the meeting, including the reason(s) for the decision.
- 6 The Presiding Member may rule questions out of order where they are substantially the same as questions previously submitted and responded to.
- 7 Written questions unable to be responded to at a Council meeting will be taken on notice. In this case, a written response will be provided as soon as possible and included on the agenda of the next Council meeting.
- 8 A person who submits written questions may also ask questions at a Council meeting and questions asked verbally may be different to those submitted in writing.

- 9 Questions and any response will be summarised and included in the minutes of the Council meeting.
- 10 It is not intended that question time should be used as a means to obtain information that would not be made available if it was sought from the City's records under Section 5.94 of the *Local Government Act 1995* or the *Freedom of Information Act 1992* (FOI Act 1992). Where the response to a question(s) would require a substantial commitment of the City's resources, the Chief Executive Officer (CEO) will determine that it is an unreasonable impost upon the City and may refuse to provide it. The CEO will advise the member of the public that the information may be sought in accordance with the FOI Act 1992.

Written questions should be sent via email to council.questions@joondalup.gov.au

DISCLAIMER

Responses to questions not submitted in writing are provided in good faith and as such, should not be relied upon as being either complete or comprehensive.

PURPOSE

For Council to consider a proposal for the setting of differential rates for the draft budget for the 2018-19 financial year.

EXECUTIVE SUMMARY

As part of the process for the 2018-19 draft budget it is proposed to continue to apply differential rating introduced in 2008-09. In accordance with section 6.36 of the *Local Government Act 1995* Council is required to determine the differential rates to be advertised prior to consideration of the budget.

It is recommended that the proposed differential rates be advertised and public submissions sought in accordance with section 6.36 of the *Local Government Act 1995* (the Act).

BACKGROUND

To set the rates for its budget, Council determines the total rate revenue it needs, in accordance with section 6.2 of the Act, and sets the cents in the dollar that will generate that revenue. The individual property valuations determine what proportion of the total rate requirements are met by each property owner. This proportion will change when a valuation changes.

Differential rates were first introduced in 2008-09 to maintain the distribution of the rate burden between the classes of residential, commercial and industrial property following a revaluation. The relativities between the differentials have been adjusted at subsequent revaluations in 2011-12, 2014-15 and 2017-18.

In addition to a differential between classes of property the City has applied a differential between improved and vacant land within each of the classes of residential, commercial and industrial property. The City is keen to promote and encourage the development of vacant land. This can be done through a number of positive initiatives and in this regard the City makes a significant contribution to encourage and promote economic development. It can also be done by actively discouraging the holding of vacant and undeveloped land. In respect of the latter a higher differential rate imposed on vacant land than the rate applicable for improved land acts as an inducement to develop vacant land.

DETAILS

Draft Budget 2018-19

The City is in the final stages of developing and preparing the draft *2018-19 Budget*.

This process has encompassed the following:

- Reference and alignment to the *Strategic Community Plan*.
- *Strategic Financial Plan* alignment and review.
- Other Plans and Strategies.
- Critical Analysis of 2016-17 and progress in *2017-18 Annual Plan* performance.
- Consideration of budget parameters.
- Ongoing review of service delivery and service standards.
- Consideration of the efficiency and effectiveness of services and facilities and implementation of new efficiencies.
- Consideration of operating and capital proposals.
- Assessment of capacity including financial, rating and resources, sustainability, assets and reserves.

The development has been scrutinised by:

- Executive through an extensive evaluation process encompassing the *Capital Works Program* and each Business Unit's draft budget.
- Elected Members through the conduct of six draft 2018-19 Budget Workshops to date (during February, March, April and May 2018).

The final stage of the draft *2018-19 Budget* process prior to adoption is to consider the setting of the cents in the dollar.

Differential Rates

Section 6.33 of the Act makes provision for the City to be able to levy differential rates based on a number of criteria.

- “(1) *A local government may impose differential general rates according to any, or a combination, of the following characteristics —*
- (a) *the purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the Planning and Development Act 2005; or*
 - (b) *a purpose for which the land is held or used as determined by the local government; or*
 - (c) *whether or not the land is vacant land; or*
 - (d) *any other characteristic or combination of characteristics prescribed.”*

Section 6.33 of the Act permits Council to levy differential rates such that the highest is no more than twice the lowest differential. A greater difference in differentials may be used but requires Ministerial approval.

