REMOTELY PILOTED AIRCRAFT SYSTEMS

City of Joondalup, 90 Boas Ave, Joondalup WA 6

**You must not fly here!**

**This is a restricted area.**

You must not fly here.

Restricted areas are where there is some activity or some obstacle that makes flying unsafe or requires close monitoring of activity in the air.

This could include the following:

- Military flight activities
- Military non-flight activities (like a firing range)
- Sensitive equipment - such as radio telescopes - that your drone might interfere with.
- Emissions from mines / power plants.
- High intensity electro-magnetic emissions.

You must keep out of these areas.

**Warning - Danger Area**

**This is a danger area.**

**You are permitted to fly here, but beware of low flying aircraft.**

Danger areas are created for a number of reasons including:

- Parachuting, hang gliding, ballooning or other recreational activities.
- Civil flight training.
- Lane of entry.
- Military flight training.
- Military jet corridor.
- Quarry blasting zone
- UAV operations

While these types of activities do not prevent you from flying in a danger area, you must be more observant here and take steps to minimise risks.