Issues and options considered

There are several broad approaches for how the City might apply an increase in rates for the *2018-19 Budget*.

Cents in the Dollar

There are three options for determining how the cents in the dollar may be set.

Option One – Do not Differentially Rate and Revert to a General Rate

The differential rate was introduced in 2008-09 to compensate for the distortions caused by higher residential property valuation increases compared to commercial and industrial property valuations. These relativities have been adjusted at subsequent revaluations to maintain the relativity between residential compared to commercial and industrial.

Reverting back to a general rate would significantly increase the rate burden falling on residential property owners with a reduction to commercial and industrial property owners.

This option is not recommended.

Option Two – Apply a Differential Rate but Re-assess What They Should Be

There needs to be a key driver or basis for setting a differential rate. In 2008-09 the driver was to maintain the proportion of rate revenue derived from each of residential, commercial and industrial property. Applying a higher differential rate for vacant property was introduced on the basis of discouraging the holding of property in a vacant or undeveloped state.

A change was made to the differential for vacant residential property in 2015-16 to bring it into line with treatment of the differentials for vacant commercial and industrial property. The differential for residential, commercial and industrial vacant property has been set at a rate that is twice the lowest differential which is the rate for residential improved property.

Since the differential rates were last considered for the 2017-18 budget there has been no change in legislative requirements impacting on the application of differential rating in the City of Joondalup and no change in circumstances that would suggest the basic drivers need to be reconsidered.

This option is not recommended.

Option Three – Apply a Differential Rate as a Percentage Based on the Differentials Set in 2017-18

As there has been no change in legislative requirements impacting on the application of differential rating in the City of Joondalup and no change in circumstances that would suggest the basic drivers need to be reconsidered then applying a percentage increase based on the differentials that were set in 2017-18 would preserve the relativity between the differentials. This is considered to be the most appropriate course in the current circumstances.

This option is recommended.

Minimum Payments

The Act provides that a local government may set a minimum payment for rates. That is, regardless of the result of the rate calculation determined by multiplying the cents in the dollar by the valuation, no property should be assessed for rates at an amount below the minimum payment. The cents in the dollar and minimum payment will together determine the minimum property valuation. Properties with a valuation below this will be subject to the minimum payment.

The Act does not provide any guidance as to what is an appropriate value for the minimum payment or how it might be determined. In essence it is whatever the local government may determine. The general philosophy is that every ratepayer should make a reasonable contribution to the services and facilities that a local government provides. There is a statutory limit prohibiting a minimum being set so high that more than 50% of properties in each differential rating category would be on the minimum. The percentage of properties in the City of Joondalup on the minimum is well below this threshold in each differential rating category.

There are two options.

Option Four – Re-Assess the Setting of Minimum Payments

The minimum payment that the City has been applying each year has not been based on any formula or criteria but simply represents what the City has determined is reasonable as a minimum payment.

By way of comparison in the table below for the current 2017-18 financial year, the City's minimum payment for residential improved of \$863 is middle of the road compared to eight of the larger metropolitan local governments by population noting that three of them do not have a separate refuse charge and include refuse in the rates charge.

Local Government	Residential Improved Minimum Payment 2017-18 \$
City of Stirling	833
City of Joondalup	863
City of Swan	865
City of Gosnells	944
City of Rockingham	1,118
*City of Melville	1,258.15
*City of Cockburn	1,303
*City of Wanneroo	1,337

**Minimum rate includes rubbish charge*

In the absence of any specific guidelines and given that the City of Joondalup's minimum payment is well within industry norms the option of re-assessing the setting of minimum payments is not recommended.

Option Five – Apply Increases in Line with the Increases in Rates

It is considered that applying increases to the minimum payment that is in line with the overall City rate increase provides the most consistent and equitable approach.

This option is recommended.

Draft 2018-19 Budget Rate Revenue Requirement

The Draft 2018-19 Budget is in the final stages of preparation. Workshops have been held with Elected Members and a draft overall position considered. A summary of the overall position is set out below:

Current Draft 2018-19 Budget Position

Operating Revenue (excluding General Rates)	\$ 50.182 million
Plus Capital Revenue	\$ 10.522 million
Plus Operating Adjustments for Depreciation etc	\$ 31.090 million
Plus Net Funding and Transfers	\$ 7.541 million
	\$ 99.335 million
Less Operating Expenditure	(\$156.589 million)
Less Capital Expenditure	(\$ 43.473 million)
	(\$100.726 million)
Plus Surplus Brought Forward (estimated)	\$ 0.535 million
Less Surplus Carried Forward	(\$ 0.150 million)
Rate Setting Statement Deficit to be made up from General Rates	(\$100.342 million)
This represents an overall Rate Increase of 2.95%	

It is recommended that the City base its cents in the dollar on option three and its minimum payment on option five with rates applying to each property category based on the following criteria:

- That differential rates apply to residential, commercial and industrial improved property based on an overall City rate increase of 2.95% compared to 2017-18.
- That the differential rate on residential, commercial and industrial vacant property continue to be set at twice the lowest differential rate.
- An increase in the minimum payment for all residential, rural, commercial and industrial property of 2.95% compared to 2017-18 in line with the overall City rate increase.

Legislation / Strategic Community Plan / policy implications**Legislation**

The Local Government Act 1995 Section 6.33 sets out the provisions in relation to differential rating. The City is able to apply separate rates in the dollar for different categories of properties based on zoning, land use, whether they are improved or unimproved and any other characteristic or combinations of characteristics prescribed.

Section 6.36 of the Act requires that if the City is intending to apply differential rating it must advertise the differentials it intends to apply with local public notice for a minimum 21 days and invite submissions in relation to the proposed differentials. A document is required to be made available for inspection by electors and ratepayers that describes the objects of, and reasons for, each proposed rate and minimum payment (Attachment 1 refers). The City is then required to consider any submissions received and make a final resolution in relation to the setting of the rates in the dollar and the adoption of the budget.

Strategic Community Plan

Key theme Financial Sustainability.

Objective Effective management.

Strategic initiative Not applicable.

Policy Not applicable.

Risk management considerations

Provided the statutory provisions are complied with there are no risk management issues for applying a differential rate.

Financial/budget implications

The application of differential rating is about apportioning the rate revenue that is required between different categories of property. There are no budget implications from just applying differential rating. The City could derive exactly the same total revenue by applying a general rate to all categories of property. The intention with proposing a differential rate however is to maintain the general proportion of rate revenue derived from each category of residential, commercial and industrial property.

Regional significance

Not applicable.

Sustainability implications

Not applicable.

Consultation

The proposed differential rating has been discussed at budget workshops by Elected Members and the Executive Management Team. The recommendations of this report reflect the feedback from those discussions.

The proposed differential rates are required to be advertised and public submissions sought. An advertisement will be placed in *The West Australian*, local newspapers as well as notice boards and the website for 21 days.

COMMENT

The differential rates and minimum payments that have been recommended will deliver an overall rate increase of 2.95% compared to 2017-18. This is in line with feedback from the budget workshops held to date.

The various differential rates and minimum payments maintain the City's historical approach to apportioning the rate burden between the respective categories of residential, commercial and industrial as well as between vacant and developed residential, commercial and industrial property.

The recommendation relates only to undertaking the prescribed advertising for public submissions on the proposed differential rates and minimum payments. Adopting the recommendation does not commit the Council to the differential rates and minimum payments proposed. Council is required to consider any public submissions received, prior to making its final determination. Adopting the recommendation also does not represent any commitment in relation to the adoption of the *2018-19 Budget*.

VOTING REQUIREMENTS

Simple Majority.

RECOMMENDATION

That Council:

- 1 **NOTES** the process undertaken for the development of the draft budget for the 2018-19 financial year;
- 2 **APPLIES** differential rates for the draft budget for the 2018-19 financial year;
- 3 **ADVERTISES** in accordance with section 6.36 of the *Local Government Act 1995* for public submissions on the proposed differential rates as set out in the table below and makes available to the public, Attachment 1 to Report JSC02-05/18 setting out the objects and reasons for the differential rates:

	Cents in \$	Minimum Payment
<u>General Rate - GRV</u>		\$

Industrial Vacant	10.9312	909
<u>General Rate - UV</u>		
Residential	1.0121	889
Rural	1.0073	889

- 4 **REQUESTS** a further report be presented to Council to consider:
