Annual General Meeting of Electors

MEETING HELD ON

TUESDAY 5 MARCH 2024

Acknowledgement of Traditional Custodians

The City of Joondalup acknowledges the traditional custodians of the land, the Whadjuk people of the Noongar nation, and recognises the culture of the Noongar people and the unique contribution they make to the Joondalup region and Australia. The City of Joondalup pays its respects to their Elders past and present and extends that respect to all Aboriginal and Torres Strait Islander peoples.

1 DECLARATION OF OPENING AND ANNOUNCEMENT OF VISITORS

The Mayor declared the meeting open at 5.30pm.

Mayor:

HON. ALBERT JACOB, JP

Councillors:

CR ADRIAN HILL	North Ward	<i>absent from 8.37pm to 8.39pm</i>
CR LEWIS HUTTON	North Ward	<i>from 5.33pm</i>
CR DANIEL KINGSTON	North Central Ward	<i>absent from 7.27pm to 7.29pm</i>
CR REBECCA PIZZEY	Central Ward	<i>absent from 8.28pm to 8.31pm</i>
CR RUSS FISHWICK, JP	South Ward	<i>absent from 7.12pm to 7.19pm</i>
CR JOHN RAFTIS	South Ward	<i>from 5.33pm</i>
		<i>absent from 7.46pm to 7.55pm</i>
CR CHRISTINE HAMILTON-PRIME, JP	South-West Ward	<i>absent from 6.00pm to 6.26pm</i>
		<i>to 7.04pm</i>
CR PHILLIP VINCIULLO	South-West Ward	<i>absent from 5.53pm to 6.03pm</i>
		<i>absent from 7.47pm to 7.52pm</i>
CR JOHN CHESTER	South-East Ward	
CR ROHAN O'NEILL	South-East Ward	<i>absent from 7.33pm to 7.38pm</i>

Officers:

MR JAMES PEARSON	Chief Executive Officer
MR JAMIE PARRY	Director Governance and Strategy
MR MAT HUMFREY	Director Corporate Services
MR NICO CLAASSEN	Director Infrastructure Services
MR CHRIS LEIGH	Director Planning and Community Development
	<i>absent from 7.41pm to 7.44pm</i>
MRS REBECCA MACCARIO	Manager Strategic and Organisational Development
	<i>to 6.24pm</i>
MRS KYLIE BERGMANN	Manager Governance
MR DANIEL DAVINI	Media Advisor
MRS VIVIENNE STAMPALIJA	Governance Coordinator
	<i>absent from 7.36pm to 7.38pm</i>
MRS DEBORAH GOUGES	Senior Governance Officer
MRS SUSAN HATELEY	Governance Officer <i>absent from 6.47pm to 6.54pm</i>

In Attendance:

MS CHRISTINE ROBINSON	Manager Audit, Risk and Executive Services
MR BLIGNAULT OLIVIER	Manager City Projects
MS SAMER AL JANABI	General Counsel

There were 60 members of the public and no member of the press in attendance.

2 ADDRESS BY THE MAYOR

The Mayor welcomed members of the public to the Annual General Meeting of Electors.

The Mayor advised that the meeting is being held in accordance with section 5.27 of the *Local Government Act 1995*.

The Mayor advised the meeting was advertised as follows:

- In Perth Now newspaper on 8 February 2024.
- Social Media posts (Facebook, Twitter and LinkedIn) on 14 February 2024.
- Joondalup Voice on 22 February 2024.
- Public notices on the City's website and public notice boards.

The Annual Report was made available for public viewing after the Special Meeting of Council held on 31 January 2024 (CJ002-01/24 refers), where Council adopted the *2022-23 Annual Report*.

3 APOLOGIES AND LEAVE OF ABSENCE

3.1 LEAVE OF ABSENCE PREVIOUSLY APPROVED

Cr Nige Jones	4 to 7 March 2024 inclusive.
Cr Christopher May, JP	4 to 8 March 2024 inclusive.
Cr Christine Hamilton-Prime, JP	10 to 26 March 2024 inclusive.
Cr Russ Fishwick, JP	11 to 15 March 2024 inclusive.
Cr Daniel Kingston	12 to 14 March 2024 inclusive.
Cr Nige Jones	12 to 19 March 2024 inclusive.
Mayor Albert Jacob, JP	25 to 28 March 2024 inclusive.
Cr Russ Fishwick, JP	25 March to 1 April 2024 inclusive.
Cr Phillip Vinciullo	3 to 13 April 2024 inclusive.
Cr Adrian Hill	28 June to 15 July 2024 inclusive.

4 PROCEDURES AT ELECTORS' MEETINGS

The Mayor outlined the requirements for voting and speaking at an Electors' Meeting and the definition of an Elector.

5 VIDEO PRESENTATION

A video presentation was given outlining the events, activities and achievements of the City of Joondalup for the 2022-23 financial year.

6 CONTENTS OF THE 2022-23 ANNUAL REPORT

The Mayor advised that the purpose of the Annual General Meeting of Electors was to discuss the contents of the Annual Report and raise any general business that Electors may have. In accordance with the *Local Government Act 1995*, Council adopted the Annual Report at its Special Meeting of Council held on 31 January 2024 (CJ002-01/24 refers).

The following summarised questions were submitted verbally at the Annual General Meeting in relation to the Annual Report:

M Kwok, Ocean Reef:

Re: Annual Financial Report – Payments to Elected Members.

Q1: On page 37 of the Annual Financial Report the total figure for “all other Council Member’s travel and accommodation expenses” is \$49,727. On page 68 of the Annual Report, the “Travel/Child Care Reimbursement” is shown as \$9,938.

Can the City advise why the figure in the Annual Financial Report is five times higher than the figure in the Annual Report?

A1: During the meeting the Director Corporate Services took the question on notice. The City has since confirmed the figures provided in the Annual Report relate only to those costs reimbursed to Elected Members. The figures provided in the Annual Financial Report include all travel and accommodation expenses, whether reimbursed to the Elected Member or incurred directly by the City.

Re: Deputy Mayoral Allowance.

Q2: According to the Annual Financial Report, the Deputy Mayoral allowance is \$22,999. Can the City advise why it appears in the Annual Report that Cr Hamilton- Prime received an amount over the Deputy Mayoral Allowance?

A2: During the meeting the Director Corporate Services took the question on notice. The City has since confirmed that the figure of \$8,779 reported in the Annual Report for Cr Hamilton-Prime’s Deputy Mayor allowance is incorrect. It should be \$6,863. The total paid for the Deputy Mayoral allowance between Cr Logan and Cr Hamilton-Prime is \$22,999 which is accurately reflected in the Annual Financial Report.

M Dickie, Hillarys:

Re: Greenhouse Gas Emissions.

Q1: In reference to page 113 of the Annual Financial Report, can the City explain the basis of the 17.4% reduction in greenhouse gas emissions and is this in line with the trajectory set out in the Climate Change Strategy 2014-2019?

- A1: The Manager Strategic and Organisational Development responded that the reduction in greenhouse gas emissions is the net amount, consisting of the City's corporate greenhouse gas emissions minus any offset. It was added that the reduction is in line with, and exceeds, the targets that were set through the *Climate Change Strategy*. During the meeting the Manager Strategic and Organisational Development committed to provide additional information.

The City has since confirmed that the City's greenhouse gas emissions decreased by a significant amount in 2022/23 as compared to 2021/22 due to a reduction in electricity usage, increased usage of renewable energy and a change in emissions factors.

The *Climate Change Strategy 2014 - 2019* included a corporate mitigation target to reduce net greenhouse gas emissions by 5% per capita below 2012/13 emissions by 2018/19. Net greenhouse gas emissions for 2018/19 reduced by 16% per capita in comparison to the 2012/13 baseline year. The City's total greenhouse gas emissions in 2018/19 decreased by 30% from 2012/13 emissions.

The City has developed a draft Climate Change Plan 2024 – 2034 which is aimed to be finalised in 2024.

Re: City of Joondalup Climate Action Plan.

- Q2: *Mr Dickie spoke on behalf of Mr Dowling, given the increasing danger of climate change related weather events, will the City pursue a more ambitious Climate Action Plan to dramatically cut the City's emissions, including divesting ratepayer funds from banks that fund fossil fuels, and using more renewable energy?*

- A2: The Director Governance and Strategy responded that the Draft Climate Change Strategy, considered by Council towards the end of 2023, has been referred for further discussions with Elected Members regarding the greenhouse gas emissions' total target. The City is therefore unable to suggest any outcome before community consultation has commenced. There will be opportunity to provide comment on the City's direction regarding the Climate Change Strategy.

Mayor Jacob advised that a major barrier to more ambitious greenhouse gas emissions' reduction is the fact that the City is not currently responsible for the choice of street lighting. The City would ideally be able to, through cooperation, convert street lighting to LED lights and thereby ensure the single largest reduction to greenhouse gas emissions.

Mayor Jacob went on to say, the City's Leafy City Program does have extensive impact and would make an even greater difference through underground power that will allow for increased urban canopy.

B Hewitt, Edgewater:

Re: Greenhouse gas emissions offsets.

- Q1: *Can the City advise what the offsets consist of, to achieve the 17% reduction in greenhouse gas emissions?*

A1: The Manager Strategic and Organisational Development responded that the City currently offsets fleet emissions, with the cost being around \$30,000 per year. There is a proposal, with the Draft Climate Change Plan, to purchase additional renewable energy, and this is being referred back to the City to work on with the Elected Members.

Re: *Leafy City Program.*

Q2: *In regard to the Leafy City Program, the City has quoted that 4,500 trees have been planted. Can the City advise whether the number of trees planted, that have subsequently died, has been included in this number?*

A2: The Director Infrastructure Services responded that the City does review the attrition rate of trees planted by the City. There is approximately a loss of around 10% of trees planted, and these are replaced on an annual basis as part of the City's tree planting program.

A Arrah, Craigie:

Re: *Carbon Offsets.*

Q1: *Can the City advise, when the City refers to carbon, is this specifically carbon dioxide?*

A1: The Manager Strategic and Organisational Development advised that when monitoring, reporting and offsetting the City uses an industry standard calculation that considers a number of different emissions to determine a carbon dioxide equivalent.

7 GENERAL BUSINESS

The Mayor commented that any questions of a general nature raised at the Annual General Meeting of Electors would be responded to and questions requiring a more detailed response would be taken on notice.

The following summarised questions were received in writing prior to the Annual General Meeting of Electors:

M Van Dyk, Connolly:

Re: *CJ181-12/21 – Installation of CCTV at Underpasses.*

Q1 *Can the City advise if the above CCTV installation has been put out to tender?*

A1 Council considered a report (CJ071-05/223 refers) at its meeting held on 23 May 2023 in response to CJ181-12/21 where Council resolved, in part, to support the installation of permanent CCTV infrastructure at the Whitfords West Park underpass.

In October 2023 the City requested quotes for a suitable contractor to undertake the installation of permanent CCTV infrastructure at the Whitfords West Park underpass with the works occurring in December 2023.

Re: *SMART Cards.*

Q2 *The Government started trialling Cashless Debit Cards CDC's in 2018. Is the Council aware of this trial?*

A2 Yes.

Q3 *Has Council been informed of the results of the trial at the end of the trial on 6 March 2023, and that it would be replaced by an Enhanced Income Management Account, until the people get a SMART card?*

A3 No more than what has been reported in the media.

Q4 *Is the Council aware that the Government used people who are on Centrelink for these trials, they could only access their 'money' by using these trial cards. They were only allowed to use the cards for what the Government decided they could buy and only at certain businesses?*

A4 The City understands that for those on the Cashless Welfare Card, 80% of their welfare payment was linked to their Cashless Welfare Card, while the remaining 20% was paid into their usual bank account.

Q5 *Mid 2020 - 38.7% of people aged between 15-64 years old are on Centrelink. Does Council have any communications from the Government that the above SMART Card system will be rolled out in the City of Joondalup?*

A5 No.

M Kwok, Ocean Reef:

Re: *Weed Management.*

Q1 *In relation to Council's decision (CJ063-05/21) in Part, made at the Council meeting held on 18 May 2021, as follows:*

"11.3 SUPPORTS the City phasing out the use of glyphosate and other pre-emergent and residual chemicals deemed as confirmed carcinogens or otherwise detrimental to human health in public areas by 31 December 2025, except for the use in:

11.3.1 sump sites and other areas not accessible by the public;

11.3.2 natural areas (where it is required for conservation purposes in removing invasive exotic weeds), ovals and playing fields and road reserves and medians (where no footpath is present)"

Can the City advise how does the City propose to meet the deadline by December 2025 to phase out the use of toxic weed killers?

A1 In developing the *Weed Management Plan 2023 - 2033* consideration was given to previous Council decisions, outcomes of the Strategic Community Reference Group meeting held in May 2021 and community concerns regarding herbicide use, including two petitions that were open at the time.

Council adopted the *Weed Management Plan 2023-2033* at its meeting held on 28 March 2023 (CJ040-03/23 refers). In adopting the management plan Council endorsed the management actions described within the plan which includes the continued use of herbicides such as glyphosate as part of an integrated approach to weed management. The use of chemical weed control as a tool to maintain amenity, biodiversity and reduce the risk of fire within the community is an important element of the City's approach to weed management.

As per the objectives of the Plan, the City will continue to reduce reliance of herbicide use by increasing non-chemical weed control methods where appropriate including trialling alternative forms of weed control and utilise non-chemical weed for hardstand areas within 50 meter radius of schools and within playspaces. Additionally, non-chemical control will be used within kerbs, footpaths, hardstand median islands, mulched median islands and general paved areas within the City's Central Business Precinct.

Council's adoption of the *Weed Management Plan 2023-2033* provides future direction for weed management within the City and supersedes previous decisions and management actions relating to weed management.

Re: *Question Taken on Notice at Ordinary Meeting of Council held on 27 February 2024.*

Q2 *Director Planning and Community Development took the following question on notice at the Ordinary Meeting of Council held on 27 February 2024:*

"Is there any evidence that CCTV deter or prevent anti-social behaviour?"

Can the City please supply a response to the above question?

A2 It has been established through Crime Prevention Through Environmental Design (CPTED) principles that the perception of safety is increased through the installation of CCTV systems, increased lighting, activation and patrols. CCTV can act as a functional and productive tool to help deter potential criminal activity and can assist in the detection, investigation and prosecution of crimes.

Where people feel safe in a space there is more likely to be activation in that area which may result in less opportunities for antisocial behaviour.

Re: *Annual Financial Statement 2022/2023.*

Q3 *Can the City please advise when the Annual Financial Statement 2022/2023 were released by the Auditor?*

A3 The Annual Financial Statement 2022/23 was released by the Auditor on 1 December 2023.

Re: *CMAKTECH Lighting.*

Q4 *Referring to the invoice paid to CMAKTECH on 31 May 2023: Invoice 2211 Lighting - Joondalup City Centre for \$119,632.82. Can we have a breakdown of the \$119,632.82 please?*

- A4 This payment is for Whitfords Nodes CCTV. Unfortunately, the Invoice Description on the List of Payments considered by Council at its Ordinary Meeting held on 22 August 2023 (page 534 refers) incorrectly stated "2211 – Lighting Joondalup City Centre".

Please find a breakdown of the invoice in the table below:

Description	Amount
Hardware including connectors, cabling, switches and cameras	\$45,904.69
Poles	\$27,333.22
Installation and commissioning	\$27,945.24
Project management and documentation	\$3,475.00
Powder coating	\$4,098.96
SUB TOTAL	\$108,757.11
GST	\$10,875.71
INVOICE TOTAL	\$119,632.82

- Q5 *As the City of Joondalup is implementing SMART City technology, is the CBD Lighting program by CMAKTECH part using Wi-Fi and Li-Fi technology for data transmission and data harvesting?*

- A5 CMAKTECH are not involved with the City for smart lighting throughout the City of Joondalup.

L Crawford, Duncraig:

Re: CCTV – Security Cameras.

- Q1 *Can the City please define what is involved in CCTV as a 'service solution' (I refer to Question from B Gould 25/2/24, A2 – Payment Details - CMAKTECH, 4/12/23)?*

- A1 Using Software as a Service (SaaS) technology, CCTV as a service allows the software to be accessed through a web browser instead of installing it on a computer. It also ensures Enterprise Level security for the Genetec Security Desk platform services, while keeping local servers and storage capacity. SaaS technology is installed in the 'cloud', which is a network of remote servers.

- Q2 *As far as I am aware there are currently security cameras in operation in the City of Joondalup that could read number plates, if and when they do this, where is this information stored?*

- A2 The license plate data is stored directly on the cameras and is progressively overwritten once the storage capacity is reached.

- Q3 *With reference to Q2, has the Council given serious consideration to possible safety concerns. For example, if this information is accessed unlawfully via a hack, or malice, it may mean that people will know the whereabouts of residents at multiple times of the day whilst they are in the area?*

- A3 The City takes data security seriously and enforces network security as well as physical security at each server and camera location.

P Navas-Parejo:

Re: CCTV Camera Network.

- Q1 *Can the City please advise on how many instances during 2023 did the WA Police request footage from the City's CCTV network?*

A1 56.

- Q2 *Can the City please advise how long does the City hold the footage collected through the CCTV network?*

A2 32 days before it is automatically deleted unless specific footage has been exported as part of an official request. The requested footage is then stored in accordance with record keeping legislation.

- Q3 *Can the City please advise where the footage is stored?*

A3 On local servers within the City of Joondalup.

- Q4 *Can the City please advise what is the procedure the City follows for deletion of footage?*

A4 Footage is automatically deleted after 32 days without manual intervention.

I Anthony, Ocean Reef:

Re: CCTV Camera Network.

- Q1 *Can the City please advise if the City is collecting public information via CMAKTECH?*

A1 The City is not collecting public information via CMAKTECH.

- Q2 *Can the City please advise what type of public information has been collection by CMAKTECH?*

A2 Not applicable.

- Q3 *Has the City got any data to show that CCTV prevents crimes?*

A3 The City does not collect specific crime data however does capture information on antisocial behaviour (which depending on the nature of the behaviour may have a criminal element) when reported by community members. This information then forms part of the consideration when identifying suitable locations to deploy the City's mobile CCTV infrastructure.

It has been established through Crime Prevention Through Environmental Design (CPTED) principles that the perception of safety is increased through the installation of CCTV systems, increased lighting, activation and patrols. CCTV can act as a functional and productive tool to help deter potential criminal activity and can assist in the detection, investigation and prosecution of crimes.

M Sideris, Mullaloo:

Re: Draft Coastal Hazard Risk Management and Adaptation Plan (CHRMAP).

Q1 *At the meeting held on 12 December 2023, Council agreed to prepare a new draft Coastal Hazard Risk Management and Adaptation Plan in alignment with State Planning Policy 2.6, and relevant guidelines, developed by a multi-disciplinary team of suitably qualified persons; and others. Can the City please provide a status update?*

A1 *At the Council meeting held on 27 February 2024, Council endorsed amendments to the Corporate Business Plan 2023–2027 including changes to milestones for the Coastal Hazard Risk Management and Adaptation Plan project. As per the updated milestones a project plan is proposed to be presented to Elected Members in quarter 4.*

Re: Lot 501 Pinnaroo Point.

Q2 *As the CEO has Delegated authority to Dispose of Property up to the value of \$900,000, can the City please advise why the CEO brought the sub-lease of Lot 501 Pinnaroo point to Council to approve?*

A2 *A delegation allows an officer to make a decision in place of the Council, subject to any policy requirements, however an officer is not obliged to exercise that delegation in every instance. In this case, the public interest in the project was such that it was considered appropriate that the decision be made by the Council and not under delegation.*

Re: Beach Closure.

Q3 *Can the City please advise who and what authority directed the second beach closure at Mullaloo Beach?*

A3 *The City assumes that reference to the 'second beach closure at Mullaloo Beach' relates to the instance that occurred on Friday, 2 February 2024. This being the case the City understands that representatives of Surf Life Saving Western Australia took action pursuant to the City of Joondalup Local Government and Public Property Law 2019.*

Re: Ticketed event held on the lawn in front of the Hillarys Beach Club (HBC) and outside the Lot 501 Crown lease area on Australia Day.

Q4 *Can the City please advise if the Hillarys Beach Club (HBC) had City approval for that event and the ability to exclude the public from use of that area?*

- A4 The Hillarys Beach Club requested a booking of an area of lawn immediately adjacent to their premises and the City issued a permit for the space. The Hillarys Beach Club were provided with approval for their event and the exclusive access to the area for the purposes of their liquor license area.
- Q5 *Can the City please confirm that the City approved the appropriate event liquor licence, and various permissions and insurances to provide a petting zoo and bouncy castle on public open space?*
- A5 The Department of Racing, Gaming and Liquor approved the relevant extended trading permit. The City received a copy of the certificate of currency issued to Hillarys Beach Club (WA) Pty Ltd for public and property liability, prior to approving the use of the lawn area for the event.

The following summarised questions in respect to General Business were asked verbally at the Annual General Meeting of Electors:

I Anthony, Ocean Reef:

Re: The Grooming of Children.

Q1: *Would the City of Joondalup allow the exposure of children to drag queens and the grooming of young children?*

A1: Mayor Jacob responded that the City would not allow the grooming of young children.

A Arrah, Craigie:

Re: The Grooming of Children.

Q1: *Can the City please provide a definition for the "City not allowing the grooming of children"?*

A1: Mayor Jacob reiterated that the City would not allow anything that would involve the grooming of children.

M Sideris, Mullaloo:

Re: Freedom of Information (FOI).

Q1: *In relation to a question submitted previously, whereby the CEO answered that the decision for Pinnaroo Point being brought to Council was because it was in the public interest. Can the CEO explain why an FOI which goes back to 2014, which I claim is in the public interest, has not been released?*

A1: The CEO responded that decisions relating to FOI are not the responsibility of the CEO, as such decisions are referred to the State Government Department the Office of the Information Commissioner.

Cr Vinciullo left the Chamber at 5.53pm.

Re: Fireworks in High-Risk Bushfire Prone Area.

Q2: In relation to the use of park land surrounding Hillary's Beach Club for activities on Australia Day, can the City advise who authorised the fireworks in a designated high risk bushfire prone area?

A2: The Director Corporate Services responded that the Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) issued the permit for fireworks and the City was consulted. During the meeting, the Director Corporate Services committed to provide further information – now included on page 16 below.

M Van Dyk, Connolly:

Re: Family Friendly City Events.

Q1: As it was stated that City programs are family friendly, do events with drag queens constitute family friendly activities?

A1: Mayor Jacob responded that it is the duty of the City to represent all of the 165,000 residents. The City would not facilitate anything that would endanger children and takes the protection of children very seriously.

As City events are provided from ratepayer funds, the City does seek to provide as many services and activities as possible for the entire community. It is for individuals to choose which events to attend, or not attend, and the information can be found in the City of Joondalup's event calendar. The City provides a broad spectrum of opportunities for a range of different interests.

Re: Use of Glyphosate.

Q2: Can the City advise, does the City spray glyphosate close to primary schools?

A2: The Director Infrastructure Services responded that the City has an exclusion zone around primary schools where glyphosate will not be sprayed.

Cr Hamilton-Prime left the Chamber at 6.00pm

M Kwok, Ocean Reef:

Re: Financial Report 2022/23.

Q1: In regard to the question submitted previously to the City, "can the City please advise when the Annual Financial Statement 2022/23 was released by the auditor?" The City's response being "that the Annual Financial Statement was released by the auditor on the 1st of December, 2023".

Can the City explain why the Chief Executive Officer signed off on the Financial Report on the 30th of November 2023?

A1: The Director Corporate Services responded that once details have been confirmed with the Office of the Auditor General, a copy of the Annual Financial Report is sent for the CEO to sign. In 2023, the City received that copy on or about 27 November 2023, and it was signed by the CEO on 30 November 2023. After being submitted to the Office of the Auditor General, the Audit Report was then released on 1 December 2023.

Re: *Payments for CCTV at Whitfords Nodes.*

Q2: *In relation to a question previously submitted, there is an entry of \$45,904 for cameras, cabling, and switches as well as an entry of \$56,000 for Whitfords Nodes cameras. Can the City advise whether the \$45,904 is in addition to the \$56,000 for cameras at Whitfords Nodes?*

A2: During the meeting, the Director Infrastructure Services took this question on notice.

The City has since confirmed that the invoice referred to in the question was the first progress claim for the installation of CCTV cameras at Whitfords Nodes. Please find below a breakdown of this first invoice:

Progress claim 1

Description	Amount
Hardware including connectors, cabling, switches and cameras	\$45,739.08
Poles	\$0
Installation and commissioning	\$4,657.54
Project management and documentation	\$695.00
Powder coating	\$0
SUB TOTAL	\$51,091.62
GST	\$5,109.16
INVOICE TOTAL	\$56,200.78

D Vincent, Joondalup:

Re: *Freemasons.*

Q1: *Can the City advise how many of the Elected Members are Freemasons?*

A1: Mayor Jacob responded that he cannot respond on behalf of Elected Members. Questions to Elected Members can be forwarded to their individual email addresses.

M Sideris, Mullaloo:

Re: *Fireworks in High-Risk Bushfire Prone Area.*

Q1: *In relation to the approval of fireworks, did the City advise the Department of Mines, Industry Regulation and Safety (DMIRS) that the Hillarys Beach Club facility is in a high-risk bushfire prone area?*

- A1: The Director Corporate Services responded that the City advised the DMIRS that the area was in the dunes system and in close proximity to people's homes. During the meeting, the Director Corporate Services committed to provide further information – now provided below.

The City did not advise DMIRS that the Hillarys Beach Club facility is in a high-risk bushfire prone area, as this is not the City's role in the approval process. Fireworks permits are obtained through the Department of Energy, Mines, Industry Regulation and Safety. The approval process consists of the fireworks contractor supplying scaled site plans, inclusive of exclusions zones and a firework event notice signed by WA Police, Department of Fire and Emergency Services, the local government authority, and in some instances, the Civil Aviation Safety Authority.

Re: Property value in relation to disposal of land by lease.

- Q2: *As part of recent correspondence regarding a Lease Agreement, the City stated that the CEO has delegated approval to dispose of property up to, not exceeding, the value (in this case it was \$600,000). The City advised that the threshold was not reached because it was a Peppercorn Lease.*

Can the City provide a written definition of "property value", particularly in relation to disposal of land by lease?

- A2: During the meeting, Mayor Jacob responded that the question will be taken on notice and a written response provided.

The City has since confirmed the details of a proposed disposition under the *Local Government Act 1995* is described as "*the consideration to be received by the local government for the disposition.*" The consideration for the relevant lease agreement relates to the total value of the rent received, not the value of the property.

Cr Vinciullo entered the Chamber at 6.03pm.

A Arrah, Craigie:

Re: United Nations' Sexuality Education Agenda.

- Q1: *Is the City of Joondalup a signatory of or opposed to the United Nations' child sexuality education agenda?*

- A1: Mayor Jacob responded that the City is not a signatory to such a document.

The CEO responded that local governments are not usually legally or constitutionally in a position to become a signatory to a United Nations' document, as that is usually the preserve of National Governments.

Mayor Jacob responded that choices concerning such matters are for individual parents to make, not for local governments to regulate.

Re: Drag Story Hour.

Q2: Can the City advise how age appropriateness of drag queen reading time materials is determined, and what is the educational benefit of drag queen reading time for the children within the City of Joondalup?

A2: During the meeting, the Director Planning and Community Development took the question on notice.

The City has since confirmed that it considers its programming based on a number of factors including community interest, previous programming feedback and industry experience. Programming is also guided by the City's Access and Inclusion Plan, in particular elements of Social Inclusion which is defined by the plan as:

"Everyone can participate in the same activities, in the same space. True social inclusion is a cultural change. It is the change of attitude towards those who have been historically excluded."

In view of this, programming that is delivered by the City is broad and provides options for the community. It is a proactive choice by someone to attend a City program, or in the case of children's programming, a parent or guardian has chosen on behalf of the child to attend and participate.

M Kwok, Ocean Reef:

Re: AGM Motions.

Q1: As a mover for a motion, is it possible to change to a different motion?

A1: Mayor Jacob responded that the motions that have been submitted are to be worked through, otherwise a request can be made to withdraw a motion.

Q2: Will the City be opening to the floor for further motions if people missed out because the deadline was moved?

A2: Mayor Jacob responded that although the deadline was moved, extra notice was given. The residents of the City of Joondalup have ample opportunity to put motions forward. As the City has other business during the evening, further motions would be at the discretion of the Presiding Member.

The following summarised statements were made verbally at the Annual General Meeting of Electors:

I Anthony, Ocean Reef:

Re: Drag Story Hour.

Ms Ileana Anthony raised concerns regarding the possibility of drag queen led story time in local libraries, as has occurred in other Councils. Ms Anthony expressed agreement with Mayor Jacob's statement that individual parents make choices on how to raise their children. Ms Anthony emphasised that drag queens represent a form of adult entertainment, and expressed the concern that exposure of children is a form of grooming.

Ms Anthony asked the City whether drag queen story time would be allowed in the City of Joondalup, when there are alternative options such as Indigenous Australians or other cultures presenting stories to children.

Ms Anthony explained that certain restrictions are placed upon children for their protection and urged the City to view the potential exposure of children to drag queens as requiring a comparable level of protection.

M Kwok, Ocean Reef:

Re: Scrutiny of the Western Australian Local Government Association (WALGA).

Ms Michele Kwok spoke in relation to the Western Australian Local Government Association (WALGA) and described a need for scrutiny of this body based on the extensive public funding it receives. Ms Kwok outlined a discrepancy between the requirement for Elected Members and City Administration to declare accepted gifts or donations, and the fact that gifts exchanged between WALGA and City staff do not need to be declared. Ms Kwok highlighted that the City paid a \$112,955.58 membership fee in 2023, and emphasised that such a significant amount of public funding requires the certainty that WALGA is operating appropriately.

Ms Kwok raised the concern that as WALGA is not a State or local government entity, it does not fall within the jurisdiction of the Auditor General and escapes being scrutinised. Ms Kwok reminded the Council that WALGA can give consent to a request for scrutiny, under the *Auditor General Act 2006*.

A Arrah, Craigie:

Re: Drag Story Hour.

Mr Andrew Arrah urged the Councillors and City staff to research, become informed and stand with their convictions regarding the possibility of drag queen story time.

Mr Arrah expressed no personal objection to adults partaking in drag, and suggested that senior citizens would likely enjoy the entertainment provided by drag queens. However, Mr Arrah strongly questioned the intentions behind drag queen story time and suggested that such events constitute a form of grooming of young children.

P Navas-Parejo, Greenwood:

Re: Carbon Dioxide.

Mr Pedro Navas-Perez addressed the Council to state that carbon dioxide is valuable for its' capacity to make various parts of life, such as plants and farm produce, thrive.

Mr Navas-Perez urged the City to put an end to "the farce" in relation to the approach to carbon emissions involved in the climate change strategy.

M Van Dyk, Connolly:

Re: Use of Glyphosate.

Ms Marietta Van Dyk expressed concerns over the spraying of glyphosate within the City of Joondalup, amidst a context of court cases in which individuals have attributed cancer to glyphosate exposure.

Ms Van Dyk questioned why the City continues to use glyphosate in every suburb, in areas where children run with bare feet. Ms van Dyk stated that she has footage of glyphosate being sprayed in proximity to Connolly Primary School.

Ms Van Dyk challenged the City to consider the adequate evidence and research that supports a stop to the carcinogenic spraying of glyphosate.

D Vincent, Joondalup:

Re: Freemasons.

Mr Daniel Vincent spoke of a potential conflict of interest, if any Elected Members of the Council are also freemasons, as an oath of allegiance to their secret society may conflict with the interests of residents. Mr Vincent insisted that if any individuals within the City are freemasons, this should be disclosed.

8 MOTIONS FOR THE ANNUAL GENERAL MEETING OF ELECTORS

The Mayor invited Electors to move motions and commenced by inviting those Electors who had submitted motions in writing to the City prior to the Annual General Meeting to come forward when called.

MOTION 1 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the City that all motions from electors this evening and at all future Annual Electors' Meetings be read aloud by the Presiding Member and displayed on the large screens in the Council Chambers, so as to ensure all attendees are able to fully understand the wording proposed and be clear about what they are voting on.

The Motion was Put and

CARRIED

Manager Strategic and Organisational Development left the Chamber at 6.24pm.

Cr Hamilton-Prime entered the Chamber at 6.26pm.

MOTION 2 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer from 2025 to schedule all Annual Electors' Meetings as stand-alone events, not held before another public meeting within the City of Joondalup or immediately after a public holiday.

The Motion was Put and

CARRIED

MOTION 3 – J Hope, Beldon

MOVED J Hope, SECONDED A Arrah that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to prepare a report on a proposed policy having regard to the following:

That all Indoor and Outdoor Events that are organised, supported and/or approved and funded by the City of Joondalup, where children under the age of 18 years are involved in, or have access to, be adherent to a Policy, made by the City of Joondalup where, and which includes all points below:

- 1 All organising and presenting staff (paid and voluntary) are to have current "Working with Children" Clearances;
- 2 No sexualised, inferred sexualised or politicised content in activities, presentations and/or in the materials (including books and videos) is to be used, as adult themes or inferred adult themes are not suitable for children, who have developing minds;

- 3 Presenters and staff (paid and voluntary) are to be of good character (no sexualised or politicised websites, all of which are unsuitable for children);
- 4 Presenters and staff (paid and voluntary) must have three professional "character references" to support their good character, thus proving to be good role models for our children.

AMENDMENT MOVED M Kwok, SECONDED J Grorud that the Motion be AMENDED to read as follows:

"That all Indoor and Outdoor Events that are organised, supported and/or approved and funded by the City of Joondalup, where children under the age of 16 years are involved in, or have access to, be adherent to a Policy, made by the City of Joondalup where, and which includes all points below:"

The Amendment was Put and

CARRIED

The Original Motion as Amended being:

That all Indoor and Outdoor Events that are organised, supported and/or approved and funded by the City of Joondalup, where children under the age of 16 years are involved in, or have access to, be adherent to a Policy, made by the City of Joondalup where, and which includes all points below:

- 1 All organising and presenting staff (paid and voluntary) are to have current "Working with Children" Clearances;
- 2 No sexualised, inferred sexualised or politicised content in activities, presentations and/or in the materials (including books and videos) is to be used, as adult themes or inferred adult themes are not suitable for children, who have developing minds;
- 3 Presenters and staff (paid and voluntary) are to be of good character (no sexualised or politicised websites, all of which are unsuitable for children);
- 4 Presenters and staff (paid and voluntary) must have three professional "character references" to support their good character, thus proving to be good role models for our children.

The Amended Motion was Put and

CARRIED

MOTION 4 – L Crawford, Duncraig

MOVED L Crawford, SECONDED P Navas-Parejo that the Electors of the City of Joondalup REQUEST that Council instructs the City to limit where possible, the use of wireless technology in council areas, where there are a lot of activities involving children and pregnant women, for example community centres and libraries.

The Motion was Put and

CARRIED

MOTION 5 - P Navas-Parejo, Greenwood

MOVED, P Navas-Parejo, SECONDED A Arrah that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to stop spending funds on further CCTV devices, software and/or systems, and consider the following:

- 1** That residents and ratepayers are under financial stress with increasing interest rates, increasing council rates, increasing fuel prices, energy prices, food prices and inflation to name a few;
- 2** That residents and ratepayers **DO NOT** want the City spending council rates on a civilian surveillance system that has not been proven to reduce or deter antisocial behaviour or crime;
- 3** That residents and ratepayers **DO NOT** want the City tracking vehicles through City roads, or storing any form of data relating to our vehicles, such as number plates, current location, distance travelled, carbon footprint, as this would be subject to potential hacks and other threats;
- 4** The Council **AGREES** instead to lower the council rates, which would be much more welcomed by its ratepayers.

AMENDMENT MOVED M Kwok, SECONDED M Van Dyk that an additional Part be **ADDED** to the Motion to read as follows:

“5 *That the CEO investigates having fake cameras and lights to deter antisocial behaviour and consider passive surveillance while designing public areas to improve public safety for community members.”*

The Amendment was Put and

CARRIED

The Original Motion as Amended being:

MOVED, P Navas-Parejo, SECONDED A Arrah that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to stop spending funds on further CCTV devices, software and/or systems, and consider the following:

- 1** That residents and ratepayers are under financial stress with increasing interest rates, increasing council rates, increasing fuel prices, energy prices, food prices and inflation to name a few;
- 2** That residents and ratepayers **DO NOT** want the City spending council rates on a civilian surveillance system that has not been proven to reduce or deter antisocial behaviour or crime;
- 3** That residents and ratepayers **DO NOT** want the City tracking vehicles through City roads, or storing any form of data relating to our vehicles, such as number plates, current location, distance travelled, carbon footprint, as this would be subject to potential hacks and other threats;
- 4** The Council **AGREES** instead to lower the council rates, which would be much more welcomed by its ratepayers;
- 5** That the Chief Executive Officer investigates having fake cameras and lights to deter antisocial behaviour and consider passive surveillance while designing public areas to improve public safety for community members.

The Amended Motion was Put and

CARRIED

Governance Officer left the Chamber at 6.47pm and returned at 6.54pm.

MOTION 6 - M Van Dyk, Connolly

MOVED M Van Dyk, SECONDED J Grorud that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to **ENSURE** the option for cash payment is maintained in all City venues and facilities.

The Motion was Put and

CARRIED

MOTION 7 – M Norman, Sorrento

MOVED M Norman, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to develop a Cat Local Law (similar to that recently adopted by the City of Wanneroo) specifying the following:

- 1 Cat-prohibited natural areas;**
- 2 That a cat found in natural areas can be seized and impounded by the City;**
- 3 That the owner deemed to be committed of an offence, will have the relevant penalty applied.**

The Motion was Put and

CARRIED

MOTION 8 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup **MOVE** that ratepayers be given the opportunity to ask additional questions and present additional motions without notice.

The Motion was Put and

CARRIED

Cr Hamilton-Prime left the Chamber at 7.04pm.

MOTION 9 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer that all motions from the Annual General Meeting of Electors this year, and in all future years, are addressed fully and separately with individual reports and are voted on separately when presented to Council.

The Motion was Put and

CARRIED

Cr Fishwick left the Chamber at 7.12pm.

MOTION 10 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer that in all future City of Joondalup Annual Reports ensure that a record is included from the Customer Service Feedback, which should include, at a minimum:

- 1 the number of compliments;**
- 2 feedback and complaints provided through the customer feedback;**
- 3 report on the outcomes of these figures in terms of the City's response to customer feedback.**

The Motion was Put and

CARRIED

MOTION 11 – M Van Dyk, Connolly

MOVED M Van Dyk, SECONDED J Grorud that the Electors of the City of Joondalup **REQUEST** that Council instructs the City **DO NOT** duplicate services already provided by the State Government such as Immunisation Clinics.

The Motion was Put and

CARRIED

MOTION 12 – L Crawford, Duncraig

MOVED L Crawford, SECONDED J Hope that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to make a representation to the government to request that:

- 1 The Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) take the science on non-thermal biological effects of Radiofrequency Electromagnetic Radiation (RF-EMR) into consideration;**
- 2 Develop a new RF standard which is divided into three categories with much lower maximum exposure levels than the current ARPANSA RF standard.**

The Motion was Put and

CARRIED

Cr Fishwick entered the Chamber at 7.19pm.

MOTION 13 – M Norman, Sorrento

MOVED M Norman, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the City that any money budgeted for the Friends' Groups Special Purpose Grants that remains unallocated on 1st of May of each financial year:

- 1** Shall be made available for Friends' Groups (who have already received a grant of the annual prescribed maximum amount) to apply during May for additional funds so as to double their annual grant;
- 2** Any successful applicant shall be paid the additional funding requested, or a lesser amount depending on the number of applications received, by the end of the financial year.

The Motion was Put and

CARRIED

MOTION 14 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup **MOVE** that sufficient parts of Standing Orders be set aside to enable free and open discussion on any matter raised by electors without notice.

The Motion was Put and

CARRIED

Cr Kingston left the Chamber at 7.27pm.

MOTION 15 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to prepare a comprehensive program this year to phase out the use of glyphosate and other pesticides within the City of Joondalup. Making an incremental shift to non-chemical weeding methods , such as hydrothermal, manual and mechanical weeding, over the next three years.

The Motion was Put and

CARRIED

Cr Kingston entered the Chamber at 7. 29pm.

Cr O'Neill left the Chamber at 7. 33pm.

MOTION 16 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to investigate replacing chemical weeding (excluding the use of hydrothermal) methods along laneways and pedestrian access ways with non-chemical weeding methods.

The Motion was Put and

CARRIED

Governance Coordinator left the Chamber at 7.36pm.

MOTION 17 – L Crawford, Duncraig

MOVED L Crawford, SECONDED J Grorud that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to make a representation to the Government requesting schools, especially kindergartens remain hard wired where possible, with wireless devices limited where possible and turned off when not in use.

The Motion was Put and

CARRIED

Cr O'Neill entered the Chamber at 7.38pm.

Governance Coordinator entered the Chamber at 7.38pm.

MOTION 18 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council significantly reduce the current maximum property value of \$900,000 that the Chief Executive Officer has delegated authority to dispose of under the current Delegated Authority Register, and that all property under consideration for disposal and valued greater than \$100,000 be reported to Council for review.

The Motion was Put and

CARRIED

Director Planning and Community Development left the Chamber at 7.41pm.

MOTION 19 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to ensure that the Annual Report is to be prepared and ready to be signed off by the Council before 31 December each year.

The Motion was Put and

CARRIED

Director Planning and Community Development entered the Chamber at 7.44pm.

MOTION 20 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to develop a Citywide Friends of PAWs group for interested residents who would like to participate in the care, planting and maintenance of their local PAWs, so that members may be covered under the City's own public liability insurance and supported by the City in this valuable work.

The Motion was Put and

CARRIED

Cr Raftis left the Chamber at 7.46pm.

Cr Vinciullo left the Chamber at 7.47pm.

MOTION 21 – L Crawford, Duncraig

MOVED L Crawford, SECONDED J Hope that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to write to the Minister for Health with regard to the serious deleterious effects of fluoride in our drinking water, especially in children and pregnant women.

The Motion was Put and

CARRIED

Cr Vinciullo entered the Chamber at 7.52pm.

MOTION 22 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to establish with high priority a Management Plan for dealing with the asbestos and unexploded ordnance (UXO) currently buried at Pinnaroo Point and now being exposed due to coastal erosion and sea level rise.

The Motion was Put and

CARRIED

Cr Raftis entered the Chamber at 7.55pm.

MOTION 23 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer (CEO) to:

- 1** make public the CEO's current Key Performance Indicators (KPI's) within three months of the AGM of Electors' meeting;
- 2** to change the City's policy to ensure that all future contracts signed by the current, and future, CEO's of the City of Joondalup include publicly provided and accessible KPIs within one month of signing of the said contract.

The Motion was Put and

CARRIED

MOTION 24 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to **NOT REQUIRE** members of the public when speaking at a public meeting to state their full address, and to provide a system where this information can be verified prior to the commencement of the meeting, such as a confidential written register.

The Motion was Put and

CARRIED

MOTION 25 - L Crawford, Duncraig

MOVED L Crawford, SECONDED P Navas-Parejo that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to consider investing in a training program on 'Electromagnetic Fields Awareness' for key members of the City of Joondalup, particularly those involved in Planning and Development, Council Members and the Mayor. This would increase the City's knowledge base on current safety issues and how best to mitigate them, thereby minimising future harms and possibly even litigation.

The Motion was Put and

CARRIED

MOTION 26 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to establish a Public Notification Plan that deals with Algal Bloom outbreaks that recently closed Mullaloo Beach.

The Motion was Put and

CARRIED

MOTION 27 – B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council:

- 1 ENSURES** that any rates in the dollar rise is limited to no more than 0.1% in the coming year, due to the financial impact of interest rate rises and the general cost of living increases on the community;
- 2 NOTES** that any increases in Gross Rental Value (GRV) will have an increase in the Council rates required to be paid by ratepayers, and in the event that the rate in the dollar is also increased, it is likely to put enormous pressure on families who make up the largest ratepayer group within the City.

The Motion was Put and

CARRIED

MOTION 28 – M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to prepare and publish the Agenda for the Briefing Session at least five full days prior to the Briefing Session Meeting to allow residents and ratepayers sufficient opportunity to read it and prepare deputations.

The Motion was Put and

CARRIED

MOTION 29 - B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the City to expand the Waterwise verge garden program to:

- 1 ENCOURAGE** people to reduce water usage and plant native verge gardens;
- 2 INVESTIGATE** providing an annual selection of waterwise plants free to the community (as is undertaken in the Town of Victoria Park).

The Motion was Put and

CARRIED

MOTION 30 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer that the Council and Administration should generally not go on overseas trips at the expense of the ratepayers of the City of Joondalup.

The Motion was Put and

CARRIED

MOTION 31 - B Hewitt, Edgewater

MOVED B Hewitt, SECONDED M Kwok that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to report in all future Annual Reports all sources of income received by Council Members that are as a consequence of any of the following:

- 1 appointments to Regional Councils;
- 2 appointments to Development Assessment Panels;
- 3 appointments to the Western Australian Local Government Association;
- 4 appointments to any committees, boards, panels or any other body which are as a consequence of or in relation to a person holding the office of Council Member.

The Motion was Put and

CARRIED

MOTION 32 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to ensure that all administrative costs of the Special Area Rates (SARs) within the City of Joondalup, are passed onto the SARs in full, in addition to any operational costs which may already be charged to the SARs.

The Motion was Put and

CARRIED

Cr Pizzey left the Chamber at 8.28pm.

MOTION 33 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup **REQUEST** that Council instructs the Chief Executive Officer to make available to the ratepayers, through providing in the agenda or minutes of Council Meetings (both Briefing and Ordinary), answers to all questions that are taken on notice during Council Meetings (both Briefing and Ordinary). This is to include questions raised by both ratepayers and Elected Members.

The Motion was Put and

CARRIED

Cr Pizzey entered the Chamber at 8.31pm.

MOTION 34 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED B Hewitt that the Electors of the City of Joondalup REQUEST that Council instructs the City:

- 1 to keep residents on the Pesticide Exclusion Register and Pesticide Use Notification Register without the need for annual re-registration;**
- 2 NOTES the removal of the re-registration requirement, will prevent unnecessary anxiety if residents have forgotten to re-register in July.**

The Motion was Put and

CARRIED

MOTION 35 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup REQUEST Council to reconsider the proposed capital works project FNM2095 Mullaloo North Beach Connection and consider reallocating these funds to areas of higher need including the provision of low-key beachside fencing and signage to encourage the broader community that the coastal dune reserves are conservation areas with fragile and vulnerable ecosystems.

The Motion was Put and

CARRIED

Cr Hill left the Chamber at 8.37pm and returned at 8.39pm.

MOTION 36 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup REQUEST Council to direct the CEO to progressively revise the register of decisions to include archived decisions of Council for the City of Joondalup and Wanneroo and that an annual report be provided to Electors.

The Motion was Put and

CARRIED

MOTION 37 - M Sideris, Mullaloo

MOVED M Sideris, SECONDED B Hewitt that the Electors of the City of Joondalup in a move towards open and accountable government DIRECTS the Council to consider amending the City's ability to classify reports as confidential matters well beyond the deliberative period that Council requires to consider that matter before it.

The Motion was Put and

CARRIED

MOTION 38 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED J Grorud that the Electors of the City of Joondalup REQUEST that Council instructs the CEO to ensure information about fees, expenses and allowances in the annual financial statement are to be accurately reflected in the annual report as prescribed by s19BD of the *Local Government (Administration) Regulations 1996*.

The Motion was Put and

CARRIED

MOTION NO. 39 - M Kwok, Ocean Reef

MOVED M Kwok, SECONDED J Grorud that the Electors of the City of Joondalup REQUEST that Council instruct the City to resign membership of WALGA until WALGA has an independent forensic audit from the Office of the Auditor General and the report be published and made public.

The Motion was Put and

CARRIED

Acknowledgement of Traditional Custodians

The City of Joondalup acknowledges the Traditional Custodians of this land, the Whadjuk people of the Noongar nation. We recognise the culture of the Noongar people and the unique contribution they make to the Joondalup region and Australia. We pay our respects to Elders past, present and emerging and all Aboriginal and Torres Strait Islander peoples.

Theme of the Annual Report

The theme of the City of Joondalup Annual Report for 2022/23 is **A shared vision for the future**. This theme reflects the City's commitment to work with the community to achieve the vision of our new 10-Year Strategic Community Plan, *Joondalup 2032 — A global City: bold, creative and prosperous*.

Joondalup 2032

This is the first year the City's strategic direction is guided by *Joondalup 2032*, which has a strong focus on delivering high-quality social, environmental and economic services, projects, and activities for our residents, businesses and visitors.

In developing *Joondalup 2032*, community members shared their views through *Shaping your local community*, a collaborative engagement initiative that included a series of polls, workshops and surveys. The City's Elected Members, workforce, and Strategic Community Reference Group also shared their views.

The following **shared vision for the future** was developed from this collaboration:

The City in 2032 has a strong focus on sustainability, liveability, active lifestyles and friendly social interactions. We have a healthy environment, with protected bushland, marine ecosystems and accessible parks and green spaces. We are an environmentally aware and socially responsible City. We are a vibrant place where people want to live, work and play, and where people can find everything they need locally.

The City in 2032 caters for every stage of life. People feel welcome here and have a clear sense of belonging. We live in high-quality housing in attractive neighbourhoods which have excellent transport linkages and connectivity. We are multi-generational and multicultural; a place where everyone feels connected and safe.

We celebrate and adopt technology and innovation. We are a hub for education and state-of-the-art health facilities, and we are an active advocate for health and other community services. The City in 2032 is internationally connected — we are a global facing City, with local amenity, and a powerful sense of community.

A global City: bold, creative and prosperous

Joondalup 2032 is underpinned by our commitment to achieving the goals of five key themes: Community, Environment, Place, Economy, and Leadership. This Annual Report presents the projects and activities for the year under these key themes. The goals for each key theme are shown within the relevant sections.

Adopt-a-Coastline tree planting

Harmony Week

Values

GRI
102-16

The City has adopted the following primary and distinguishing values in alignment with the vision of the 10-Year Strategic Community Plan, *Joondalup 2032*.

Primary values

These primary values are inherent in any well-functioning and community driven organisation:

Transparent

Accountable

Honest

Ethical

Respectful

Sustainable

Professional

Distinguishing values

The City's distinguishing values are the principles and standards that guide us and the community to be leaders in excellence.

The City strives to be:

Bold

We will make courageous decisions for the benefit of the community and future generations.

Ambitious

We will lead with strength and conviction to achieve our vision for the City.

Innovative

We will learn and adapt to changing circumstances to ensure we are always one step ahead.

Enterprising

We will undertake ventures that forge new directions for business and the local economy.

Prosperous

We will ensure our City benefits from a thriving economy built on local commercial success.

Compassionate

We will act with empathy and understanding of our community's needs and ambitions.

Hon Albert Jacob JP
Mayor

GRI
102-14

On behalf of the Joondalup Council,
I present the City's Annual Report for
2022/23 — *A shared vision for the future.*

Mayor's message

As a global City, our community has strong connections with countries in the Commonwealth and we commemorated the Platinum Jubilee of Her Majesty Queen Elizabeth II with a tree planting event, just before her passing. I wish to acknowledge a life of service, unparalleled in modern history, and our pride in the knowledge that the tree remains a legacy for members of our community to enjoy. Rest in peace.

Joondalup 2032

Joondalup 2032 is our new 10-Year Strategic Community Plan, a collaborative document that brings together the collective vision and aspirations of our community members, Elected Members and the City's workforce. This is the first Annual Report that measures how well the City delivered services, projects and activities against *Joondalup 2032*.

2022/23 Annual Budget

In preparing the *2022/23 Annual Budget*, the Council and the City administration considered the impact of cost-of-living pressures for our residents and the change in the economic environment. The *2022/23 Annual Budget* was a responsible budget; the City continued to provide quality services, projects and activities, whilst minimising the burden for our residents and ratepayers.

Major projects

Despite the legacy disruption to supply chains and increased costs caused by the impact of COVID-19 restrictions, the City completed 91% of capital projects, achieving our 90% target.

Major milestones were achieved for the Ocean Reef Marina development, the biggest infrastructure project ever undertaken in our City. Council approved the execution of the Ocean Reef Marina Development Agreement and Land Transfer Deed, which ensures progress of the project according to agreed timeframes. The State Government announced an additional \$7 M towards a coastal pool with features for the whole community to enjoy. The City continues to work closely with DevelopmentWA, specialists, and representatives of the Whadjuk Noongar peoples to ensure the protection of our environment and cultural heritage.

The \$9.1 M Craigie Leisure Centre refurbishment was completed in May 2023. The project was delivered in partnership with the State Government (\$2.9 M), with the City contributing the balance. This modern, spacious venue is now one of the premier community leisure and aquatic facilities in Western Australia. This is a significant investment into the physical and mental health and wellbeing of our community.

The City is committed to fostering health and fitness opportunities for residents and the wider community, and this refurbishment ensures the facilities at the leisure centre keep pace with current and future industry trends.

The \$5.6 M redevelopment of the Chichester Park Community Sporting Facility was completed in April 2023. Built 30 years ago, the building is now a state-of-the-art and fit-for-purpose facility for our 1,400 registered users of the park, and includes a new barbecue and picnic area. Of the \$5.6 M, the State Government provided a grant of \$400,000.

Major events

Attracting major events is part of a strategy to position Joondalup as a Destination City, creating opportunities for our community and attracting visitors. The inaugural Joondalup Festival of Motoring, held in October 2022, saw Joondalup transformed into a two-day motorsport extravaganza. Car lovers were in heaven as cars of all makes, models and eras were paraded through the City Centre. The event was a great success and is scheduled to be held again next year.

Environment

The City continues to take action to reduce emissions. We commenced a three-year power purchase agreement which has the potential to reduce the City's total greenhouse gas emissions by approximately 20%.

We are continuing the Leafy City Program that, since its inception, has resulted in more than 4,500 trees being planted throughout our City, creating cooler and inviting green urban spaces. We will continue to roll-out significant reforms to our waste services, which have been well received by our community. We are keen to build on these reforms and are committed to working collaboratively to address climate change mitigation and adaptation.

Looking ahead

The Council elected Councillor John Logan as the City's new Deputy Mayor at the October 2022 Council Meeting. I thank Councillor Christine Hamilton-Prime for her service as the former Deputy Mayor. With the local government elections to be held in October 2023, I would like to take this opportunity to extend my thanks to my fellow Elected Members for their service to the community over the year.

Thank you to the staff at the City for their hard work and dedication over the year, and to our connected and engaged community for working with us to deliver **A shared vision for the future**.

I am pleased to present our achievements in this Annual Report.

**Hon Albert Jacob JP
Mayor**

James Pearson
Chief Executive Officer

GRI
102-14

CEO's message

This is the first year we report against our new 10-Year Strategic Community Plan, *Joondalup 2032*, the long-term strategic planning document resulting from extensive consultation with the community. The theme of this year's Annual Report is *A shared vision for the future*, demonstrating the City's strong commitment to work with our community. *Joondalup 2032* will guide us over the next decade to deliver sustainable outcomes to meet current and future needs of residents, businesses and visitors to our great City.

As COVID-19 receded we maintained the positives of more flexible approaches to work, enhanced crisis management capacity and an even greater appreciation of the importance of good health and wellbeing in our work and private lives.

It is my privilege to introduce the City of Joondalup's *2022/23 Annual Report*. This year has reinforced the City's reputation as one of the best places to live, visit and do business, as our City team continues to deliver exceptional services, projects and activities.

Awards

For the fifth year in a row, the City won a Gold Award for our *2021/22 Annual Report* from the Australasian Reporting Awards. The award recognises how well we showcase the City's work and our excellence in reporting.

The City was an ABA100 Winner for Communications Excellence in the Australian Business Awards 2022 for our Valentine's Day communication campaign. The award highlights the best marketing and public relations agencies and private businesses across Australia. Our win in such company is a testament to the professionalism, expertise and high standards of our team.

In partnership with the City of Wanneroo, the City received the Best Public Works Project \$2 M-\$5 M Award for 2022/23, for the Burns Beach to Mindarie Dual Use Pathway, from the Institute of Public Works Engineering Australasia WA Awards for Excellence. The new seaside pathway runs from Jindalee to Fremantle, and features second to none views of the City's spectacular coastline.

The City won the 2022 Environmental Leadership and Sustainability Award from Local Government Professionals WA for the Smart Control Irrigation System; technology installed at more than 200 parks across the City.

Workforce

We want to create a workplace in which diversity and inclusion can thrive, representation of the broader community improves, and a safe and collaborative way of working becomes instinctive.

Partnerships with education providers and industry aim to empower our future female leaders, including through the Future Female Leaders Program, where our female leaders provide mentoring and coaching and share their experiences with the leaders of tomorrow.

The newly crafted Veterans and Ex-Defence Employment Initiative is the first of its kind and brings valuable skills to the sector, and can improve the post-service health and wellbeing of veterans and ex-defence personnel.

We have identified pathways for people living with disability to join our team, including work placements and customised employment.

We held a successful Staff Conference in May, the first following the pandemic. The level of collaboration across the organisation was exceptional and the efforts of everyone contributed to a great program, with so much for our City team to see, learn, enjoy and take part in.

Reconciliation

We have made great progress towards our commitment to reconciliation with Aboriginal and Torres Strait Islander Peoples through the development of our Reconciliation Action Plan and expect this plan to be finalised in 2023/24. We will continue to collaborate with our Reconciliation Action Plan Community Reference Group and Reconciliation Australia to create practical actions to sustainably and strategically take meaningful action to advance reconciliation.

We held events to celebrate and recognise the culture and contribution of our First Nations people. Our annual Australia Day Citizenship Ceremony included Aboriginal cultural immersion activities, with our newest residents learning about one of the world's oldest living cultures.

We partnered with Perth International Arts Festival to bring the world premiere of Djoondal to the banks of the Yellagonga Regional Park in Joondalup. Boola Djarat Wardan ("many lights across the sea") was a highlight event at the Joondalup Festival, as was Celebrate Yellagonga Day. It was pleasing to see many people embrace the exceptional cultural events that the City continues to deliver.

25-Year anniversary

The coming year marks the 25-Year anniversary of the City's inception. There have been many highlights that we can reflect on with pride. Our next quarter-century will see us embrace contemporary technology to enhance our services, attract new industries and realise the full potential of our City to be the economic, social and strategic heart of the north.

I thank the City's Mayor Albert Jacob and Elected Members for their service to the community over the past year. I extend my gratitude to all the committed and hard-working City staff who continue to deliver exceptional services, projects and activities to our community.

James Pearson
Chief Executive Officer

NAIDOC Week

Purpose of the Annual Report

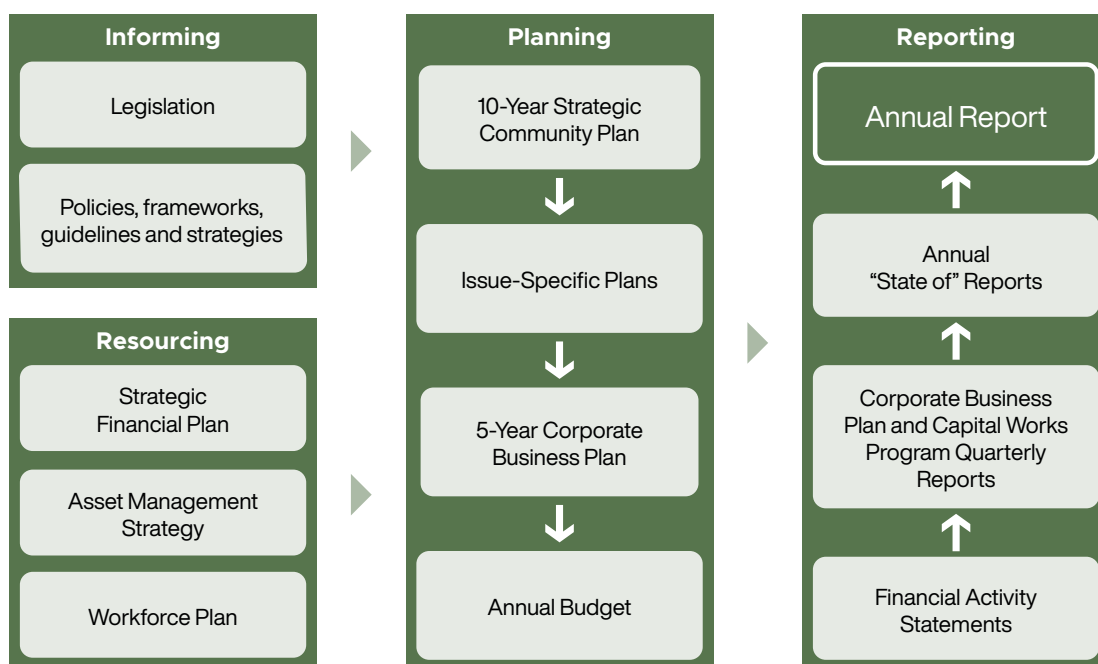

The City produces an Annual Report for each financial year by 31 December, as required under the Western Australian *Local Government Act 1995*. The overall purpose of the Annual Report is to inform the community and stakeholders about our achievements, challenges and future plans. The report also promotes community awareness of City programs and services that contribute to the quality of life for residents, visitors, and stakeholders. This Annual Report demonstrates our performance against the long-term vision of the 10-Year Strategic Community Plan, *Joondalup 2032*, and the projects and priorities detailed in our 5-Year Corporate Business Plan. It provides information about our organisational performance and illustrates our commitment to accountable and transparent government.

GRI
102-26

GRI
102-52

Integrated Planning and Reporting Framework

This Annual Report forms part of a robust Integrated Planning and Reporting Framework which includes Informing, Resourcing, Planning and Reporting components. The framework builds organisational and resource capability to meet community need, and optimises success by understanding the integration and interdependencies between the components. The framework emphasises performance monitoring so that the City can adapt and respond to changes in community needs and the business environment.

How to read the Annual Report

The Annual Report comprises seven sections:

1. Year in Review provides a financial summary, a calendar of community events, a snapshot of our performance, awards and recognition we received, and the challenges we faced throughout the year (page 14).

2. Our City provides information about the City, our community, our stakeholders, and our services, projects and activities delivered (page 33).

3. Our Council provides information about the City of Joondalup Council, Elected Members, committees, and reference groups (page 52).

4. Our Organisation provides information about our organisational structure, workforce, work health and safety, consultants, and volunteers (page 78).

5. Our Performance provides detail about how we are meeting the strategic goals and outcomes of our 10-Year Strategic Community Plan, *Joondalup 2032* (page 100).

6. Year Ahead provides an overview of the key priorities identified in our 5-Year Corporate Business Plan and the challenges ahead for the year (page 136).

7. Annual Financial Report provides the financial indicators and audited financial statements (see *2022/23 Annual Financial Report*).

The City's contact details are listed on the back inside cover.

Abbreviations and key terms

To promote readability and accessibility, we have avoided the use of acronyms, abbreviations and technical terminology. Where abbreviations and key terms do appear, these are explained in plain English.

For clarity, a capital letter for City is specific to the City of Joondalup district, region or local government geographical area. City Centre refers to the geographical location of the Joondalup City Centre.

Tables within this report use the following:

Year in review

Financial snapshot

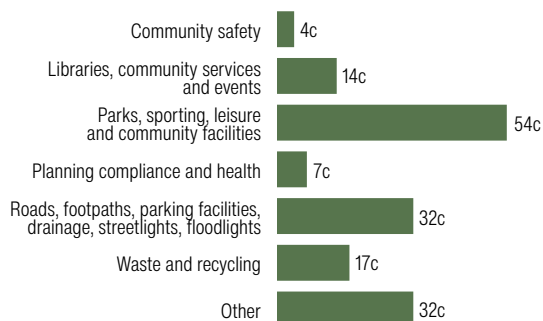

The following provides a snapshot of the City's financial position and performance for 2022/23.

	2022/23	2021/22	2020/21	2019/20	2018/19
Total Liabilities	\$47,105,715	\$44,791,210	\$44,614,497	\$44,065,782	\$41,903,415
Equity/ Net assets	\$1,561,693,721	\$1,487,161,021	\$1,464,754,879	\$1,400,545,392	\$1,472,342,428
Operating revenue	\$168,390,360	\$157,055,323	\$151,667,579	\$157,520,317	\$156,016,001
Operating expenditure	\$158,126,907	\$151,261,976	\$161,569,078	\$146,633,140	\$150,332,634
Operating surplus/(deficit)*	\$10,263,453	\$5,793,346	(\$9,901,499)	\$10,887,177	\$5,683,367
Capital expenditure	\$40,935,165	\$35,288,686	\$34,706,996	\$30,321,787	\$31,363,915

*Note: Includes profit/loss on disposal of assets

Rates

Every \$1 the City received in rates in 2022/23 was supplemented by 60c in other funding. This is how we spent the \$1.60.

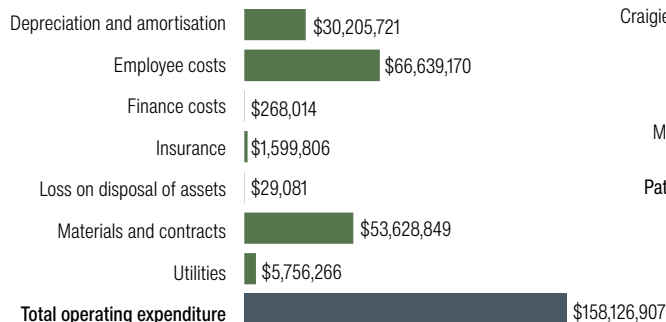

Expenditure

Operating expenditure of \$158 M has risen just over 4% compared to the previous year, mainly due to higher materials, contracts and employee costs, although these remained well within the budget for the year and were offset by higher operating revenues.

Excluding a one-off capital item incurred in the previous year, capital expenditure rose from the previous year reflecting additional capital outlay arising from stimulus grant programs such as the Local Roads and Community Infrastructure Program, as well as significant projects undertaken and cost pressures in the construction industry.

Operating expenditure

Major areas of capital expenditure included:

Revenue

Operating revenue of \$168 M rose 7% from the previous year, arising mainly from higher interest rates and fees and charges revenue. Interest revenue has been driven primarily by the significant interest rate rises experienced through the financial year.

Operating revenue

Cash position

Net cash from operating activities increased to \$39 M, driven mainly by interest revenue growth. Cash and cash equivalents, including other financial assets, are \$152 M, of which \$120 M is held within restricted reserves earmarked for various purposes.

Overall financial position

Despite cost pressures, the City has returned an operating surplus for the year, mainly driven by revenue growth and containment of costs below budget estimates. The City continues to maintain a stable financial position and adequate liquidity in 2022/23.

Capital grants, subsidies and contributions

In addition to the capital grants, subsidies and contributions reported in the *Annual Financial Report* for 2022/23 and 2021/22, the City received \$9,128,926 capital grants, subsidies and contributions for replacement or renewal of assets in 2020/21.

The best estimates for capital grants, contributions and subsidies received and applied to asset replacements and renewals: 2022/23 \$7.46 M, 2021/22 \$11.18 M, 2020/21 \$6.92 M.

Major land transactions

Catalina Estate land sales

The Tamala Park Regional Council was established in January 2006 for the purpose of developing the Catalina Estate land, owned jointly by seven local governments, including the City of Joondalup. The name change to Catalina Regional Council was approved by the Minister for Local Government, Sport and Cultural Industries in 2023.

Catalina Regional Council has developed and sold 1,223 lots of land to date. The City's share of sales proceeds of land to date is \$58,917,430.

Current year transactions	2022/23
Gross sales	\$6,341,376
Cost of goods sold	\$3,348,138
Profit on sales	\$2,993,238

Expected future cash flows	2023/24	2024/25	2025/26	2026/27	2027/28 – 2029/30
Cash outflows					
Development costs	(\$4,834,611)	(\$4,394,065)	(\$5,813,419)	(\$5,518,947)	(\$1,635,812)
Cash inflows					
Sale proceeds	\$9,488,923	\$10,074,028	\$11,006,616	\$12,834,361	\$8,641,836
Net cash flows	\$4,654,312	\$5,679,963	\$5,193,197	\$7,315,414	\$7,006,024

As at 30 June 2023, the City's share of land held for sale at Catalina Estate is \$3,226,014.

Trading undertakings and major trading undertakings

The City did not participate in any trading undertakings during the 2022/23 financial year.

Annual performance measures

To measure the City's performance on an annual basis, we use the **Global Reporting Initiative (GRI)** — a best practice sustainability reporting framework that helps organisations understand their impacts on the economy, environment, and society, including human rights. This increases accountability and enhances transparency of our contribution to sustainable development. The Global Reporting Initiative Standards provide a flexible framework for creating stand-alone sustainability or non-financial reports, or integrated Environment, Social and Governance reports. Organisations have the option to use the Standards to prepare a sustainability report in accordance with the Standards, or use selected Standards (or parts of their content) to disclose information for specific users or purposes. For example, climate change impacts for investors and consumers.

We have selected GRI Standards that are relevant to the local government sector to prepare the non-financial sections of this Annual Report. The relevant disclosures for reporting against have been endorsed by Council and are detailed in our 5-Year Corporate Business Plan.

The individual disclosures are listed under each key theme in the *Our Performance* section of this Annual Report and, where they appear within the text, are identified with the symbol below.

GRI
#-#

In accordance with the requirements of the Global Reporting Initiative, a *Content Index* is provided on page 145. This is the 15th year we have included Global Reporting Initiative disclosures in our Annual Report.

In addition to the Global Reporting Initiative disclosures specified, the Council endorsed a number of **other performance indicators** within the 5-Year Corporate Business Plan. These were included to fill gaps identified in the Global Reporting Initiative framework. These indicators are similarly listed under each key theme in the *Our Performance* section of this Annual Report.

Corporate Business Plan outcomes

The 5-Year Corporate Business Plan is our medium-term planning document which contains the services, projects and activities that have been developed in response to the vision, goals and outcomes of the 10-Year Strategic Community Plan, *Joondalup 2032*. We provide detailed reporting against the 5-Year Corporate Business Plan on a quarterly basis to Council. The following tables show a summary of our annual performance against the milestones of this plan with the budget status and milestone status correct as at 30 June 2023.

Number of projects/
activities with all milestones
completed*

63/102

*Note: Excludes 1 project/activity removed by Council during the year.

Customer satisfaction survey

The City conducts a biennial customer satisfaction survey which aims to measure the City's performance in delivering specific services and facilities. Respondents are selected by random sampling from within the City of Joondalup. They are interviewed by telephone and asked a series of questions relating to overall satisfaction and satisfaction with specific services provided by the City. The results of the most recent Customer Satisfaction Survey (2022/23) are shown in the table below with a trend comparing to the previous survey results (2020/21). The next Customer Satisfaction Survey is scheduled for 2024/25.

Overall satisfaction	2022/23 [†]	Trend from previous
Services provided by the City	90%	▼
Value for money from Council rates	73%	▲
Joondalup as a place to live	97%	–
Customer service experience with the City	82%	▼

Satisfaction with services	2022/23 [†]	Trend from previous
City communications	78%	▼
Community consultation and engagement	65%	▼
Community development services	83%	▲
Community facilities	87%	▼
Community safety*	83%	▼
Community safety services	83%	▼
Conservation and natural area management	88%	▼
Craigie Leisure Centre	93%	–
Cultural services	84%	▼
Emergency management	87%	▼
Environmental health services	86%	–
Landscaping design	86%	▲
Library services	96%	▲
Parking management and provision	72%	▼
Parks	91%	▼
Pool inspection services	80%	▼
Roads	83%	▼
Tourism and visitor attraction	78%	–
Transport and traffic management	86%	–
Waste management services	88%	▲

*Note: Question previously referred to "Ranger services".

[†] Note: Overall percentage satisfaction is calculated as percentage of respondents rating their satisfaction at 6 or higher out of 10 (on a scale 0–10).

The Customer Satisfaction Survey results are available on the City's website at joondalup.wa.gov.au

Awards and recognition snapshot

GRI
102-15

In 2022/23, the City won a number of awards or received recognition for our achievements, as outlined in the following table.

Award	Organisation	Description of award
Best Public Works Project \$2-5 M Award for 2022/23	Institute of Public Works Engineering Australasia WA Awards	In partnership with the City of Wanneroo, we received the award for the Burns Beach to Mindarie Dual Use Pathway.
Environmental Leadership and Sustainability Award	Local Government Professionals WA	We were awarded the Environmental Leadership and Sustainability Award for the Smart Control Irrigation System project, a new irrigation technology that has reduced the City's groundwater use by 86,000 kilolitres.
Gold Award	Australasian Reporting Awards	For the fifth consecutive year, the City received a Gold Award for its <i>2021/22 Annual Report</i> , demonstrating the City's commitment to excellence in reporting.
Achievement Award — Best Practice in Children's Consultation	Institute of Public Administration Australia WA	The City was announced as a finalist for the Strategic Community Plan Mayoral Youth Workshop under the category of Best Practice in Children's Consultation.
Honour Award — Connecting Communities	Local Government Professionals WA	The City was announced as a finalist for the <i>Shaping your local community</i> : Mayoral Youth workshop under the Connecting Communities category.
Perfect 10 for City in Transparency	Civil Contractors Federation Report	The Civil Contractors Federation report, <i>Transparency in Western Australia Local Government Tender Evaluation</i> , analysed the tender assessments as published in Council minutes and supporting documentation. Of the 29 Councils evaluated, the City was the only Council awarded a perfect score.
Pinnacle Awards — Marketing Excellence	AIM WA WestBusiness	The Valentine's Day Parking Initiative was announced as a finalist under the category of Marketing Excellence Award.
Winner for Comms Excellence	ABA100® Business Excellence Awards 2022	The City was recognised for successfully implementing an initiative that demonstrated excellence in communications. This significant national award was for the innovative communications and media campaign that was undertaken for Valentine's Day 2022.

Community and stakeholder engagement snapshot

The City produces ad hoc, monthly and seasonal publications to promote our successes, services and events to the community and stakeholders via a range of mediums. These include our websites, social media, other digital, radio, television, and a variety of print media.

Websites

City of Joondalup joondalup.wa.gov.au	Our primary website is a vital communication tool with over 100 online services including a portal for online payments. The website averaged 61,778 users per month.
Craigie Leisure Centre craigieleisurecentre.com.au	This website provides a range of online services to members and non-members, including fitness class bookings. The website averaged 17,414 users per month.
Joondalup Festival joondalupfestival.com.au	This event-specific website promotes the Joondalup Festival's program of events, enables online bookings and provides information about artists and sponsors. The website received 82,000 visitors between December 2022 and April 2023.

Popular social media post — Looking back

Our series of Looking Back posts are part of the lead-up to celebrating our 25-Year anniversary. On 12 May 2023, a photograph of Westfield Whitford City shopping centre opening day on 19 November 1978 generated 84,148 reach, 747 reactions, 279 comments and 41 shares. On 4 May 2023, a photograph of the Joondalup Drive and Shenton Avenue intersection, circa 1989 generated 134,549 reach, 681 reactions, 1,569 comments and 36 shares.

Popular social media post — Joondalup Festival

On 13 March 2023, we promoted Boola Djarat Wardan ("many lights across the sea"), a light show that ran every evening of the Joondalup Festival. The post had 66,993 reach, 1,129 reactions, 459 comments and 165 shares. On 1 February 2023, we promoted Lights, Laser, Water, Sound, a spectacular free event that transformed Hillarys Boat Harbour for the festival. The post had 127,846 post impressions (how many times the content was displayed on a screen), 1,964 reactions, 1,085 comments and 259 shares.

National exposure for Invitation Art Prize

The Facebook post announcing the winner of the Invitation Art Prize, Emma Buswell's work, *The Sometimes Luxury Handbag and Other Suburban Fables*, generated reach of 22,328 with 412 reactions, 98 comments and 14 shares. The artwork was inspired by a Coles roast chicken bag.

The winning artwork sparked interest from a wide range of national media outlets, social media, radio and TV including:

- Sunrise Channel 7
- ABC Perth
- PerthNow
- PEDESTRIAN.TV
- The Global Herald
- Nova 93.7
- Ladbible
- Reddit

External media

Maintaining positive media partnerships enables the City to reach beyond our boundaries, encouraging visitors to the region and providing economic benefits. We proactively engage with local community newspapers and other media outlets to promote our services, projects and activities. In 2022/23, we provided 113 media releases and responses to the public. These covered a range of issues including changes to waste services, facility upgrades, projects, art prize recipients, awards the City received, and information about upcoming community events.

Media coverage

The City attracted substantial media attention in 2022/23, both positive and negative. Some of the more significant issues that were the focus of media coverage include the following:

Media releases are available
on the City's website at
joondalup.wa.gov.au

Joondalup Festival

Joondalup Festival is the region's largest cultural event, and it attracted significant media coverage through its three-week duration. This included feature stories and three live weather crosses on Seven News. The laser, light and water show, Boola Djarat Wardan ("many lights across the sea") in particular, provided a spectacular backdrop for media activities and drew thousands of visitors to Hillarys Boat Harbour.

Craigie Leisure Centre redevelopment

Seven News were given an exclusive behind-the-scenes look at the \$9.1 M refurbishment of Craigie Leisure Centre when the project was completed in May 2023. The modern, spacious and aesthetically pleasing venue is now one of the premier community leisure and aquatic facilities in Western Australia.

Shalom House

The State Administrative Tribunal ruled on a tenancy dispute between the City and drug and alcohol rehabilitation centre, Shalom House. The organisation, founded by Peter Lyndon-James, was refused an occupancy permit by the City under the *Building Act 2011* to move its women's program to a property in Craigie. The decision garnered substantial media attention.

Venue Hire Fees and Charges Policy

The City's *Venue Hire Fees and Charges Policy*, which aims to share more fairly the cost contribution amongst venue hirers, and ensure venues are booked when groups are actually going to use them, drew attention from media outlets after some local sporting clubs and community groups expressed their disapproval.

Public notices

Public notices are a statutory mechanism prescribed under the Western Australian *Local Government Act 1995*. There are a variety of matters for which the City must publish a public notice, including for the review of local laws, disposal of property, and local government elections.

In 2022/23, the City published four statutory public notices:

- *Adoption of 10-Year Strategic Community Plan*, 7 July 2022
- *Form 19 – Results of Election – Deputy Mayor*, 20 October 2022
- *Availability of 2021/22 Annual Report and Annual General Meeting of Electors*, 10 February 2023
- *Intention to Levy Differential Rates*, 25 May 2023

Public notices are available
on the City's website at
joondalup.wa.gov.au

Community consultation

GRI
102-21

The City's *Community Consultation Council Policy* outlines our commitment to ethical, transparent and accountable community consultation. We consult with the community whenever we are required to do so under legislation, or whenever we consider community feedback to be valuable to inform decision-making on issues such as major policy changes, new community facilities, or changes to our services.

Community consultations

Outcomes Reports are available
on the City's website at
joondalup.wa.gov.au

Mountain bike/BMX hub and urban bike trails youth design workshop

On 1 August 2022, we held a workshop at Anchors Youth Centre, Heathridge to obtain stakeholder feedback to inform a business case evaluating a proposal to build a mountain bike/BMX hub at Whitfords West Park, and urban bike trails through Craigie, Mullanoo and Padbury. The aim of the workshop was for participants to provide information on the preferred locations of the parks and the types of facilities that could be included. The community consultation was in response to a petition for the facilities, as well as a business case requested by Council. The workshop targeted young people from 11–17 years who collaborated to create a map that visualised what the facilities would look like. The options developed from the workshop will be investigated via the business case to determine if the project can be delivered.

Community consultation activities 2022/23:

Major community events snapshot

Our calendar of major community events outlines what we planned and delivered during the year.

2022

July 2022

- NAIDOC Week 3-10
July *Get Up! Stand Up! Show Up!*:
- NAIDOC Week Opening Event — cultural immersion activities and flag-raising ceremony
- NAIDOC Week Art Exhibition
- In Conversation with Christopher Pease
- Bilya Kaatijin (“fresh water knowledge”) — Yirra Yaakin Theatre Company
- Cultural Walk at Lake Joondalup
- Traditional art activity and yarning session with Justin Martin
- Walk around Lake Goollalal with Olman Walley
- Wundabaa Gaay-Galgaa (Ghost Stories) — Kalyakoorl Collective
- Sunday Serenades — Gina Williams and Guy Ghouse
- Citizenship Ceremony

August 2022

- Sunday Serenades — Golden Age Girls
- Citizenship Ceremony
- Appreciation Function — Surf Clubs

September 2022

GRI
102-33

COVID-19

In July 2022, the latest Omicron subvariants of COVID-19 continued to spread across Australia. Due to the increase in case numbers, health authorities considered reinfection more likely. Our City team continued to follow health and hygiene recommendations to reduce the spread of infection in the workplace. The responsibility to minimise the impact of COVID-19 was shared by all, and the City supported staff to take all precautions. This included providing Rapid Antigen Tests and masks, as well as paid time off to get vaccinations. Staff who tested positive, but were asymptomatic, were encouraged to work from home, where possible. Although there were absences due to COVID-19, we worked hard to minimise the impact on our operations and services.

Skills shortage

Some of the City's projects were impacted or delayed by vacancies, skills shortages, skills gaps or unmet training needs. A market shortage of suitably qualified skilled candidates, an inability to compete with the private sector on remuneration, and an ageing workforce were contributing factors, whilst COVID-19 caused a disruption in training needs.

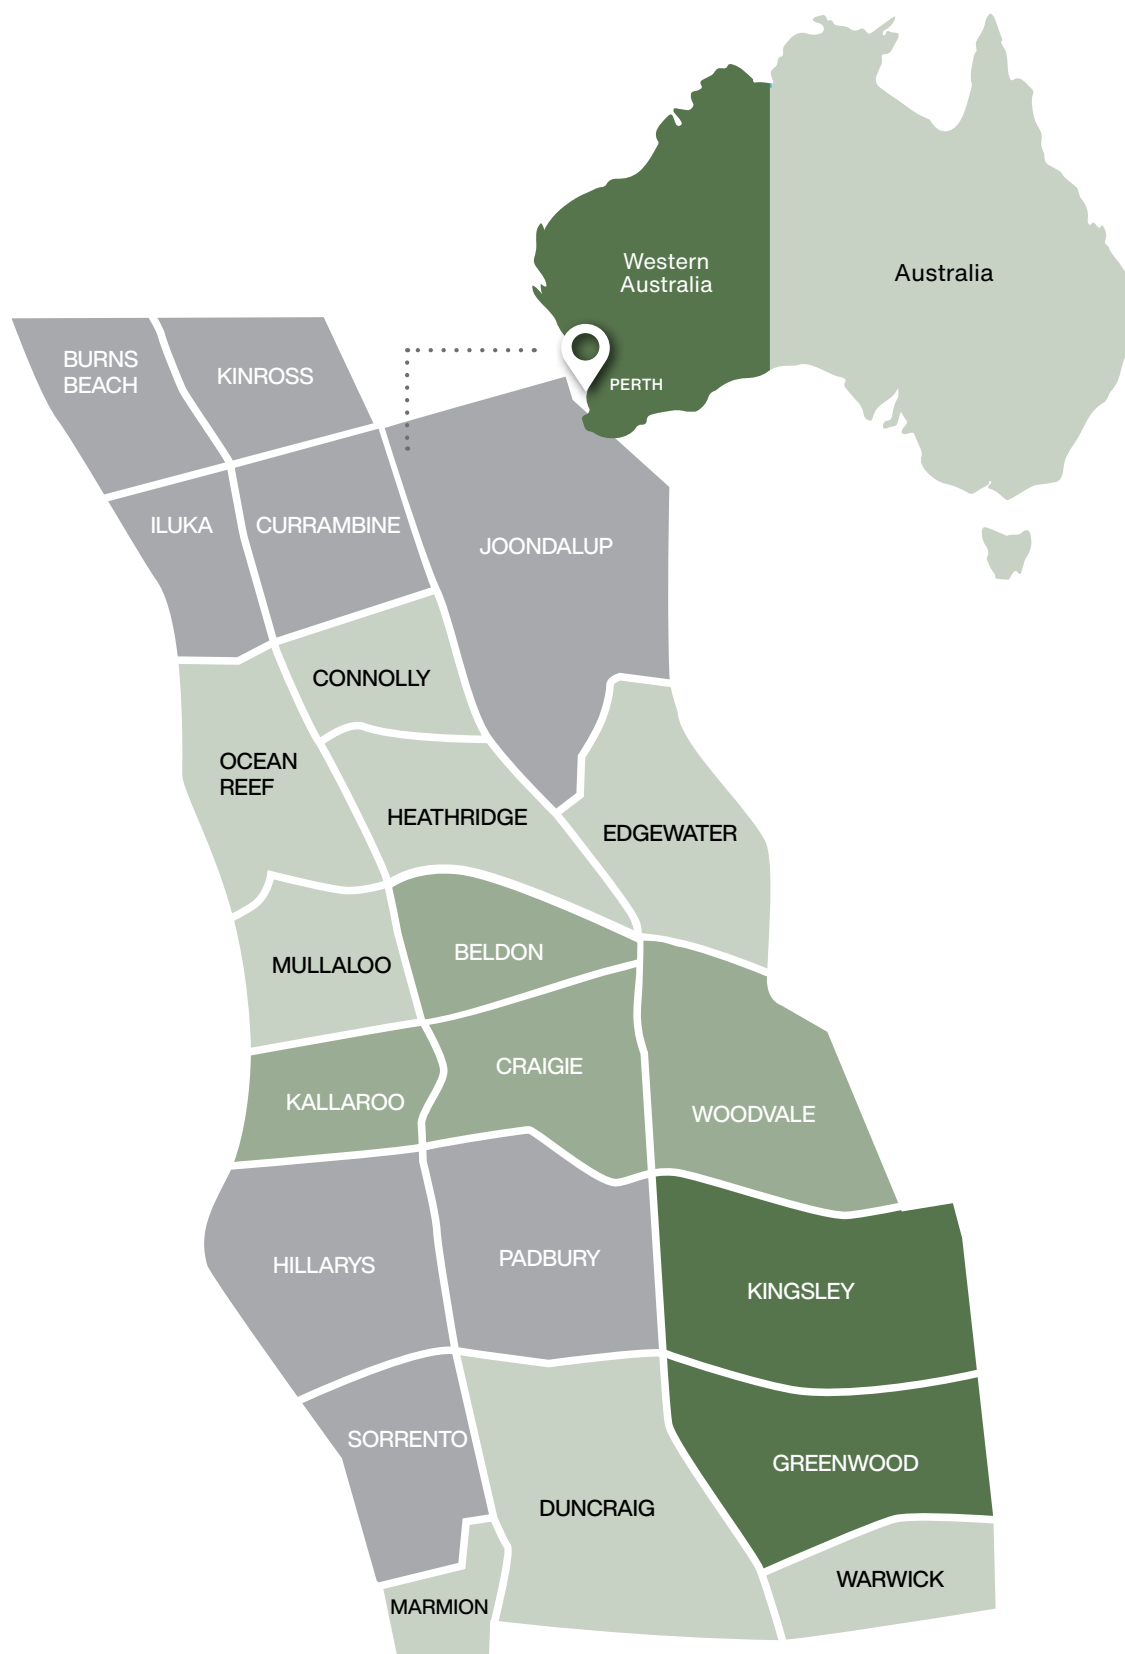

Severe weather

Many suburbs in the City experienced severe weather events during the year. High winds and heavy rain saw an increase in the number of calls and work orders to clean up fallen branches, debris and potholes on our roads that emerged due to flash flooding. The staff on the frontline, both the Customer Care call centre and teams out in the field, responded to these calls for assistance calmly and systematically to prioritise jobs for the clean-up.

Joondalup Festival

Our city

About the City of Joondalup

The City of Joondalup is a local government in the North Metropolitan Region of Western Australia. It has a total land area of approximately 97 square kilometres, featuring substantial areas of coastline, parkland, foreshore reserves, and bushland.

Located approximately 21 kilometres from Perth's Central Business District, 26 kilometres from Perth Airport, and 30 kilometres from Fremantle Harbour, the area is residential, with some commercial and industrial areas. The City has 22 suburbs and a population of approximately 165,000 residents. The major transportation networks are the Mitchell Freeway and the Joondalup Railway Line.

The City is home to a number of tourist attractions, such as Hillarys Boat Harbour, and is well-known for its natural attractions such as 17 kilometres of pristine coastline and the stunning Lake Joondalup within Yellagonga Regional Park.

With its several beaches and numerous outdoor activities, such as whale watching at Marmion Marine Park, bike riding along the Sunset Coast and Burns Beach to Mindarie dual pathway, or tackling the Whitfords Nodes Health and Wellbeing Hub and Ninja Warrior Course, Joondalup has a reputation as one of the most liveable cities in the world.

Joondalup is a growing centre for education, training and health care. Its key employment sectors include retail, health and education, and tourism. Major retail centres include Lakeside Joondalup Shopping City and Westfield Whitford City. Joondalup has one major hospital (Joondalup Health Campus); several tertiary institutions (Edith Cowan University, North Metropolitan TAFE, and Motor Industry Training Association of Western Australia); numerous public and private schools; and the WA Police Academy.

Whitfords Nodes Health and Wellbeing Hub

History

According to archaeological evidence, Noongar people have lived in the area around Yellagonga Regional Park for at least 40,000 years prior to European colonisation. The country surrounding the Yellagonga Regional Park area is called Mooro; the park is named after an important Noongar elder of the early colonial period. “Joondalup” is a Noongar word which means “place of whiteness or glistening”.

European settlement led to the establishment of market gardens, farms and vineyards near Lake Joondalup. The coastal suburbs became popular holiday spots, even though access by road was limited. In the 1970s, the State Government developed a vision for a commercial, civic and cultural centre in Perth’s Northern Corridor. The plan was for a self-sustaining community, supported by public transport, to minimise the detrimental environmental effects of living in the City. Joondalup was the first new City in Australia to be designed according to economic, social and environmental principles.

In the 1980s, the Joondalup Development Corporation created the Joondalup City Centre. The 22 residential suburbs developed around the City Centre during the 1980s and 1990s. While urban development in Joondalup dates from the 19th century, there was comparatively little residential development, except in the south of the City, until the late 1960s. From the 1970s to the 1990s, horticultural areas were converted to residential use, and by 2000, much of Joondalup had been urbanised. Along with the City Centre, the remaining northern suburbs have been the focus of development over the last two decades and are now mostly fully developed.

The primary housing market role that the City played in the last 40 years was to provide affordable housing for families. The presence of Edith Cowan University and proximity to employment and beaches has drawn many more residents to Joondalup, particularly from overseas. It is assumed that current migration patterns will continue, most notably, flows into the City from overseas, families being attracted to coastal areas, and younger adults to higher density residential areas.

City of Joondalup

The City of Joondalup was officially formed in 1998 when the State Government made the decision to split the former City of Wanneroo. Joondalup is one of the largest local governments in Western Australia by population with approximately 165,000 residents.

Logo

The City’s logo combines the imagery of the built and natural environments — the grid structure and the leaf pattern. The floral shape is derived from the local native cycad, commonly known as the zamia palm, emerging from the grid pattern, representing the planned City of Joondalup. The logo was designed by Landcorp and adopted by the City to represent a community in harmony with its natural and built environment.

City infrastructure

The City provides and maintains a range of physical infrastructure across the land, buildings and public open spaces it manages. Some of the key infrastructure in our asset portfolio are listed below:

351 (573 ha)
Parks

103 (603 ha)
Natural areas

Our community

GRI
102-7

The City of Joondalup is the third largest local government in Western Australia by population with approximately 165,500 residents. Living across 22 suburbs, the City's residents include a significant migrant population, particularly from the United Kingdom and South Africa. There are currently over 60,000 dwellings in the City, with most residents purchasing or fully owning their homes.

Residents work in a range of industries, with large numbers employed in health care and social assistance, construction, and education and training. Joondalup is located approximately 30 minutes north of the Perth Central Business District, and approximately two-thirds of residents travel outside the City each day to work.

Our stakeholders

GRI
102-6

GRI
102-13

GRI
102-40

Our population consists of many customer and stakeholder groups, including residents, ratepayers, tourists and visitors, businesses, developers, schools, community and sporting groups, State and Federal Government agencies, Edith Cowan University, WA Police Academy, North Metropolitan TAFE and Joondalup Health Campus.

A challenge for the City is to recognise the differing interests of this diverse range of customers and stakeholder groups. It is also essential that we communicate effectively with each group and understand the impact of our decisions on each group.

The City takes on a number of roles in stakeholder management: sometimes leading in delivery, partnering with others, and advocating, facilitating or providing financial support. In collaboration and in partnership with our stakeholders, we are committed to a shared responsibility to use our resources efficiently and effectively.

Community stakeholders

- Clubs and sporting groups
- Community and not-for-profit groups
- Customers, ratepayers and residents
- Friends' groups
- Resident and ratepayer associations
- Seniors' groups
- Volunteers

Why it is valuable

- Supports sustainable leadership to enable the community to deliver programs and activities.
- Assists in delivering a range of programs which we may not be able to deliver on our own.
- Maximises the delivery of sporting, educational and social activities to improve the quality of life of the community.
- Builds the capacity for community participation.
- Helps us to improve our services, programs and activities.
- Maximises use of facilities and services the City provides.

Media partners

- Nova Entertainment
- PerthNow Joondalup
- Seven West Media
- Twin Cities FM

How we engage

- Briefings
- Interviews
- Press releases
- Social media
- Sponsorship

Why it is valuable

- Helps build and protect the reputation of the City.
- Creates awareness of issues in the City.
- Promotes the services, programs and activities we deliver.
- Increases our reach throughout the Greater Perth Metropolitan Area and the State.

Business stakeholders

- Edith Cowan University
- Joondalup Business Association
- Joondalup Health Campus
- Local businesses
- North Metropolitan TAFE
- Hillarys Boat Harbour
- LendLease
- Westfield Whitford City
- Joondalup Resort
- CyberWest WA Cyber Security Innovation Hub
- Regional councils
- Service providers and suppliers

How we engage

- Encourage and support leadership through board and committee memberships, business forums, onsite visits, meetings, and training and support.
- Ensure sound financial management and practices through our accounts, purchasing and contract management, and provide quality services and products in line with policy and legislation.
- Keep the community informed of opportunities through our Business eNewsletters, social media platforms, and tourist information.
- Provide engagement opportunities through business events, focus groups, meetings and workshops.

Why it is valuable

- Encourages local economic growth and opportunities.
- Forms partnerships to achieve strategic and organisational objectives.
- Gains specialist knowledge and ideas, and common interests are shared.
- Gains technical and practical support, advice and guidance.
- Generates employment opportunities in the City.
- Improves quality of services and products.
- Shares costs and expertise to progress joint projects.
- Supports business investment, development and growth.
- Maximises use of facilities and services the City provides.

Government agencies and departments

- Department of Biodiversity, Conservation and Attractions

- Public Transport Authority
- WA Police
- WA Police Academy

How we engage

- Briefings
- Events
- Grants and funding
- Meetings
- Networks
- Policy development
- Submissions

Why it is valuable

- Provides input into policy development.
- Advocates for differing interests of the diverse community and stakeholder groups.
- Receives funding and partnership opportunities, direction with planning, strategies and legislation, and share ideas.

City services

City services

GRI
102-2

The City is responsible for delivering a wide range of economic, human, recreational and property services, as well as developing and maintaining essential community infrastructure. We deliver statutory services, such as approvals for planning, building, health, and swimming pool security fencing. We deliver discretionary services, such as library programs, events, leisure centres, and recreational programs. We also deliver internal services, such as human resources and information technology. These internal services provide us with the capacity to deliver the external statutory and discretionary services to our community.

Overall satisfaction with services
provided by the City

Customer Service Charter

The City's Customer Service Charter states our commitment to providing quality services. It provides employees with clear standards for the delivery of service excellence in pursuit of the vision and goals identified in the City's 10-Year Strategic Community Plan, *Joondalup 2032*.

The City reviewed the *Customer Service Charter* in 2022 and confirmed our commitment to:

- protecting the privacy and confidentiality of personal information and data
- connecting, consulting and engaging with our community
- making information, resources, and services accessible and inclusive
- continuously measuring and improving the quality of our services through customer surveys, feedback and performance data
- recognising and celebrating excellence in customer service delivery.

The Customer Service Charter is available on the City's website at joondalup.wa.gov.au

Council Chambers

Our Council

Council structure

The City of Joondalup Council consists of a popularly elected Mayor and 12 Councillors, also known as Elected Members. The role of Council is to govern the City's affairs, monitor the performance of its functions, and be responsible for allocating finances and resources. Council also determines and reviews the City's policies, plans and other statutory documents.

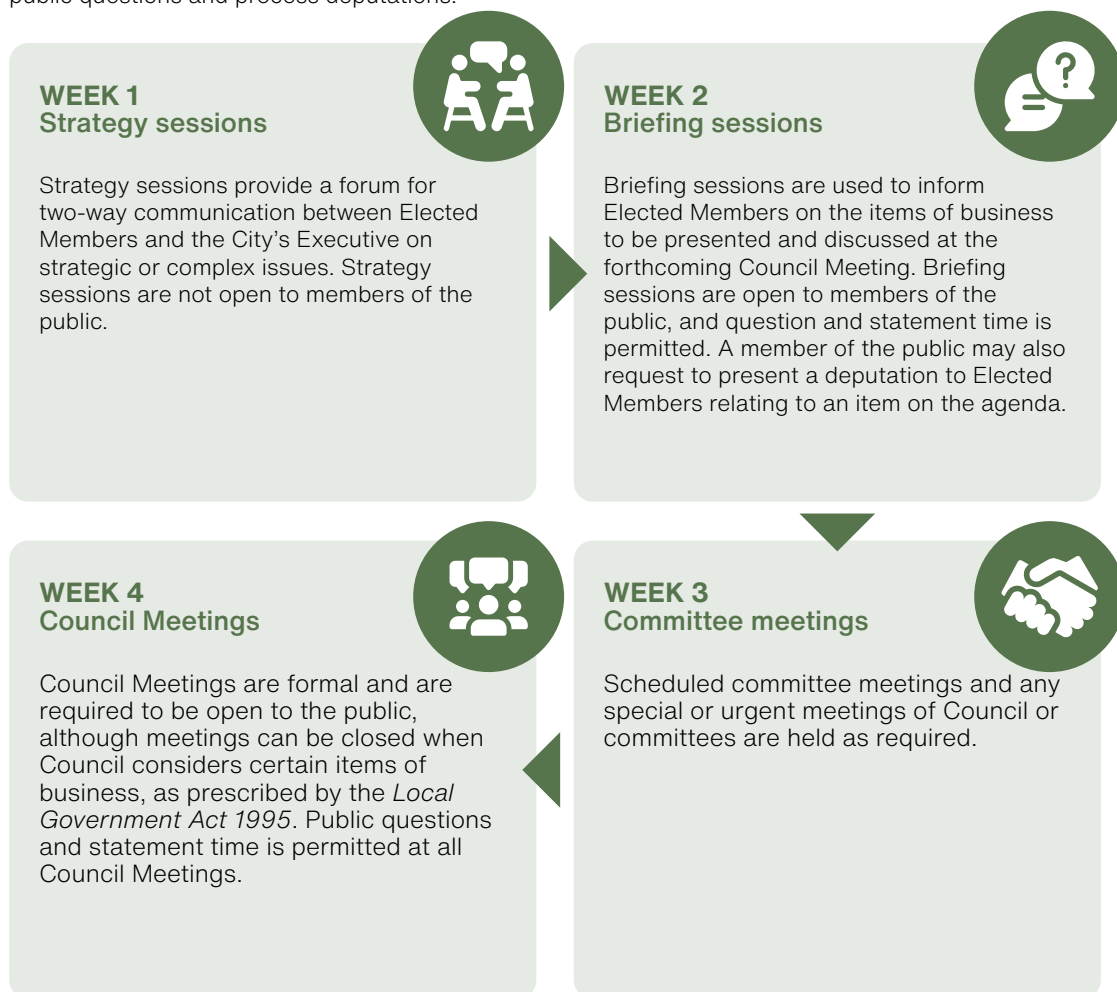

Local government elections

GRI
102-24

Local Government Ordinary Elections are held on the third Saturday in October every two years for half of the Council. At the most recent election, Councillors were elected using a first-past-the-post voting system; preferential voting is set to be introduced at the next Local Government Ordinary Elections scheduled for 21 October 2023. If a vacancy occurs within a term, an Extraordinary Election is held. Mayoral elections are held every four years.

Meeting cycle

The City has a four-weekly meeting cycle between February and December each year. The structure of Council and Committee meeting dates for 2023 was amended to ensure no Briefing sessions or Council Meetings were held after public holidays. The amendment was to ensure adequate time to distribute public questions and process deputations.

Elected Members

GRI
102-22

GRI
102-23

Role of Elected Members

Elected Members make important decisions relating to the whole of the City by considering the views of the community. They work together with the community and the Executive to set the strategic direction of the City. The role of Council, Elected Members, and the Mayor is defined in the *Local Government Act 1995* as follows:

Civic Chambers

The role of Council is to:

- govern the local government's affairs
- be responsible for the performance of the local government's functions
- oversee the allocation of the local government's finances and resources
- determine the local government's policies.

Remembrance Day

The role of the Mayor is to:

- preside at Council Meetings and ensure meetings are conducted in a correct and orderly manner, while remaining impartial
- carry out civic and ceremonial duties (such as conducting citizenship ceremonies)
- liaise with the Chief Executive Officer on the local government's affairs and the performance of its functions
- speak on behalf of the local government
- provide leadership and guidance to the community.
- The Deputy Mayor performs the functions of the Mayor when authorised to do so under section 5.34 of the *Local Government Act 1995*.

Elected Members

The role of each Councillor is to:

- represent the interests of electors, ratepayers and residents
- provide leadership and guidance to the community
- facilitate communication between the community and the Council
- participate in decision-making processes at meetings
- perform such other functions as are permitted to a Councillor by the *Local Government Act 1995* or any other written law.

Complaints registers

Register of Minor Breach Findings

An Elected Member commits a minor breach if they contravene Division 4 — Rules of Conduct of the *City of Joondalup Code of Conduct for Council Members, Committee Members and Candidates*. In accordance with the *Local Government Act 1995*, a complaint of an alleged minor breach is submitted to the Local Government Standards Panel for determination.

The Register of Minor Breach Findings provides details of minor breach complaints which the Local Government Standards Panel has found to have occurred, and which required appropriate action to be taken. In accordance with section 5.121 of the *Local Government Act 1995*, the City must publish an up-to-date register on its website which is to include:

- the name of the Council member about whom the complaint is made
- the name of the person who made the complaint
- a description of the minor breach that the standards panel finds has occurred
- details of the action taken under section 5.110(6) of the *Local Government Act 1995*.

A total of three entries were registered in the Register of Minor Breach Findings during 2022/23, three of which were on appeal.

Remuneration totalling \$8,658 was paid to members of the Local Government Standards Panel during 2022/23.

Register of Behavioural Breach Findings

An Elected Member commits a behavioural breach if they contravene Division 3 — Behaviour of the *City of Joondalup Code of Conduct for Council Members, Committee Members and Candidates*. The Register of Behavioural Breach Findings provides details of complaints about behavioural breaches which the City of Joondalup Complaints Officer finds have occurred, and the actions taken. Clause 13 of the City's *Complaint Investigation Council Policy* requires the City to publish an up-to-date register of behavioural complaints.

Zero entries were registered in the Register of Behavioural Breach Findings during 2022/23.

Elected Member diversity

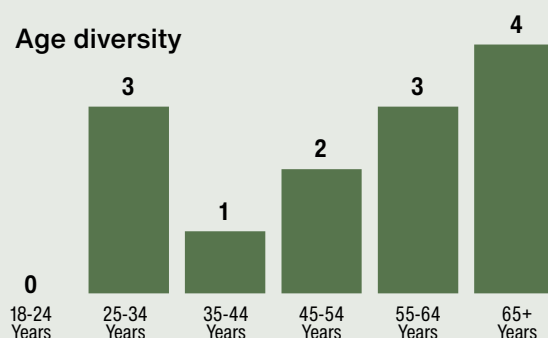

Regulation 19B of the *Local Government (Administration) Regulations 1996* requires the following information to be included in a local government annual report:

- If available, the gender, linguistic background and country of birth of Council members.
- If available, the number of Council members who are aged:
 - between 18 years and 24 years old
 - between 25 years and 34 years old
 - between 35 years and 44 years old
 - between 45 and 54 years old
 - between 55 and 64 years old
 - over 64 years.
- If available, the number of Council members who identify as Aboriginal or Torres Strait Islander.

Gender diversity

Age diversity

No Elected Members identified as Aboriginal or Torres Strait Islander.

The Register of Minor Breach Findings and Register of Behavioural Breach Findings are available on the City's website at joondalup.wa.gov.au

Mayor and Councillors

Hon Albert Jacob JP
Mayor

Term expires: October 2025
Mayor since 2017

T: 9400 4450
E: mayor.jacob@joondalup.wa.gov.au

Qualifications

- Bachelor of Environmental Design
- Master of Architecture

Background and interests

Mayor Hon Albert Jacob JP was first elected to the City of Joondalup as a North Central Ward Councillor in 2006. He was subsequently elected to the Western Australian Parliament as the Member for Ocean Reef from 2008 to 2017, where he served as the Minister for Environment; Heritage for four years. He was elected the fourth Mayor of the City in 2017, and re-elected in 2021. He is proud of his record of working with others to help deliver large and worthwhile projects for the community. He is committed to good government, community engagement, quality urban design outcomes, enhancing streetscapes, and parks and natural areas. He is currently serving as the Director of the Western Australian Parks Foundation.

Cr Suzanne Thompson

Term expires: October 2023
Elected Member since 2019

M: 0409 733 373
E: suzanne.thompson@joondalup.wa.gov.au

Qualifications

- Bachelor of Arts Honours (English Language/Literature)
- Post Graduate Certificate in Education (English and Drama)

Background and interests

Cr Suzanne Thompson began her professional career as a teacher in the United Kingdom before becoming a Head of Department. She moved to Australia in 2000 and worked in advertising for large agencies before running her own agency. She is a keen runner, reader and writer, and an active community member who enjoys working on grassroots projects. She spends her time between raising two children, in a part-time marketing executive role, and as a freelance advertising and marketing consultant. She is a member of the Marmion, Sorrento, Duncraig Progress and Ratepayers' Association.

Council committees/reference groups

- Chief Executive Officer Recruitment and Performance Review Committee
- Policy Committee

External committees and boards

- North West District Planning Committee

*Note: Omissions were made in previous reporting periods and the table provides a restatement of data.

Elected Member training and development

To enable Elected Members to develop and maintain skills and knowledge relevant to their roles as representatives of the City, Elected Members are encouraged to attend conferences and training events. This keeps Elected Members informed and better able to fulfil their duties of office. The following conferences were attended during 2022/23.

Elected Member	Conference	Location	Dates
Mayor Hon Albert Jacob JP	CEDA State of the Nation 2022: Australia's Choices	Canberra	8 Sep 2022
Cr Nige Jones	2022 Local Government Summit	Sydney	20-22 Jul 2022
	Community Engagement Summit	Sydney	23-25 Nov 2022
Cr Adrian Hill	CEDA State of the Nation 2022: Australia's Choices	Canberra	8 Sep 2022
Cr Russell Poliwka	2022 Local Government Summit	Sydney	20-22 Jul 2022
	Waste Conference	Coffs Harbour	9-11 May 2023
Cr Christine Hamilton-Prime JP	India Trade Mission	India	12-18 Jul 2022
	National Health and Innovation Precincts Summit	Sydney	22-23 Nov 2022
Cr Russ Fishwick JP	Australian Local Government Association National General Assembly and Australian Council of Local Government Conference	Canberra	13-16 Jun 2023
Cr Suzanne Thompson	2022 Local Government Summit	Sydney	20-22 Jul 2022

Remuneration and entitlements

Elected Members are remunerated in accordance with the current determination of the Salaries and Allowances Tribunal under the *Salaries and Allowances Act 1975*. The City is classified as a Band 1 local government for the purposes of the *Salaries and Allowances Act 1975* and has determined that it will remunerate its Elected Members as follows:

- Annual attendance fees in lieu of Council Meeting, committee meeting and prescribed meeting fees
- Annual allowance for the Mayor and Deputy Mayor
- Annual allowance for information and communication technology in lieu of reimbursement of expenses.

Council has adopted an *Elected Members' Entitlement Council Policy* which sets out the entitlements available to Elected Members and states that the City will pay the maximum amount within the range set by the Salaries and Allowances Tribunal.

Details of Elected Member remuneration, including conference and training expenses, are contained in the *Notes to and forming part of the financial report (note 21 Related party transactions)*.

A vehicle is placed at the disposal of the Mayor for the term of office to perform mayoral duties. The details of the vehicle provided in the current term of office are:

Make and model: Isuzu D-Max

Date acquired: 17 December 2021

Carrying value as at 30 June 2023: \$47,322

Committees

To assist with decision-making responsibilities, Council established four committees. Each committee performs a specific function and recommendations are presented to Council as the decision-making body. None of the committees currently established have delegated authority.

The Agendas and Minutes for Committee meetings are available on the City's website at joondalup.wa.gov.au

Audit and Risk Committee

The role of the Audit and Risk Committee is to guide and assist the City to carry out functions related to financial management. This includes to monitor, advise and review the Chief Executive Officer's report into the appropriateness and effectiveness of a local government's systems and procedures in relation to risk management, internal control and legislative compliance. This committee supports the auditor of the City to conduct an audit, and review and monitor the internal audit program and the scope of internal audits.

The legislation relevant to this committee includes:

- Part 6 – Financial Management of the *Local Government Act 1995*
- Part 7 – Audit of the *Local Government Act 1995*
- Regulation 17 of the *Local Government (Audit) Regulations 1996*
- Regulation 5(2)(c) of the *Local Government (Financial Management) Regulations 1996*
- Regulation 16(f) of the *Local Government (Audit) Regulations 1996*.

The Audit and Risk Committee met on six occasions during 2022/23.

Committee members

- Mayor Hon Albert Jacob JP
- Cr John Logan
- Cr Nige Jones (Deputy Presiding Member)
- Cr Russ Fishwick JP
- Cr Tom McLean JP
- Cr Russell Poliwka
- Cr John Raftis (Presiding Member)
- Mr Richard Thomas (external independent member)

Deputy members

- Cr John Chester
- Cr Christine Hamilton-Prime JP
- Cr Adrian Hill
- Cr Daniel Kingston
- Cr Christopher May
- Cr Suzanne Thompson

Chief Executive Officer Recruitment and Performance Review Committee

The role of the Chief Executive Officer Recruitment and Performance Review Committee is to provide recommendations on matters relating to the selection and appointment process of the Chief Executive Officer. This committee reviews the Chief Executive Officer's performance, including key performance indicators, remuneration package and employment contract, and can make recommendations to Council in relation to varying the contract, as and when necessary.

The Chief Executive Officer Recruitment and Performance Review Committee met on seven occasions in 2022/23.

Committee members

- Mayor Hon Albert Jacob JP (Presiding Member)
- Cr John Chester
- Cr Christine Hamilton-Prime JP
- Cr Daniel Kingston
- Cr Christopher May JP (Deputy Presiding Member)
- Cr Tom McLean JP
- Cr Suzanne Thompson

Deputy members

- Cr Adrian Hill
- Cr Nige Jones
- Cr John Logan
- Cr Russ Fishwick JP
- Cr Russell Poliwka
- Cr John Raftis

Policy Committee

The role of the Policy Committee is to make recommendations to Council on the development and review of the City's policies and overall policy framework, local laws, and strategic planning matters. This committee also oversees the strategic direction of the City's art award events, visual art collection, and visual and performing arts programs.

The Policy Committee met on six occasions in 2022/23.

Committee members

- Mayor Hon Albert Jacob JP
- Cr John Chester
- Cr Adrian Hill
- Cr Daniel Kingston (Deputy Presiding Member)
- Cr Russell Poliwka
- Cr John Raftis
- Cr Suzanne Thompson (Presiding Member)

Deputy members

- Cr Russ Fishwick JP
- Cr Christine Hamilton-Prime JP
- Cr Nige Jones
- Cr John Logan
- Cr Christopher May JP
- Cr Tom McLean JP

Major Projects and Finance Committee

The role of the Major Projects and Finance Committee is to oversee the progress of the City's annual capital works program and review of the City's *5-Year Capital Works Program*. This committee can make recommendations to Council on modifications of capital works projects and major strategic capital projects, and the services to be provided by the City. It oversees the City's financial management activities, funding proposals and long-term strategic financial planning.

The Major Projects and Finance Committee met on five occasions in 2022/23.

Committee members

- Mayor Hon Albert Jacob JP
- Cr Russ Fishwick JP
- Cr Adrian Hill (Deputy Presiding Member)
- Cr Christine Hamilton-Prime JP
- Cr Nige Jones
- Cr John Logan (Presiding Member)
- Cr Christopher May

Deputy members

- Cr John Chester
- Cr Daniel Kingston
- Cr Tom McLean JP

	Tamala Park Regional Council (Deputy)	Oct 2019	Oct 2021

For more information about these external councils, committees and boards, including remuneration and attendance information, please review the specific annual reports for the individual organisations.

Reference groups

The City has three reference groups that help facilitate community participation in our decision-making process. These groups provide an opportunity for the City to capture the views of our community which assists Elected Members and Council to address strategic issues.

Sir James McCusker Park, Iluka

Joondalup Design Review Panel

The Joondalup Design Review Panel is a Council-appointed panel providing independent expert advice on architecture, urban design, landscape design and sustainability of planning proposals. The panel has an advisory function only, with the advice considered as part of the planning assessment process.

Meetings are held at the City's Civic Centre each month and are not open to the public (excluding proponents).

Panel members

- Ms Nerida Moredoundt (Chairperson)
- Ms Munira Mackay (Deputy Chairperson)
- Mr Graham Agar
- Ms Jane Bennett
- Mr Tony Blackwell
- Mr Robin Burnage
- Mr Jackson Liew
- Mr Kukame McPierzie
- Mr Aaron Sice
- Mr Simon Venturi

Strategic Community Reference Group

Strategic Community Reference Group

In June 2012, Council established the Strategic Community Reference Group as a new participation mechanism for the external provision of input to Council on matters of significant community interest and strategic initiatives. After each Local Government Ordinary Election, Council makes appointments of community member representatives to the reference group following a nomination process. Some issues the reference group has considered include the Environment Plan, Community Development Plan, and Community Safety and Crime Prevention Plan.

The Strategic Community Reference Group met on five occasions in 2022/23.

Reference group members

- Mayor Hon Albert Jacob JP (Presiding Member)
- Cr Christine Hamilton-Prime JP
- Cr Christopher May
- Cr John Raftis
- Ms Tara Belle Lie (Youth Representative)
- Ms Aimee Wright (Youth Representative)
- Ms Robyn Anderson (North Ward)
- Mr Allan Connolly (North Ward)
- Mr Kim Allen (North-Central Ward)
- Ms Gail Carmody (North-Central Ward)
- Mr Leonard Collier (Central Ward)
- Ms Gemma Dorman (Central Ward)
- Mr David Hudson MBE (South-West Ward)
- Ms Sandra Watson (South-West Ward)
- Ms Janine Blake (South-East Ward)
- Ms Alison Elsom (South-East Ward)
- Mr Ronald Gallagher (South Ward)
- The Reverend Lorna Green (South Ward)

Reconciliation Action Plan Community Reference Group

The role of the Reconciliation Action Plan Community Reference Group is to guide the development of the City's inaugural Reconciliation Action Plan, by reflecting on and providing a scope for how the City can contribute to reconciliation in a way that is meaningful, mutually beneficial and sustainable.

The Reconciliation Action Plan Community Reference Group met on two occasions in 2022/23.

Reference group members

- Ms Sharon Wood-Kenney (Chairperson) (Organisational Representative — Djinda Falcons)
- Mayor Hon Albert Jacob JP
- Cr John Raftis
- Cr Christine Hamilton-Prime JP
- Ms Pauline Boscato (Community Representative)
- Mr Adam Casley (Community Representative) (until November 2022)
- Mr Marcus Kaden (Community Representative)
- Ms Kathy Kickett (Community Representative)
- Ms Ann Marie Mullaney (Community Representative) (until November 2022)
- Mr Dennis Simmons (Organisational Representative — Maar Koodjal Aboriginal Corporation)

Further information
on development of the
Reconciliation Action Plan is
available on page 103.

Reporting to external oversight agencies

The City regularly reviews the fraud, corruption and misconduct risks it is exposed to, and develops and refines strategies and processes to address those risks. It is through internal audits, investigations and/or tip-offs that allegations of misconduct may be identified. When the Chief Executive Officer suspects, on reasonable grounds, that misconduct has occurred, the appropriate notification is made to the relevant external oversight agency on a timely basis, as required by the *Corruption, Crime and Misconduct Act 2003*.

At its meeting held on 8 March 2023, the Audit and Risk Committee were provided with details regarding serious misconduct of two employees. The matters related to corruptly using their position to obtain a benefit for themselves or another person, and improperly using information received in their capacity. The Corruption and Crime Commission closed one of the matters on 21 June 2022, and the other on 19 January 2023 due to the actions undertaken by the City.

Our organisation

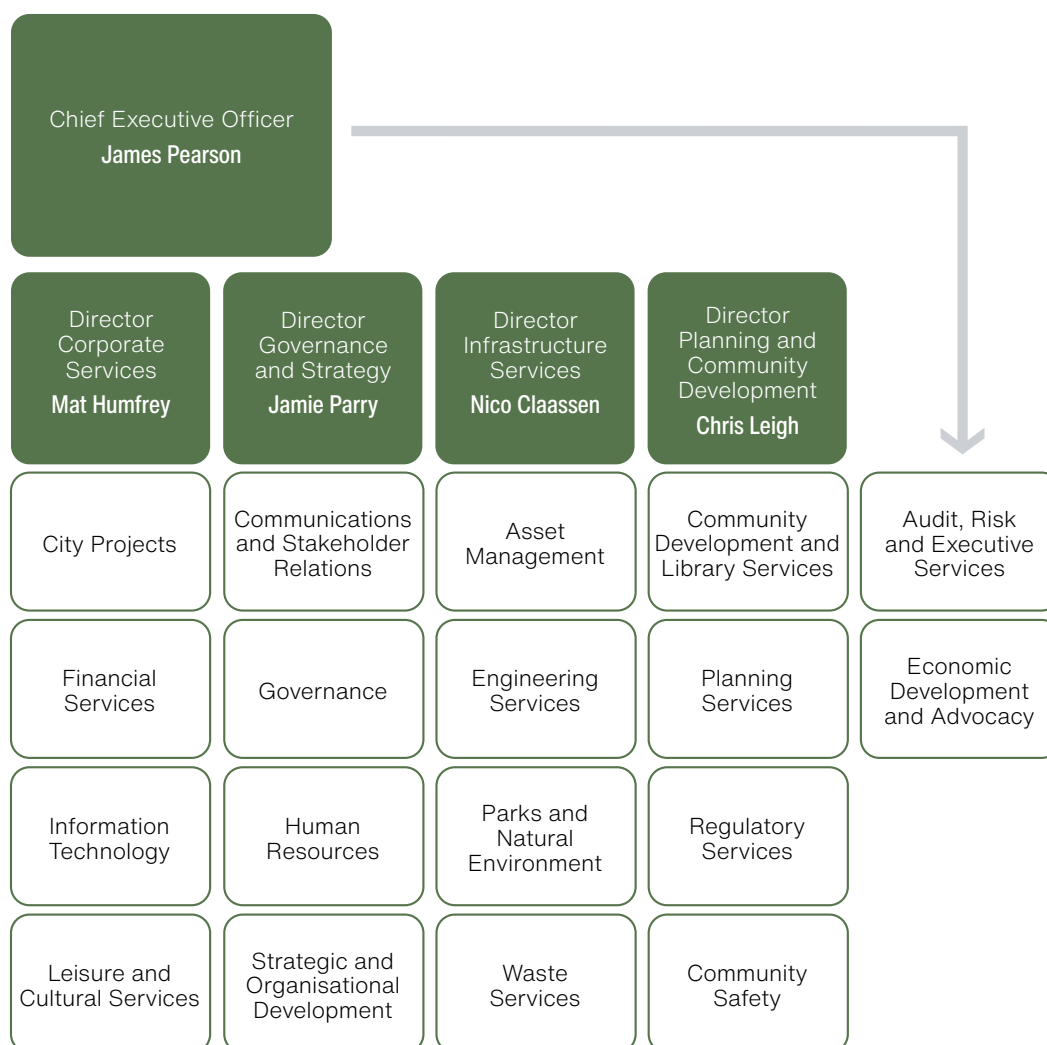

Organisational structure

GRI
102-20

GRI
102-7

The City's organisational structure is designed to facilitate the delivery of projects and programs within the five key themes of the City's 10-Year Strategic Community Plan, *Joondalup 2032*.

The structure is led by the Chief Executive Officer who is supported by an Executive Leadership Team made up of four Directors. Each Director oversees the operations of Business Units that are structured to meet the City's strategic and operational objectives, its legislative responsibilities, and to ensure services are delivered in the most efficient and effective manner. The four Directors report to the Chief Executive Officer, as do the Managers of two Business Units.

Executive Leadership Team

James Pearson
Chief Executive Officer

James Pearson has been the Chief Executive Officer at the City of Joondalup since March 2021. James has held senior roles in business and government, including:

- Leading Australia's largest national business policy and advocacy network as Chief Executive Officer of the Australian Chamber of Commerce and Industry.
- Leading public affairs for two of Australia's largest public companies in the resources industry.
- Supporting Australian commercial and political interests in Africa, the Pacific and China as an Australian trade negotiator and diplomat.

James has a Master of Business Administration from Deakin University and an Honours degree in Science from the University of Western Australia. He is an Adjunct Professor at Deakin University Business School and a Fellow of the Australian Institute of Management and the Australian Institute of Company Directors.

James' priorities as Chief Executive Officer are to attract investment and support local businesses, advocate and provide for the needs of the community, and work with the Mayor, Council and the community to realise Joondalup's vision to be a *global City: bold, creative and prosperous*.

Mat Humfrey
Director Corporate Services

Mat Humfrey is the Director Corporate Services. He commenced with the City of Joondalup in 2020 and has worked in local government for over 20 years. Mat has a Bachelor of Commerce, majoring in Business Law and Accounting.

Mat's career prior to the City of Joondalup included roles at the Town of Cottesloe, firstly as Executive Manager of Corporate Services and then Chief Executive Officer. Prior to this, Mat has worked in rural and metropolitan local governments, including the Shires of Dalwallinu and Chittering, and the City of Wanneroo.

Jamie Parry

Director Governance and Strategy

Jamie Parry is the Director Governance and Strategy. He commenced with the City of Joondalup in 2009 and has worked in local government for more than 35 years. He has undergraduate qualifications in Marketing and Public Sector Management, a Postgraduate Diploma in Management, a Master of Business Administration, and is a Graduate of the Australian Institute of Company Directors.

Jamie's career in local government has extended from regional to metropolitan positions, including with the Shire of Beverley, the Cities of Stirling and Perth, and his current role at the City of Joondalup. He currently serves as a Board Member of Local Government Professionals WA.

Nico Claassen

Director Infrastructure Services

Nico Claassen is the Director Infrastructure Services. He commenced with the City of Joondalup in 2012 and has worked in senior management roles in local government for over 25 years. He has a Bachelor of Engineering (Civil) obtained from the University of Pretoria. Nico is a registered member of Engineers Australia and a previous member of the Institute for Professional Engineers New Zealand.

Nico's career in local government commenced in South Africa in the early 1990s and continued as the Group Manager Infrastructure Services with the Rotorua Lakes District Council in New Zealand, before commencing with the City of Joondalup.

Chris Leigh

Director Planning and Community Development

Chris Leigh is the Director Planning and Community Development. He commenced with the City of Joondalup in November 2016. He has a Bachelor of Science, a Masters in Urban and Regional Planning, and is a Graduate of the Australian Institute of Company Directors. His experience includes senior roles in local government and the private sector, having worked on a range of urban infill, commercial, industrial, and heritage projects, as well as leading a number of significant land development projects.

Chris is an active member in the planning and development industry. He is currently a member of the Urban Development Institute of Australia's Community Education and Engagement Standing Advisory Group, and is the President of the Local Government Planners Association.

Governance Framework

The *Governance Framework 2021* provides guidance to Elected Members and the City's workforce on good governance practices and ensures that we can manage the many complex responsibilities effectively and in the best interests of our community. The practice of good governance ensures we meet both legal and ethical compliance, make decisions in the interests of all stakeholders, and behave as a good corporate citizen.

The *Governance Framework 2021* consists of four key principles required to achieve excellence in governance:

1. Culture and vision — a clear vision and a positive organisational culture and value system in place.
2. Roles and relationships — clarity and understanding of roles and responsibilities and effective working relationships.
3. Decision-making and management — effective decision-making processes that are transparent and accountable.
4. Accountability — all activities must be accounted for, and systems and processes must be in place that support accountability.

The *Governance Framework 2021* is available on the City's website at joondalup.wa.gov.au

GRI
102-16

GRI
102-17

GRI
102-25

Codes of conduct

The City has two codes of conduct:

- Code of Conduct for Elected Members, Committee Members and Candidates
- Code of Conduct for Employees.

The codes of conduct set out the standards of behaviour which must be observed when performing a person's respective duties and are intended to promote accountable and ethical decision-making. This enables professional relationships to be established and maintained in the interests of providing good governance, overall integrity and good government for the community.

Each code should be read in conjunction with the *Local Government Act 1995* and other legislation that affects Elected Members, committee members, candidates and employees when performing their roles and duties, as the code does not override or affect those provisions or requirements.

The codes of conduct are available on the City's website at joondalup.wa.gov.au

Compliance

Regulation 14 of the *Local Government (Audit) Regulations 1996* requires local governments to carry out a compliance audit for the period 1 January–31 December every year.

The City's Compliance Audit Return for 2022 is similar to previous years and focused on high-risk areas of compliance and statutory reporting as prescribed in Regulation 13 of the *Local Government (Audit) Regulations 1996*. The 2022 return revealed a high level of compliance with legislation by the City, with no areas of non-compliance being identified.

The 2022 return was adopted by Council at the 28 March 2023 Council Meeting and the certified copy of the return, and the relevant section of the Council resolution were submitted to the Department of Local Government, Sport and Cultural Industries by 31 March 2023.

Integrity and controls

GRI
102-56

The City expects its Elected Members, Committee Members and employees to act in compliance with the codes of conduct and behave ethically and honestly when performing their functions and during their interactions with each other, the community and all stakeholders of the City. A zero-tolerance attitude is taken to fraudulent or corrupt conduct; such conduct is thoroughly investigated with the appropriate reporting, disciplinary, prosecution and recovery actions initiated.

The objective of the City's *Fraud, Corruption and Misconduct Control Council Policy* is to communicate our zero-tolerance approach and response actions to fraudulent and corrupt conduct within the performance of our functions and interactions with contractors and suppliers, the community and all other stakeholders of the City.

To support this, the following service levels are in operation:

- Maintaining our whistleblowing program to ensure regular awareness is provided to employees, contractors, suppliers and the public.
- Provision of programs (including the use of data analytics) for fraud, misconduct and corruption detection and prevention.
- Reporting to external oversight agencies.

Each year the City completes the Public Sector Commission Integrity and Conduct Annual Collection which is used to identify areas for improvement. The continued focus to strengthen integrity and conduct controls shows our commitment to ethical behaviour. Where the standards of behaviour fall below what is expected, including misconduct, we take the appropriate action, which may include notifications to the Corruption and Crime Commission or Public Sector Commission.

The City submitted the Annual Collection Survey to the Public Sector Commission on 26 July 2022.

External audits

An audit by the Office of the Auditor General assessed if the Department of Health and three local government entities effectively regulate air-handling and water systems to minimise the risk of *Legionella* bacteria. To consider how well this public health risk is managed, a sample of State Government entities, who operate these systems was included.

The Office of the Auditor General submitted its findings to Parliament on 21 April 2023 (Report 20: 2022/23 — *Regulation of Air-handling and Water Systems*). The City was one of three local government entities selected as it is an enforcement agency under the *Health (Air-handling and Water Systems) Regulations 1994*. The City also has buildings with air-handling and water systems within its boundaries and owns cooling towers.

Information security

At its meeting held on 8 August 2022, the Audit and Risk Committee received a confidential report on the controls in place to manage and mitigate cyber-security risks at the City. The report outlined the policy, procedural, and technological protections in place, grouped using the categorisation of the National Institute of Standards and Technology, US Department of Commerce Cybersecurity Framework. It also described the elements of the Australian Signals Directorate's Essential Eight, which is becoming the standard baseline for cyber-security in Australian public entities.

Administration building

Risk

GRI
102-30

The City is committed to ensuring that effective risk management remains central to all of our operations while delivering a wide and diverse range of services to our community, including residents, ratepayers, businesses and visitors. The management of risk is the responsibility of everyone and should be an integral part of organisational culture which is reflected in the various policies, protocols, systems and processes used to ensure efficient and effective service delivery.

The City's *Risk Management Council Policy* and framework reflects good practice and sound corporate governance and is consistent with AS ISO 31000:2018 Risk Management — Guidelines.

Contracts and procurement

All purchasing is conducted in compliance with the requirements of the *Local Government Act 1995*, the *Local Government (Functions and General) Regulations 1996*, and in accordance with the City's *Purchasing Council Policy*, internal protocols and codes of conduct.

Ethical treatment of suppliers, best practice and value for money underpin the procurement process, and the assessment of quotations and tenders. The principle of value for money considers:

- financial viability
- fitness for purpose
- past performance of suppliers and safety standards
- quality of the product/service
- sustainable practices within the supply chain.

Quotations are required for all purchases with a value ranging from \$5,001 to \$250,000. The purchase of goods or services valued at more than \$250,000 requires a public tender.

E-procurement portal

The City's e-procurement portal is an online system for advertising tenders and expressions of interest, and managing the procurement process through to contract award state. The portal is a free service for registered suppliers who can view any associated documentation, participate in question-and-answer forums and, where required, submit electronic bid responses through the secure, e-tender box facility.

Tenders

GRI
102-9

The City awarded 21 tenders in 2022/23. The following significant tenders included:

- Invitation for joint panel of pre-qualified suppliers for the supply, delivery and installation of turf — \$2,074,171
- Provision of cleaning and washroom hygiene services for the City's community facilities, libraries and child health centres — \$2,389,915
- Provision of electrical services and new electrical installations to the value of \$50,000 excluding street lighting — \$3,586,802
- Provision of irrigation pump and bore maintenance services — \$2,257,353
- Provision of repairs, routine and preventative maintenance, replacement of existing equipment, and new mechanical installations to the value of \$10,000 — \$1,451,935
- Provision of traffic management and control services — \$2,075,775
- Supply and delivery of precast stormwater drainage products (Panel) — \$1,247,331
- Supply and laying of concrete kerbing — \$2,264,599.

The estimated value of contracts awarded was \$29,498,400.

National competition policy

At the City, we adhere to the *National Competition Policy* that aims to promote effective competition in situations where it will enhance the welfare of our community. Local governments administer legislation and deliver services which have a significant impact on state economies, businesses and consumers. Local governments are also providers of monopoly services, such as water, sewerage and waste collection. Local government is affected mainly where it operates significant business activities which compete, or could compete with, private sector businesses. Local governments will also be affected where local laws unnecessarily affect competition.

Competitive neutrality

GRI
206-1

At the City, we adhere to competitive neutrality principles whenever we conduct commercial activity. One of these principles is ensuring that government-controlled businesses do not enjoy competitive advantages simply because they are publicly owned and backed by public money. Local governments are only required to implement the above principles to the extent that the benefits to be realised from implementation outweigh the costs in respect of individual business activities exceeding an annual income of \$500,000. The business of Craigie Leisure Centre met these criteria. The public benefit tests for these activities revealed that competitive advantages and disadvantages existed in the leisure centre, and it was beneficial to the local community to continue the operational subsidies to support the services into the future.

Banksia ilicifolia

Records management

The City's *Records Management Council Policy* outlines the process for the management and disposal of records in accordance with the *State Records Act 2000* and other legislation. We are committed to recordkeeping that ensures and facilitates a structured approach to recordkeeping using corporate systems. General recordkeeping applies to all Elected Members, staff, and contractors. Retaining corporate documents in an electronic records management system delivers best practice in recordkeeping and provides an efficient document processing service to meet customer needs and volume demands.

The number of records captured in the City's corporate recordkeeping system in 2022/23 was 366,742. This included incoming and outgoing letters, emails, faxes, online forms and internal documentation. Training in recordkeeping practices and the use of the City's document and records management systems is provided to all new staff upon commencement. Ongoing training for all staff is made available throughout the year.

Number of records captured in the City's corporate recordkeeping system, 5-year trend:

Freedom of information

Under the *Freedom of Information Act 1992* the City is required to provide a general right of access to documents and records we hold (note that some documents cannot be accessed and are exempt). Documents and records that can be accessed can be either personal or non-personal. We publish an information statement that details the structure and function of the City, ways in which the public can participate in our decision-making processes, and how the public can gain access to documents. In 2022/23, the City completed a total of 79 Freedom of Information applications, with an average completion time of 28 days. A total of 76 applications were completed within the legislative timeframe of 45 days.

Local government reform

The State Government is reforming the *Local Government Act 1995*. The proposed reforms are aimed at ensuring local governments better serve residents and ratepayers and are based on six themes:

- earlier intervention, effective regulation and stronger penalties
- reducing red tape, increasing consistency and simplicity
- greater transparency and accountability
- stronger local democracy and community engagement
- clearer roles and responsibilities
- improved financial management and reporting.

To ensure that key election related reforms were in place before the 2023 Local Government Elections, the amendments to the *Local Government Act 1995* were divided into two tranches. The first tranche, which was passed by Parliament on 11 May 2023, focused on electoral reform, to strengthen local democracy and provide greater transparency and accountability.

The second tranche will focus on the establishment of the new Local Government Inspector and the introduction of local government monitors for early intervention.

Gift disclosures

The *Local Government Act 1995* requires Elected Members to disclose any gifts over \$300 in writing to the Chief Executive Officer within 10 days of receipt. This includes any gifts received whilst in their official capacity, including contributions to travel. The Chief Executive Officer is required to publish an up-to-date version of the *Gift Register for Elected Members and Chief Executive Officer* on the City's website within 10 days after a disclosure is made.

The City maintains an *Electoral Gifts Register* that contains certain information on electoral gift declarations made by candidates and donors during local government elections. Following each election, any declarations made by unsuccessful candidates are removed from the register. Any declarations made by candidates that are successful in being elected to office, are maintained in the register for the term relating to that election.

The City's current *Gift Register for Employees* contains disclosures made since 1 January 2021 of any gift valued between \$50 and \$299. In 2022/23, 15 disclosures were registered by City employees.

Delegated authority

The *Local Government Act 1995* allows for both Council and the Chief Executive Officer to delegate authority to perform functions and duties on their behalf. Delegations form part of the City's decision-making and the use of delegated authority means that the large volume of the routine work of Council can be effectively managed and acted on promptly, which facilitates efficient service delivery to the community. Delegated authority allows Council to concentrate on policy development, representation, strategic planning, and community leadership.

The aim of the register is to assist with improving the time taken to make decisions within the constraints allowed by the relevant legislation. This is consistent with the City's commitment to a strong customer service focus.

A requirement of the *Local Government Act 1995* is for the City to undertake an annual review of the *Register of Delegation of Authority* to ensure the listed delegations continue to be appropriate. A report on the review was presented to the Council on 27 June 2023.

The *Register of Delegation of Authority* is available on the City's website at joondalup.wa.gov.au

Certificate of Service presentation

The gift registers are available on the City's website at joondalup.wa.gov.au

Quality frameworks

GRI
102-56

The *Australian Business Excellence Framework* is a nationally recognised leadership and management system that describes the elements that are essential to organisations sustaining high levels of performance. The framework is used to assess and improve organisational performance. Since 2005, the City has aligned its performance management systems and practices with the *Australian Business Excellence Framework* as a practical means of embedding continuous improvement across the organisation, and delivering enhanced services. The City is committed to delivering best practice, high quality and efficient services to all stakeholders. The *Australian Business Excellence Framework* provides the City with a policy framework that aligns the City's leadership to management systems with the framework and establishes the principles and practices for excellence in governance.

The City also uses *ISO 9001:2015* in the Infrastructure Services directorate to provide a framework for its quality management system. The *ISO 9001:2015* standard is an internationally benchmarked quality management system used by organisations of all sizes and industries. The standard provides a framework for improving quality across products and services in a consistent and reliable manner. Certification to ISO 9001 demonstrates ongoing commitment to customers, validated by an independent third party. Some of the key benefits to organisations that certify to the *ISO 9001:2015* standard include a demonstrated focus on the customer, a commitment to service, high quality product, and a cycle of continuous improvement.

Continuous improvement

Since July 2013, the City has undertaken detailed activity reviews with the aim of reducing costs through the implementation of more efficient and effective work practices across the organisation, such as the Benefits Management Program. The City is committed to:

- identifying opportunities for longer-term financial sustainability
- identifying alternative modes of service delivery
- ensuring value for money and operational efficiency
- improving the use of available resources
- undertaking service activity improvements and service level adjustments.

The City submitted data to the annual Local Government Performance Excellence Program that tracks and benchmarks the performance of local governments in relation to workforce, finance, operations and service delivery. We reviewed the benchmarking data made available by Local Government Professionals Australia for analysis, as well as the insights to inform continuous improvement. A report of the analysis was presented to Elected Members in June 2023.

Workforce

As one of the largest local governments in Western Australia, the City aims to be recognised as a high performing organisation and acknowledged as a great place to work. It offers excellent conditions that support work-life flexibility and encourages a culture of learning and development, while meeting corporate objectives.

Workforce planning

The City's *Workforce Plan* is one of the resourcing components of our Integrated Planning and Reporting Framework. Its purpose is to determine the workforce requirements necessary to achieve the strategic objectives of *Joondalup 2032* and deliver the services, projects and activities in the City's 5-Year Corporate Business Plan.

The effective delivery of the City's services, projects and activities depends on a workforce which is skilled, knowledgeable, responsive and appropriately resourced. Planning for future workforce requirements allows the City to be responsive to emerging challenges and changes in the labour market before they impact on services and operations.

Recruitment

GRI
102-8

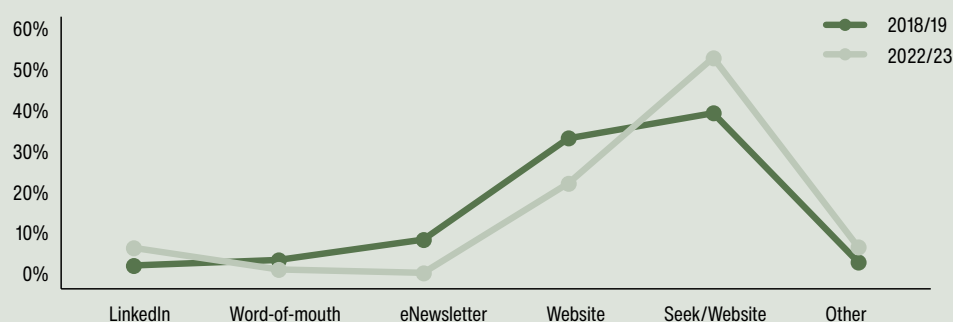

Recruiting new employees represents a significant investment of time and effort. The City uses contemporary recruitment and selection practices aimed at attracting and selecting the right workforce to meet the individual positions and overall organisational needs. Robust and well-planned recruitment processes mean the City is also more likely to select people who are appropriate for the role and organisation and able to succeed. This in turn helps retention rates.

The City's processes include the following:

- Job analysis of vacancies prior to advertising to ensure roles being recruited remain valid and necessary.
- Targeted and themed job adverts designed to attract and align applicants with vacant roles.
- Behavioural-based interviewing techniques.
- Practical assessments, where appropriate.
- Rigorous referee and qualification checks.

In 2022/23, the City received a total of 3,982 job applications; this is a decrease of 390 from the previous year. Over the past five years, the sources of recruitment have varied. The chart below shows the proportion of job applications received by recruitment source for 2022/23 compared to 2018/19.

Number of job applications received by recruitment source, 2018/19 compared to 2022/23:

Conditions of employment

The City's enterprise agreements include a range of terms and conditions of employment designed to provide a fair, equitable and flexible workplace, including:

- Allowances
- Consultation, representation and dispute resolution procedures
- Flexible working arrangements
- Hours of work, rosters, rest breaks and meal breaks
- Overtime
- Penalty rates
- Various leave provisions

As of 1 January 2023, all Western Australian local governments are covered by the State industrial relations system. The City of Joondalup previously operated under the National *Fair Work Act 2009*.

The City commenced work on the revision of the enterprise agreement for our inside workforce, with actions to date including:

- a review of other large Western Australian local government agreements
- comparisons of awards
- preliminary consultation with the City's Executive Leadership Team and managers
- prioritising the move to the State industrial relations system.

Diversity and inclusion

The City is committed to promoting fair treatment in recruitment, training and development, and conditions of employment. With a focus on authentic and actionable change within our overall workforce strategy, the City's *Diversity and Inclusion Plan 2021–2024* has been developed and implemented with three key focus areas:

- Employment pathways — improving representation in our workforce of people from diverse groups and reducing structural, procedural, and cultural barriers to employment.
- Education and training — promoting inclusive culture by acknowledging and embracing differences, along with informing on best practices and resources, both internal and external.
- Celebrating a diverse and inclusive culture — championing our diverse workforce and highlighting initiatives and events that promote inclusivity.

Veterans and Ex-Defence Employment Initiative

The City is working with the Veterans Issues Office of Defence West, Working Spirit, Returned and Services League of Australia (RSLWA) and other key stakeholders on a Veterans and Ex-Defence Employment Initiative. The initiative helps former service personnel transitioning to life outside the military find gainful employment at the City. The program is part of our *Diversity and Inclusion Plan 2021–2024* and includes a formal pathway into our recruitment process for former servicemen and women with transferable skill sets. City staff volunteer to support our ex-military and emergency service employees on an ongoing basis.

This is a first of its kind program in the sector and the program will be rolled out in two phases. Phase one commenced with the City notifying RSLWA and Working Spirit, a Joondalup-based non-profit organisation that has placed over 100 veterans into employment over the last 12 months, about existing City of Joondalup job vacancies. The second phase will focus on identifying ongoing roles to be promoted via the initiative, explore funding opportunities and review recruitment processes. There are about 65,000 veterans in WA with approximately 420 service personnel transitioning to civilian life each year.

Joondalup War Memorial

Employee performance

At the City, we conduct employee performance appraisals on an annual basis, as required by the *Local Government Act 1995*. The process includes:

- aligning employee work goals with organisational objectives
- establishing performance expectations and targets for employees
- identifying learning and development needs of employees.

Central to our approach is the *Individual Development Achievement Plan*, which is developed between the supervisor and employee. It involves a two-way communication process on both setting employee performance targets and the employee's personal and professional development needs and aspirations.

Learning and development

The City's corporate training program provides our employees with access to development opportunities that meet the needs of the individual and build greater capability within the organisation. Development opportunities for eligible employees include:

- Formal arrangement between the City and the Australian Institute of Management for employees to access the institute's suite of training courses at a reduced cost.
- Study assistance program which provides eligible employees with access to tertiary education.
- Employee mentoring program in conjunction with Edith Cowan University, North Metropolitan TAFE and the WA Police Academy.
- Workshops and conferences to upskill, extend knowledge and keep up-to-date of changes in their related field.
- Secondment opportunities to gain experience in alternative roles and organisations.

As part of our commitment to providing learning and development, the following workshops were provided to staff:

- Cultural awareness training as part of National Reconciliation Week from 27 May to 3 June 2023, in line with the theme *Be a Voice for Generations*.
- Disability awareness training to improve and sustain staff awareness of access and inclusion issues and improve skills to provide a good service to people with disability.

Staff conference

At the City, we deliver an annual staff conference, an important event providing an opportunity for our staff to engage, learn and develop. The conference was not held in 2021 or 2022 due to COVID-19.

A review of the conference was conducted in 2021/22 to consider the value to employees and the organisation; this included a review of the format, timing, program and costs. Staff thought the conference a worthwhile event that encourages networking across different teams, provides an opportunity for staff to feel valued, and assists in forming a great culture. Employee feedback informed the planning and delivery of the 2023 conference.

The theme of the 2023 conference was *Looking Back, Looking Forward*. It reflected upon the remarkable journey the City has undertaken since its creation, and focussed on where we are heading as an organisation. The conference was held on 25 and 26 May 2023 at the Joondalup Reception Centre with 550 attendees over both days. The program was developed and coordinated by the Staff Conference Organising Team, comprising employees from across the organisation.

Employee awards and recognition

The City's Employee Excellence Awards Program recognises best practice in customer service excellence and is designed to encourage employees to go above and beyond in the delivery of customer service. This program recognises and celebrates employees for creating innovative ideas and solutions, while identifying opportunities for continuous improvement. In doing so, the program helps maintain a productive, innovative and happy workforce. The Employee Excellence Awards presentations are hosted by the Chief Executive Officer, accompanied by the Executive Leadership Team, and recognised employees for their outstanding efforts in Customer Service Excellence and Innovation and Continual Improvement.

GRI
405.2

Payments to employees

Regulation 19B of the *Local Government (Administration) Regulations 1996* requires the City to include the following information in its Annual Report:

- Number of employees of the City entitled to an annual salary of \$130,000 or more
- Number of those employees with an annual salary entitlement that falls within each band of the \$10,000 over \$130,000.

To eliminate issues associated with the treatment of benefits other than cash salary, we adopt a total employee cost approach to reporting remuneration. This involves combining all remuneration into one total. This is considered a far more transparent and open approach to payment, which exceeds the requirement of the Regulations.

The following table is based on the amount each employee actually received over the period of this Annual Report, whether employed for a full year or not, and includes the following:

- Allowances for motor vehicle
- Annual cash component
- Cash-out of leave (either on request or termination)
- Higher duties (where applicable)
- Novated lease refunds (at conclusion of lease)
- Overtime payments
- Salary sacrifice
- Statutory 9.5% superannuation, plus City matching contributions to additional superannuation (where applicable)
- Termination payments.

Remuneration paid to the Chief Executive Officer

The total remuneration paid to the Chief Executive Officer, inclusive of superannuation, is \$381,107.

Work health and safety

At the City, we take a proactive and committed approach to risk minimisation and to achieve our work health and safety objectives by continuing to improve our safety culture and safety management system.

Safety Management Plan

Our *Strategic Safety and Health Management Plan 2021–2024* provides direction to the organisation through focussing on five key areas:

- Health and wellbeing culture
- Managing risk
- Safety culture
- Safety leadership
- Safety management system

Strategies and actions within each focus area ensure a structured approach to the safety and health of our employees.

Strategic Safety Alliance

The City is a member of a formal Strategic Safety Alliance, a partnership formed between Local Government Insurance Services and three other local governments. The collective benefit of this partnership is the ability to employ a Strategic Safety Consultant to improve safety performance. The combined strength, resources and knowledge of these organisations has enhanced the ability to develop and implement safety initiatives that address issues and influence industry. The positive effect of this alliance for the City and our employees can be demonstrated through the continued low number of worker compensation claims. This places us in the lowest insurance bracket.

GRI
102-8

Work health and safety incidents

At the City, we record all work health and safety incidents in a dedicated safety management system to ensure effective recording, investigation, tracking, resolution, and reporting. We record when a work health and safety incident is linked to a hazard as part of the safety continuous improvement program. This ensures that hazards are minimised, and demonstrates the strong safety culture within our workforce. There were 138 work health and safety incidents in 2022/23. Of these, 22 were linked to a hazard.

City workforce

Number of work health and safety incidents,
5-year trend:

BMX, Skate and Scooter Competition

Lost time injury frequency rate is the number of occurrences of lost time due to injury for each one million hours worked. To calculate each frequency rate for a period (over 12 months), this formula is used — $\text{Lost time injuries in the period} \div \text{Hours worked in the period} \times 1,000,000$. The lower the rate, the better the performance of the organisation as it represents fewer injuries in the reporting period.

Lost time injury frequency rate, 5-year trend:

Health and wellbeing programs

At the City, we offer ongoing programs which contribute to the health and wellbeing of employees:

- Employee Assistance Program
- Flu vaccinations
- Health assessments
- Skin cancer screening
- Wellbeing education and assistance programs
- Workmate Support Program, including an initiative to assist employees experiencing family and domestic violence.

We are also part of a program that provides valuable, data-driven insights on how to support participation of the ageing workforce. The program is run by Curtin University and the ARC Centre of Excellence of Population Ageing and Research, an organisation which specialise in population ageing research. The centre is partnering with five local governments in Western Australia; the aim is to ensure high levels of performance, as well as the health and wellbeing of the mature age workforce across their careers.

Consultants

The City engages consultants to assist in delivering services that require specific specialist skills. Consultants are appointed in accordance with our procurement and approval processes, and in line with approved budgets. Examples of consultancy services appointed in 2022/23 include:

- Conduct and provide input into a Business Perceptions Survey.
- Deliver activities and events as part of the waste education program.
- Develop a new Economic Development Strategy.
- Develop a new Joondalup Community and Libraries Strategy.
- Develop a new Public Art Masterplan and Strategy.
- Develop the City's new website.
- Draft a site management plan for contamination at Edgewater Quarry.

- Implement the first stage of the Place Activation Plan with the creation of a Town Team.
- Prepare reports on ecological surveys at Mullaloo Foreshore Reserve (Mullaloo) and Lilburne Park (Duncraig).
- Prepare a community-facing draft Coastal Hazard Risk Management and Adaptation Plan.
- Provide a technical working document and a consolidated public document for the Integrated Transport Strategy.
- Report on the City's environmental performance.
- Undertake community consultation on phase one of the Local Planning Strategy.
- Undertake concept design work and costings for facility categories to inform the business case for the establishment of a BMX/mountain bike hub and interconnected urban bike trails through Padbury, Mullaloo and Craigie.
- Undertake visual condition inspection and revaluation of the City's marine and estuarine infrastructure, which includes coastal protection assets.

Volunteers

Volunteers support the City to deliver a range of programs, including the Community Transport Program and the Joondalup Volunteer Resource Centre. Volunteers assist with library programs, including Books on Wheels, Genie Exchange, transcription of oral history interviews, library shelving and Keystrokes (one-on-one sessions where volunteers assist people with using their devices to navigate the internet or use apps). At the City, we acknowledge and show our appreciation of the dedicated volunteers that serve our community through a series of appreciation functions hosted at our Civic Centre.

To celebrate National Volunteer Week, 17–23 May 2023, the City launched a video exhibition "Bringing People Together: A Volunteer's Story" to recognise local volunteers and celebrate their efforts and contributions to the community. Six videos showed how volunteering connects people in different ways which aimed to inspire local community members to consider volunteering for a cause that is important to them.

The City also delivered the Step into Volunteering Session in June 2023, providing the opportunity for the community to hear firsthand from volunteers on how to enter into volunteering and what opportunities are available.

Joondalup Volunteer Resource Centre

The Joondalup Volunteer Resource Centre assists community members to find a volunteer role within volunteer-involving organisations that are best suited to their skills and interests. The centre is located within Whitford Library and provides a centralised service within Joondalup.

In 2022/23, Joondalup Volunteer Resource Centre referral officers conducted 213 engagements, responded to 182 enquires from local volunteer-involving organisations and contributed 651 hours to connect local volunteers with local community organisations.

Our performance

Our performance

This section provides detailed information on the City's achievements and performance for 2022/23 presented under the five key themes of our 10-year Strategic Community Plan, *Joondalup 2032*: Community, Environment, Place, Economy and Leadership.

This section includes the **key priorities** and **key capital works projects** identified by Council in our 5-Year Corporate Business Plan. All key themes have at least two key priorities; however, key capital works projects are only identified for relevant key themes (Community, Environment and Place).

Key themes:

Community	Environment	Place	Economy	Leadership
<p>1. Community</p> <p>Our goal:</p> <p>We have a vibrant cultural scene, and our community is friendly, welcoming, caring and supportive. We are prepared for emergencies and feel strong and resilient. We encourage and support local organisations and community-led activities, and feel connected and safe in our neighbourhoods.</p>	<p>2. Environment</p> <p>Our goal:</p> <p>We have a beautiful natural environment which we care for and protect. We demonstrate best practice in sustainability and environmental management. Our community is actively involved in conservation and sustainability initiatives, and we share responsibility for preserving our natural assets for future generations.</p>	<p>3. Place</p> <p>Our goal:</p> <p>We have well-planned and attractive suburbs and streetscapes, supported by a range of integrated transport options. Our urban landscapes are connected, useable and accessible. A high standard of liveability is enjoyed by our community who can access quality facilities and public open spaces.</p>	<p>4. Economy</p> <p>Our goal:</p> <p>We are a global facing City with a prosperous and resilient economy. Our City is home to diverse industries that generate a wide range of local job opportunities. We encourage creativity and innovation, and we support opportunities to build the City's brand as a popular business and tourism destination.</p>	<p>5. Leadership</p> <p>Our goal:</p> <p>We have a diverse elected body that represents, promotes and reflects the composition of our community. Our Council and workforce are accountable and transparent and make balanced decisions based on sound, professional advice. Quality services are delivered by our highly skilled and effective workforce.</p>

Our goal:

We have a vibrant cultural scene, and our community is friendly, welcoming, caring and supportive. We are prepared for emergencies and feel strong and resilient. We encourage and support local organisations and community-led activities, and feel connected and safe in our neighbourhoods.

Joondalup Festival

The Joondalup Festival was held over three weeks between March and April 2023. The festival presented a program of world-class shows and experiences, spanning live music, dance, circus, acrobatics, comedy, theatre, cabaret, improv, storytelling, craft, fine art, large-scale contemporary art, and community-created installation art. More than 250,000 people gathered at Hillarys Boat Harbour to see Boola Djarat Wardan ("many lights across the sea"). The immersive light and water show harnessed digital laser technology to transform the harbour into a kaleidoscope of colour, with a powerful soundscape that honoured and celebrated local Noongar knowledge. Hillarys was also the site of a large Spigeltent, erected to host a line-up of comedy, dance, theatre and circus performances. Other festival events included a community fun day on the banks of Lake Joondalup, an acrobatics display at Mullaloo Beach, a live Grease experience at Perth's only drive-in cinema, and an underwater dining experience at the Aquarium of Western Australia (AQWA).

NAIDOC Week

NAIDOC Week was held nationally from 3 to 10 July 2022 under the theme: *Get Up! Stand Up! Show Up!* We delivered a series of events that recognised the history, culture and achievements of Aboriginal and Torres Strait Islander peoples. This included a program of popular events throughout the month of July which attracted over 1,000 attendees.

Joondalup Festival

Key theme 1: **Community**

Key priorities

Public Art Masterplan and Strategy

The new Public Art Masterplan and Strategy will define the principles and priorities for public art in the City. It will guide resources and funding towards public art projects that enhance the City's built environment, distinctive natural assets, significant Indigenous sites, historic locations and key destinations.

Progress 2022/23

As part of the development of a new masterplan and strategy, Elected Members reviewed the Art Developer's Contribution Scheme in September 2022. After delays with appointing an external consultant, one was appointed in May 2023 and development of the masterplan and strategy commenced. Community consultation will be initiated in 2023/24 with a meeting of the Strategic Community Reference Group.

limestone plinth
Neil Hawkins Park, Joondalup

Reconciliation Action Plan

The new Reconciliation Action Plan will set out our commitment to reconciliation with Aboriginal and Torres Strait Islander peoples. The plan will guide the City to realise our vision for reconciliation, through creating practical actions built on relationships, respect and opportunities.

Progress 2022/23

The development of the draft Reconciliation Action Plan progressed under the guidance of the Reconciliation Action Plan Community Reference Group. Formal meetings of the reference group were held in November 2022 and February 2023 to consider, prepare and review the draft plan; this was presented to Elected Members for feedback in June 2023. The development of the draft plan is slightly behind schedule. A final Reconciliation Action Plan is expected to be approved by Council and Reconciliation Australia in 2023/24.

Joondalup Festival

Key capital works projects

Craigie Leisure Centre upgrades phase 1

Phase 1 of the Craigie Leisure upgrades included refurbishment works to establish a new 1,200 square metre gym, group fitness studio, cycling studio, crèche, staff room and additional car parking increasing from 400 bays to over 550 bays.

Progress 2022/23

Commencing in 2021, the construction works at Craigie Leisure Centre continued in 2022/23 and the upgrades were completed in May 2023. We also undertook an access and inclusion assessment of the refurbished centre which found the facility met accessibility standards. The new and improved Craigie Leisure Centre re-opened to the public in May 2023, and was met with positive media attention.

Opening of Craigie Leisure Centre

Sorrento Surf Life Saving Club redevelopment

The redevelopment of the existing Sorrento Surf Life Saving Club facility includes a commercial component and will aim to support and enhance usage. The existing facility is currently leased by the Sorrento Surf Life Saving Club, which is one of the largest clubs in the City with over 2,200 members.

Progress 2022/23

Concept planning for the redevelopment commenced in August 2022. It included a series of investigative studies, concept design options, cost estimates, a club project review report, a business case, and an outline of Council and external funding commitments. The next stage of the project will follow Elected Member discussion over the preferred option for the next stage of the project. Council requested a new concept plan be developed in line with a number of new design parameters.

Our goal:

We have a beautiful natural environment which we care for and protect. We demonstrate best practice in sustainability and environmental management. Our community is actively involved in conservation and sustainability initiatives, and we share responsibility for preserving our natural assets for future generations.

Weed Management Plan

The *Weed Management Plan 2023–2033* was endorsed by Council in March 2023 and provides an integrated approach to the management of weeds within the City. The plan details actions to prevent, monitor, prioritise and control the introduction and spread of weeds. As part of the implementation of the plan, we commenced steam and hot water weed control within nominated locations in July 2022 to reduce the reliance on herbicide use.

Waterwise Verge Rebate Program

The City is committed to creating greener, cooler and more sustainable neighbourhoods through the Waterwise Verge Rebate Program. The inaugural program resulted in 101 residents receiving rebates, such as a \$250 nursery voucher and 20 native plants, to replace their grass, synthetic lawn, and hardstand materials. The program commenced in October 2022 and was part of our Environmental Education Program. It was co-funded by the Water Corporation's Waterwise Greening Scheme and forms part of our ambition to be a leading waterwise community. We supported participants throughout the program with two interactive Waterwise Verge Garden workshops, and a range of promotional and informational materials. The program was highly successful and innovative, and achieved great environmental outcomes with the creation of new waterwise and biodiverse verge gardens.

Whitfords Nodes Beach Park

Key theme 2: **Environment**

Key priorities

Climate Change Strategy

The *Climate Change Strategy 2014–2019* guides the City's planning for the future impacts of climate change across a range of areas relevant to local government, including infrastructure, health services, water management, emergency management, and the natural environment. We are developing a new Climate Change Plan to replace this strategy.

Progress 2022/23

The development of a draft Climate Change Plan 2023–2033 progressed but was not finalised as scheduled due to staff shortages. It is anticipated that it will be finalised and presented to Council for endorsement in 2023/24.

Environment Plan

The City's *Environment Plan 2014–2019* outlines our commitment to conserving, enhancing and rehabilitating the City's natural assets to ensure the long-term protection of the environment for future generations. We are developing a new Environment Strategy to replace this plan. The new strategy will form an overarching framework to guide our approach to environmental planning.

Progress 2022/23

The development of the draft Environment Strategy progressed but was not finalised as scheduled due to staff shortages. To inform the development of the draft, the Strategic Community Reference Group met in November 2022 to consider the City's strategic approach to environmental management. It is anticipated the draft strategy will be finalised and presented to Council for endorsement in 2023/24.

Plant and Garden Workshop

Noongar seasons, Craigie Bushland

City workforce

Key capital works projects

Hillarys cycle network expansion

The Hillarys cycle network expansion is a joint project with the State Government and the Department of Transport, delivered by the City of Joondalup. The project involves upgrading the existing coastal shared pathway between Hillarys Boat Harbour and Burns Beach Foreshore. Due to a significant increase in popularity and number of users, there have been increasing reports of conflicts between pedestrians and cyclists. To improve the safety for users, the coastal shared pathway is to be widened from 3 metres to a nominally 4 metres wide red asphalt pathway.

This project also includes the installation of a new red asphalt shared pathway along Hepburn Avenue from Whitfords Avenue to Gibson Avenue. This will create a continuous shared pathway connection along Hepburn Avenue from Wanneroo Road to Hillarys Boat Harbour. The Hillarys cycle network expansion is a multi-suburb, multi-year project funded by the State Government as part of a 2021 State Election commitment.

Progress 2022/23

In May 2023, the City finalised the detailed design for the Hepburn Avenue shared pathway upgrade. The detailed design of the southern stage of the coastal shared pathway upgrade was also completed in June 2023, and planning for this aspect of the Hillarys cycle network expansion is ongoing. The project is currently on schedule, but we expect minor delays as timeframes for clearing permit applications are longer than originally anticipated.

Coastal shared pathway

Community waste education

City workforce - Clean Up Australia Day

Our goal:

We have well planned and attractive suburbs and streetscapes, supported by a range of integrated transport options. Our urban landscapes are connected, useable and accessible. A high standard of liveability is enjoyed by our community who can access quality facilities and public open spaces.

Ocean Reef Marina

Ocean Reef Marina will be a world-class waterfront precinct, providing recreational, tourism, residential and boating facilities. The project is managed by DevelopmentWA with support and contributions provided by the City. The development is a transformational project that will create an iconic coastal destination in the City.

Construction works at the marina have advanced since the approval of the stage one subdivision in September 2022. Both breakwaters have been built to their full length of 1.8 kilometres, with the northern breakwater now at its final height of about 18.5 metres from the ocean floor. The breakwaters protect the marina, allowing for the next stage of works to commence, including dredging to create adequate water depths for vessel navigation and storage, and landside clearing to provide fill for land reclamation and enable the commencement of future earth works.

In November 2022, the State Government announced further funding of \$96.5 M towards the development of the marina, bringing the total project expenditure to \$223 M. Part of this funding is for the construction of an ocean pool and associated commercial facilities. Once designed and construction commences, DevelopmentWA, the Marina Manager and the City will negotiate an agreement which gives effect to the management and responsibilities of the ocean pool.

After 18 months of negotiations between the City and DevelopmentWA, Council approved the execution of the Ocean Reef Marina Development Agreement and Land Transfer Deed at the February 2023 Council Meeting. These documents provide an important part of the legal framework that guides the delivery of the project and the benefits to the community. The Development Agreement was subsequently signed and executed by DevelopmentWA and the City of Joondalup along with the Land Transfer Agreement which was also signed by the Minister for Lands.

In April 2023, the City announced further funding to build the new Ocean Reef Sea Sports Club at the Ocean Reef Marina. The club is one of the City's largest and has operated for almost five decades, providing angling, sailing, diving, power boating and social activities. The new building will feature multi-functional dining, event and meeting spaces to cater for the increasing membership demands of the club and to support further opportunities for sporting and recreational activities. The City will develop a commercial facility adjacent to the club, subject to a future business case. The project will cost \$9.6 M, with DevelopmentWA contributing \$4.8 M and the City contributing \$4.81 M, of which the club will repay the City \$1.75 M.

Ocean Reef Marina concept — Image courtesy of DevelopmentWA

Key priorities

Integrated Transport Strategy

The new Integrated Transport Strategy will guide multi-modal transport planning for the City and inform strategic policy, advocacy and infrastructure decisions over the next 10 years.

Progress 2022/23

The City appointed an external consultant who engaged with stakeholders and provided a technical working document. A review of the advice and recommendations provided evidence that a public facing document outlining our Integrated Transport Strategy is essential to inform the community. This change in approach caused delays in the drafting of the strategy. It is anticipated the draft strategy will be presented to Council for endorsement in 2023/24.

Joondalup City Centre development - Boas Place

This project includes investigations into future opportunities for the development of Boas Place, across 90 Boas Avenue and 70 Davidson Terrace in Joondalup, to incorporate a variety of land uses. The aim of the Boas Place development is to unite the City's existing civic, cultural, retail, transport, recreation and education elements.

Progress 2022/23

Investigations into future opportunities were delayed as the City reviewed the philosophy and parameters for the project. A technical working group met in 2022/23 to discuss the next steps and priorities for the project, and it is anticipated that a report will be presented to the Major Projects and Finance Committee in 2023/24.

Local Planning Strategy review

The review of the City's *Local Planning Strategy* aims to ensure the ongoing applicability of our strategic direction for land use planning and development. The review is inclusive of the City's *Local Housing Strategy* and *Local Commercial Strategy*.

Progress 2022/23

The City appointed an external consultant who managed the community consultation for phase one of the review and provided a draft technical scope for phase two. The report on the technical scope for phase two of the review was presented to the Policy Committee in 2022/23; however, it was not presented to Council due to scheduling constraints. It is anticipated that phase 2 will be presented to Council in 2023/24.

Pinnaroo Point food and beverage facility

This project includes the development of a new, commercially viable, high quality and environmentally sustainable food and beverage facility at Pinnaroo Point, Hillarys.

Progress 2022/23

A project update was provided to the Major Projects and Finance Committee at the March 2023 meeting. Construction works commenced in December 2022 according to schedule, and the City is working collaboratively with the developer to monitor the progress of the facility.

Public Open Space Framework

The new *Public Open Space Framework* classifies the City's public open spaces according to primary function and manner of use. The framework guides the allocation of infrastructure assets across the different types of public open spaces within the City with the aim of achieving transparent and accountable decision-making.

Progress 2022/23

The City finalised the draft Public Open Space Framework which was presented to Elected Members for feedback in November 2022. The final draft was endorsed by Council at the December 2022 Council Meeting.

Key capital works projects

Burns Beach – cafés/kiosks/ restaurants

This project will deliver a food and beverage facility at the Burns Beach foreshore. The facility will provide opportunities for the local population and visitors to the area to enjoy the coastal environment and increase the vibrancy of the area as a destination beyond daylight hours.

Progress 2022/23

In 2022/23, the City sought expressions of interest from experienced hospitality partners to operate a high quality food and beverage establishment. The submission period ran from 19 November 2022 to 1 February 2023.

Burns Beach Coastal Node redevelopment

The Burns Beach Coastal Node redevelopment project includes the redevelopment of infrastructure to align with the construction of a food and beverage facility at the Burns Beach foreshore. The project has been planned in accordance with the *Burns Beach Masterplan 2016*.

Progress 2022/23

Progress on the project was placed on hold in 2022/23 until the City finalises the evaluation of expressions of interest for the Burns Beach food and beverage facility.

Chichester Park Clubroom redevelopment

The Chichester Park Clubroom redevelopment project includes a major two-storey upgrade to Chichester Park in Woodvale. The new \$5.6 M facility has a meeting room, four change rooms, referees' change room, first aid room, toilets, kitchen, and storage areas. Works also included additional parking bays, a new barbecue and picnic area, and underground drainage for the southern playing field.

Progress 2022/23

Major construction works began at the site in January 2022. The project continued through 2022/23 and the redevelopment was completed on schedule in April 2023.

Christchurch Park change rooms refurbishment

The Christchurch Park change room refurbishment project includes the refurbishment of the existing toilet and change rooms at Christchurch Park, Currambine. The refurbishment plan includes the construction of new additional storage facilities.

Progress 2022/23

The detailed final design phase was completed in June 2023. This is a multi-year project that will progress in 2023/24.

Greenwood Scout and Guide Hall refurbishment

The Greenwood Scout and Guide Hall refurbishment project incorporates refurbishment works at the Greenwood Scout and Guide Hall, as well as minor works at Calectasia Hall. The State Government made an election commitment to fund this refurbishment project.

Progress 2022/23

The concept plan was completed in June 2023 and the project is on track for completion in June 2024. The City completed concept designs for the project and finalised the grant funding agreement with the State Government in 2022/23. The project is progressing in accordance with the project milestones within the funding agreement.

Killen Park and Sycamore Park amenity upgrade

The Killen Park and Sycamore Park amenity upgrade included landscaping works to improve water use efficiency. New infrastructure at Killen Park included a play space, low-key nature-play items, drinking fountain, universal access pathway and picnic shelters. At Sycamore Park, new infrastructure included a universal access pathway, bench seating and low-key nature-play items.

Progress 2022/23

The project (comprising both park upgrades) was completed in November 2022, four months ahead of schedule.

Joondalup Drive/Hodges Drive intersection upgrade

This project will upgrade the Joondalup Drive/Hodges Drive/Grand Boulevard intersection. Specific aspects of the upgrade include an additional right turn lane from Hodges Drive to Joondalup Drive southbound and upgrades to turning pockets, lighting, pedestrian facilities and Mitchell Freeway southbound access.

Progress 2022/23

The detailed design of the project is 85% complete. To proceed with the design, further information is required from Western Power regarding their asset relocation works. The City is also awaiting approvals from Main Roads WA for the traffic signal and line marking modifications at the Joondalup Drive/Lakeside Drive/Grand Boulevard intersection. These external delays are significant and have impacted the City's ability to deliver the project according to our original plan. The City have notified the Metropolitan Regional Road Group about the external delays and will seek a 12-month extension of the original funding provided in 2023/24.

Multi-storey car park business case (104 McLarty Avenue)

This project aims to support economic development in the Joondalup City Centre by investigating the benefits a new multi-storey car park could provide for workers, commuters and visitors to the region.

Progress 2022/23

In 2022/23, the City prepared a business case which was presented to the Council in December 2022. The Council determined that the business case for a multi-storey car park would not proceed at that time. The project is on pause; however, we will continue to reassess the demand modelling and liaise with major stakeholders.

Ocean Reef Park landscape master planning

Three projects were scheduled at Ocean Reef Park: a landscape master planning project for upgrading the deteriorating irrigation system and associated works; a play space renewal project for the renewal of existing play equipment, soft-fall, retaining walls, bench seating and shade trees; and the construction of a new toilet and change room facility, with retaining walls, and septic tank with leach drains.

Progress 2022/23

The master planning for upgrading the irrigation system and associated works was completed in April 2023, the play space renewal project planning was completed in February 2023, and the planning for a new toilet and change room facility was completed in June 2023.

Percy Doyle Football and Teeball Clubrooms

This project will deliver extension works to upgrade the existing change room building to support unisex standards, install a new park universal access toilet, and deliver general building refurbishments to support the activities of facility users at the Percy Doyle Football and Tee Ball Clubrooms.

Progress 2022/23

In 2022/23, the City completed the concept planning and cost estimates for the Percy Doyle Football and Teeball Clubrooms project. This was due for completion in November 2022, but was delayed so that alternate concept plans could be developed. This is a multi-year project that will continue to progress in 2023/24. The project will now proceed to the detailed design phase in 2023/24 and construction is expected to commence in 2024/25.

Sorrento Football Club change rooms

This project included the upgrade of the change rooms, umpire and physiotherapy rooms, grandstand, extension to the undercover area, and improved access for people with disability to the Sorrento Football Club change rooms at Percy Doyle Reserve. The State Government made an election commitment of \$1 M towards the upgrade.

Progress 2022/23

Construction at the Sorrento Football Club commenced in July 2022. The project was completed ahead of schedule in February 2023, to facilitate the site as a training ground for the 2023 FIFA Women's World Cup.

Wentworth Park, Fraser Park and Byrne Park revitalisation

The Wentworth Park Revitalisation project included the replacement of the existing aged play space, new nature-play area and infrastructure, new irrigation and new turf area, mulch areas, shrub planting, additional tree planting, replacement of aged park bollards and new stencil-pave trafficable paving to the Stawell Way verge.

The design for the Fraser Park Revitalisation project includes new irrigation and new turf area, additional universal access pathways, new informal limestone rabbit pathway, mulch areas, shrub planting, additional tree planting, new maintenance access crossovers and booms and new bench seating.

The planned Byrne Park Revitalisation project includes new irrigation and new turf area, additional universal access pathways, mulch areas, shrub planting, additional tree planting, new maintenance access crossover and boom, new bench seating and low-key nature play items.

Progress 2022/23

Commencing in July 2022, construction at Wentworth Park was completed on schedule in October 2022. During 2022/23, the City also finalised the designs for the revitalisation of Fraser Park and Byrne Park.

McIntyre Park, Burns Beach

Our goal:

We are a global facing City with a prosperous and resilient economy. Our City is home to diverse industries that generate a wide range of local job opportunities. We encourage creativity and innovation, and we support opportunities to build the City's brand as a popular business and tourism destination.

Joondalup Business Forum

The Joondalup Health Innovation Business Forum was held on 8 June 2023 at the Joondalup Resort in Connolly. The theme of the forum was *Innovative solutions for better healthcare outcomes*. The keynote speaker was Ramsay Health Care Australia Chief Executive Officer, Carmel Monaghan. A panel of industry leaders explored the potential for Joondalup to be a centre for health innovation. A total of 180 key stakeholders and local business leaders in the health and medical sectors gathered to gain insights into the future of healthcare in Joondalup. Discussions included Joondalup's potential as a digital health hub and the findings of the recently completed Joondalup Medical Gap Analysis. The City's Medical Precinct Taskforce continues to explore further development of Joondalup as a health and medical hub for the Northern Corridor.

Joondalup Health Innovation Business Forum

Key theme 4: **Economy**

Key priorities

Destination City Plan

The Destination City Plan, *Destination Joondalup 2021–2026*, seeks to empower the local visitor economy, to elevate the City's profile as a destination of choice, and to enhance visitor experiences.

Progress 2022/23

As part of this plan, the City collaborated with key stakeholders to investigate opportunities to boost tourism. This included the launch of the stakeholder-owned destination brand, *Uptown*, which was promoted via various channels throughout the City in 2022/23. The City also worked with key agencies to market and promote the region. In addition, the Uptown Business Catalogue was launched to promote the region. This is an online directory and interactive map promoting exciting things to do, the "best kept secrets", and new local businesses to discover in the City.

Digital City Plan

The current *Joondalup: Digital City (2012)* plan outlines the digital future the City could achieve through a set of strategies and actions. The plan addresses key priority actions, including the delivery of capacity building programs for local businesses, and establishing virtual and physical spaces that create opportunities for start-ups. We are developing a Digital City Plan to replace this plan.

Progress 2022/23

To inform development of the new plan, the City drafted a memorandum of understanding with the Australian Autonomous Robotics Precinct, met with Microsoft to explore benefits to the Joondalup economy, and commenced formation of a robotics stakeholder group with Edith Cowan University, Australian Autonomous Robotics Precinct, and CORE Innovation in 2022/23. The new Digital City Plan was not completed in 2022/23 due to delays in the development of the new Economic Development Strategy 2024–2029. It is anticipated the draft Digital City Plan will be presented to Council in 2023/24.

Economic Development Strategy

The *Expanding Horizons: An Economic Development Strategy for a Global City (2012)* guides the economic development activities within the City by providing support to local business, stimulating investment, and driving economic growth. We are developing a new Economic Development Strategy to replace this strategy.

Progress 2022/23

To inform the development of the new strategy, the City sought feedback from the Joint Economic Development Initiative, engaged a consultant to progress a medical gap analysis, conducted a business perceptions survey, and consulted with stakeholders in 2022/23. The draft Economic Development Strategy 2024–2029 was not finalised in the year and has been delayed. It is anticipated that the draft strategy will be presented to Council in 2023/24.

Event attraction

The City attracts and supports significant events that are unique to Joondalup, to enhance our image as an attractive destination for visitors, tourists and business. We work with external stakeholders and event promoters to attract and support significant events and activities to the City.

Progress 2022/23

We collaborated with key stakeholders in 2022/23 on the following:

- Provided sponsorship to the National Basketball League One (NBL1) for the NBL1 National Finals to be held in Joondalup from 18–21 August 2023.
- Provided sponsorship to Bowls WA and Bowls Australia for the National Championships, to be held at Sorrento, Warwick and Joondalup Bowling Clubs in October 2023.
- Collaborated with the event owner and organiser of the City of Joondalup Festival of Motoring 2023, to be held in the Joondalup City Centre from 25–26 November 2023.
- Provided funding via the Arts Development Scheme to support Perth Festival staging their 2023 opening event at Pinar's Tree, Lake Joondalup in February 2023.

Key capital works projects

Our goal:

We have a diverse elected body that represents, promotes and reflects the composition of our community. Our Council and workforce are accountable and transparent and make balanced decisions based on sound, professional advice. Quality services are delivered by our highly skilled and effective workforce.

Invest and Trade WA Mission to India

Cr Christine Hamilton-Prime was the City's delegate on the Invest and Trade WA Mission to India from 12-19 July 2022. Other delegates from Joondalup were from Edith Cowan University, North Metropolitan TAFE, and the College of Electrical Training. India is a key market for Joondalup in the areas of international education, tourism, technology and innovation. Led by the State Development, Jobs and Trade Minister, Hon Roger Cook MLA, and the International Education Minister, Hon David Templeman MLA, it was the State's largest ever business delegation with more than 110 representatives. The trip was an opportunity to announce the Joondalup Innovation Challenge's first global partners in WeSchool and Amity University, which are based in Mumbai. The challenge is a City initiative for international and domestic students to create innovative apps that have potential commercial value.

Australia Day citizenship ceremony

Key priorities

10-Year Strategic Financial Plan

The 10-Year Strategic Financial Plan is a high-level document that outlines the City's approach to delivering infrastructure and services to the community, in a financially sustainable and affordable manner. The plan demonstrates our commitment to managing operations in a way that avoids unsustainable rate increases for households. The 10-Year Strategic Financial Plan is a key resourcing plan of our Integrated Planning and Reporting Framework.

Progress 2022/23

The annual review and development of the updated plan was presented to the Major Projects and Finance Committee at the September 2022 meeting, before being presented to Council at the October 2022 Council Meeting. We then reviewed the key assumptions and timings of major projects and presented the 10-Year Strategic Financial Plan to Elected Members at the Budget Workshop in May 2023.

Advocacy Framework

The City's *Advocacy Framework 2022* provides a strategic approach to advocacy activities to ensure evidenced based decision-making, greater stakeholder engagement, and the development of processes to maximise opportunities for support and investment in the City.

Progress 2022/23

The *Advocacy Framework 2022* was adopted by Council at the October 2022 Council Meeting. The overall vision for the finalised framework is to positively influence decisions that shape the City to be a liveable, smart, future focussed and connected community, with diverse opportunities for residents, businesses and visitors. The framework includes guiding principles, as well as several advocacy drivers and priorities. The City will undertake scheduled activities in line with the priorities, as well as review and update advocacy priorities, as opportunities arise.

Core system replacement project

The core system replacement project (Project Axiom) is an information technology upgrade for the City which includes a customer relationship management system, an online customer portal, and a finance and asset management system.

Progress 2022/23

The detailed functional design and scheduling for the project commenced in November 2022 and discovery workshops commenced in December 2022 which analysed business processes. The multi-year project is progressing according to schedule and will continue in 2023/24.

Customer service centralisation

The customer service centralisation project aims to centralise the City's main customer service functions to achieve greater organisational efficiency and a higher rate of first point of contact resolution. The project supports the Customer Care team to provide a wide variety of City services, such as reporting maintenance issues, animal registrations and providing information about events and activities.

Progress 2022/23

The optimisation of the City's telephony system, including upgrades to the Contact Centre, improvements to call handling, routing and configurations, and other improvements, was completed on schedule. Options to reconfigure the City's in-person customer service desk were deferred and incorporated into a broader project to refurbish the ground floor of the Joondalup Administration Building, with designs progressing in 2023/24. This is a multi-year project and requires a series of technical changes in tandem with the City's core system replacement project.

Key capital works projects

Year ahead:

This section provides detailed information on the City's goals and outcomes for 2023/24 presented under the five key themes of our 10-year Strategic Community Plan: Community, Environment, Place, Economy and Leadership.

This section includes the **key priorities** and **key capital works projects** for the year ahead identified by Council in our 5-Year Corporate Business Plan. All key themes have at least two key priorities; however, key capital works projects are only identified for the relevant key themes: Community, Environment and Place.

GRI
102-15

25-Year anniversary

From 1 July 2023–30 June 2024, we will celebrate our 25-Year anniversary. In 1998, Joondalup officially became a City. The first Council was established in 1999; John Bombak was named the inaugural Mayor. Under the theme *Creating the Future*, the Council held its first formal sitting in December 1999. Today, Joondalup is recognised globally for its liveability and healthy lifestyle and as a home to an engaged and connected community. Several special projects and activities have been planned and will be delivered to mark the historic occasion.

Whitford Library

Year ahead

Key priorities

Key theme 1: Community

Community Safety Plan

The new Community Safety Plan will outline and direct community safety initiatives across the City. The plan will include initiatives for parking management, animal management, CCTV, graffiti removal and community amenity. The City's new Community Safety Plan will aim to ensure our community feels connected and safe through direct service provision, as well as supporting and encouraging local organisations and community-led activities. The City will present the draft plan to Council in 2023/24 and undertake consultation.

Public Art Masterplan and Strategy

The new Public Art Masterplan and Strategy will define the principles and priorities for public art across the City, and guide resources and funding towards relevant public art projects. Public art enhances the City's built environment, distinctive natural assets, significant Indigenous sites, historic locations and key destinations. An external consultant will undertake community consultation to inform the development of the draft masterplan and strategy. The outcomes from the Strategic Community Reference Group meeting will also be considered in the development of the draft, before it is presented to Council for endorsement. The City will finalise the Public Art Masterplan and Strategy in 2023/24.

Reconciliation Action Plan

The new Reconciliation Action Plan will set out our commitment to reconciliation with Aboriginal and Torres Strait Islander peoples. The City will submit the draft plan to Reconciliation Australia for feedback in 2023/24 before presenting it to Council for endorsement. Once the plan is endorsed by Council and receives final approval from Reconciliation Australia, we will commence the implementation of the plan and deliver sustainable and strategic actions, including the 2024 NAIDOC Week Launch and events.

Key theme 2: Environment

Climate Change Plan

The Climate Change Plan will guide the City's adaptation and mitigation activities in response to the impacts of climate change. It will cover a range of areas relevant to local government, including infrastructure, health services, water management, emergency management, and the natural environment. The draft Climate Change Plan 2023–2033 will be presented to Council for endorsement in 2023/24. Once the draft plan is endorsed, the City will undertake community consultation.

Coastal Hazard Risk Management and Adaptation Plan

The Western Australian *State Planning Policy 2.6* requires all local governments to create a Coastal Hazard Risk Management and Adaptation Plan that identifies areas and assets that could potentially be impacted by coastal erosion, inundation hazards due to storm events and projected sea level rise. The plan will provide recommendations and actions to direct the City's response to these coastal hazards and present adaptation measures. The City will present a draft to Council for endorsement in 2023/24. Once the plan is endorsed, we will commence the implementation and deliver scheduled actions from the plan.

Environment Strategy

The Environment Strategy will provide a framework for the City to be environmentally sustainable by protecting and enhancing the environment and minimising the use of natural resources. In 2023/24, we will finalise the Environment Strategy 2023–2033. Following Council endorsement, the draft strategy will be released for community consultation. Once the strategy is endorsed, we will commence implementation and deliver scheduled actions.

Local Government Waste Plan — City of Joondalup

The City will continue to deliver scheduled actions from the *Local Government Waste Plan — City of Joondalup*. This plan guides the City's waste management practices, ensuring that we increase the amount of waste that is diverted from landfill. The plan focuses on improving our practices and providing the groundwork to inform the long-term planning for waste. The plan aligns with the objectives of the *State Waste Avoidance and Resource Recovery Strategy 2030*. Waste management plans are a requirement of all local governments under the *Waste Avoidance and Resource Recovery Act 2007*.

Key theme 3: Place

Heathridge Park Masterplan

The masterplan for Heathridge Park includes an investigation of three options: the rationalisation of the existing community facilities into a single new multi-purpose facility (option one and two), or the partial redevelopment and refurbishment of the existing facilities (option three). The City is currently finalising the three concept design options and these will be presented in 2023/24 with a business case to Council for their decision and endorsement of actions. Following this, we will continue to progress the development of the masterplan and commence implementing endorsed actions.

Integrated Transport Strategy

The new Integrated Transport Strategy 2024–2034 will guide multi-modal transport planning and inform strategic policy, advocacy and infrastructure decisions in the City over the next 10 years. In 2023/24, the City will finalise the draft strategy before presenting it to Council for endorsement.

Joondalup City Centre development — Boas Place

In 2023/24, the City will undertake investigations into future opportunities for the development of Boas Place in the City Centre to incorporate a variety of land uses. The City will develop a strategy to outline actions for the enhancement of Boas Place in accordance with the endorsed project philosophy and parameters and will then commence the implementation of scheduled actions from the strategy.

Local Planning Strategy review

The Local Planning Strategy review aims to ensure the continued applicability of our strategic direction for land use planning and development. The City will present a report to Council in 2023/24 outlining the outcomes of technical reporting and investigations for phase two of the review. Following this, the City will present the scope for phase three of the review to Council seeking endorsement.

Ocean Reef Marina

Throughout 2023/24, the City will continue to work with DevelopmentWA to deliver the monumental Ocean Reef Marina project. The City will provide support, feedback, technical guidance and undertake agreed activities to progress the construction of a world-class waterfront precinct supplying recreational, tourism, residential and boating facilities. This project is being managed by DevelopmentWA with support and contributions provided by the City. To progress the development, we will continue to provide support to DevelopmentWA and undertake activities as per the Development Agreement. The progress and status reports will be provided to Elected Members as required.

Key theme 4: Economy

Economic Development Strategy

The new Economic Development Strategy will guide economic development activities within the City by providing support to local business, stimulating investment, and driving economic growth. The City will seek Council endorsement to undertake community consultation on the draft Economic Development Strategy 2024–2029 in 2023/24, before the final strategy is presented to Council for endorsement.

Event attraction

A key priority for the City in 2023/24 is continuing to attract and support significant events that are unique to Joondalup. Event attraction works to enhance the City's image as an appealing destination for visitors, tourists and businesses. In the year ahead, we will maintain our work with external stakeholders and event promoters to attract and facilitate significant events and activities within the City of Joondalup.

Joondalup Innovation Precinct

The development of a Joondalup Innovation Precinct for new and emerging technology and industries is a key priority for the City in 2023/24. The precinct will establish a digital innovation centre, support urban robotics, and enhance the City's education and health precincts. Throughout the upcoming year, the City will identify and collaborate with stakeholders to inform the development of the precinct.

Place activation

In the year ahead, the City will continue to prioritise place activation in the City Centre by undertaking the implementation of scheduled actions from the *Joondalup City Centre Place Activation Plan 2022*. The plan outlines tangible actions to empower City and community-led projects and activities that support the activation of particular spaces and places in the City. Place activation is a priority because it creates a sense of place, encourages social connectedness and safety, and brings life to areas that are essential to the wellbeing of the community and economy.

Key theme 5: Leadership

10-Year Strategic Financial Plan

The annual review of the City's 10-Year Strategic Financial Plan is a key priority for 2023/24. This high level document outlines the City's approach to delivering infrastructure and services to the community in a financially sustainable and affordable manner. The plan demonstrates our commitment to managing operations in a way that avoids unsustainable rate increases for households. The 10-Year Strategic Financial Plan is a key resourcing plan of our Integrated Planning and Reporting Framework. The City will conduct an annual review of this plan before it is presented to Elected Members as part of the annual budget process.

Advocacy Framework

Conducting the advocacy activities outlined in the *Advocacy Framework 2022* is a key undertaking for the City in the upcoming year. The framework provides a strategic approach to advocacy activities to ensure evidenced-based decision-making, greater stakeholder engagement, and the development of processes to maximise opportunities for support and investment in the City. The framework includes guiding principles, as well as several advocacy drivers and priorities. The City will undertake scheduled activities in line with the priorities, as well as review and update advocacy priorities as opportunities arise.

Core system replacement project

The core system replacement project, Project Axiom, is a leading priority in 2023/24. The project will provide a core information technology solution for the City, which includes a customer relationship management system, online customer portal, finance, and asset management system. The City will continue to progress the development of the project with the focus on the customer relationship management system and finance system.

Customer service centralisation

In the coming year, the City will prioritise the centralisation of our customer service processes. This project will centralise our main customer service functions to achieve greater organisational efficiency and a higher rate of first point of contact resolution. The City will continue to centralise business processes and workflows, undertake research and analysis for procuring an Omni-Channel system, and commence development of a contact centre quality assurance framework.

Joondalup Festival

Key capital works projects

Key theme 1: Community

Sorrento Surf Life Saving Club redevelopment

This project will redevelop the existing Sorrento Surf Life Saving Club facility to support and enhance usage, and includes a commercial component. Detailed design is scheduled to commence in 2023/24.

Key theme 2: Environment

Coastal and estuarine mitigation program

The coastal and estuarine mitigation program includes the renewal and upgrading of existing coastal protection assets to be undertaken over the next three years. The existing coastal protection assets scheduled for renewal and upgrade, including the Marmion Angling and Aquatic Club seawall, the Sorrento seawall, the Mullaloo Surf Life Saving Club seawall, the Sorrento central groyne, and the Sorrento southern groyne. Concept designs are scheduled to be completed in 2023/24, with detailed design scheduled to commence in 2024/25.

Joondalup Drive entry statement

Key theme 3: Place

Burns Beach — cafés/kiosks/restaurants

This project will deliver a food and beverage facility at the Burns Beach foreshore. The facility will provide opportunities for the local population and visitors to the area to enjoy the coastal environment and increase the vibrancy of the area as a destination beyond daylight hours. Detailed design is scheduled to commence in 2023/24, with construction scheduled to commence in late 2024/25.

Burns Beach Coastal Node redevelopment

The Burns Beach Coastal Node redevelopment project includes the redevelopment of infrastructure to align with the construction of a food and beverage facility at the Burns Beach foreshore. The project has been planned in accordance with the *Burns Beach Masterplan 2016*. Detailed design is scheduled to commence in 2023/24, with construction scheduled to commence in late 2024/25.

Christchurch Park change rooms refurbishment

This project will refurbish the existing toilet and change rooms at Christchurch Park in Currambine. The refurbishment plan also includes the construction of new additional storage facilities. Detailed design was completed in 2022/23, and construction is scheduled for completion in 2023/24.

Civic Centre slab waterproofing

This project will deliver waterproofing of the suspended roof slabs and drainage improvements in the undercroft parking areas of the City's Civic Centre and Joondalup Library. The waterproofing will increase safety and prevent long-term damage to the undercroft parking area. Detailed design was completed in 2022/23, and construction is scheduled for completion in 2023/24.

Eddystone Avenue — Joondalup Drive to Honeybush Drive

This project will upgrade Eddystone Avenue from Joondalup Drive to Honeybush Drive. Works will include the upgrade of the existing single-lane roundabout to a dual-lane roundabout, and the construction of additional turning lanes at Joondalup Drive and Honeybush Drive intersections. Detailed design is scheduled for completion in 2023/24.

Greenwood Scout and Guide Hall refurbishment

This project will refurbish the existing hall building to increase storage and improve functionality for facility users at the Greenwood Scout and Guide Hall and Calectasia Hall in Greenwood. The detailed design is scheduled for completion in 2023/24 and construction is expected to commence in late 2023/24.

Hepburn Avenue – Lilburne Avenue to Walter Padbury Boulevard

This project will upgrade Hepburn Avenue between Lilburne Avenue and Walter Padbury Boulevard, including the installation of traffic signals at Lilburne Avenue intersection and a dual-lane roundabout at Walter Padbury Boulevard intersection. Detailed design is scheduled for completion in 2023/24.

Hepburn Avenue/Amalfi Drive/Howland Road roundabout improvement

This project will deliver improvements to the Hepburn Avenue/Amalfi Drive/Howland Road roundabout. Works include pre-deflection on the east approach, skid resistance treatments and upgrades to lighting, and pedestrian and cyclist facilities. The works will also include kerbing and drainage upgrades to the median island of Hepburn Avenue eastbound, and modifications to the entry statement into Harbour Rise estate on Amalfi Drive. Detailed design is scheduled for completion in 2023/24, with construction scheduled to commence in late 2023/24.

Hepburn Avenue/Karuah Way intersection improvement

This project will deliver improvements to the Hepburn Avenue/Karuah Way intersection. Planned works include left and right turn pockets, eastbound shoulder, kerb realignments, warden crossing relocation, and upgrades to lighting, pedestrian and cyclist facilities. Detailed design is scheduled for completion in 2023/24, with construction scheduled to commence in late 2023/24.

Hepburn Avenue/Moolanda Boulevard roundabout construction

This project will upgrade the Hepburn Avenue and Moolanda Boulevard intersection to a two-lane roundabout, with pre-deflections on east and west leg approaches, and upgrades to lighting and pedestrian facilities. The City has completed the preliminary site investigations and has commenced the detailed design phase which will continue into 2023/24.

Hillarys cycle network expansion

The Hillarys cycle network expansion is a joint project with the State Government and the Department of Transport, delivered by the City of Joondalup. This project involves an upgrade to the coastal shared pathway, including other pathway-associated upgrades, between Hillarys Boat Harbour and Burns Beach Foreshore. The project also includes the installation of a shared pathway along Hepburn Avenue between Gibson Avenue to Whitfords Avenue to create a continuous shared pathway connection along Hepburn Avenue from Wanneroo Road to Hillarys Boat Harbour. Construction of the pathway along Hepburn Avenue and the southern section of the coastal shared pathway is scheduled to commence in 2023/24.

Joondalup Administration roof balustrades

This project will replace the rooftop height safety balustrades and footing walls at the City's administration building in Joondalup. The detailed design and construction is scheduled for completion in 2023/24.

Joondalup Drive/Hodges Drive intersection upgrade

This project will upgrade Joondalup Drive/Hodges Drive/Grand Boulevard intersection. Specific aspects of the upgrade include an additional right turn lane from Hodges Drive to Joondalup Drive southbound and upgrades to turning pockets, lighting, pedestrian facilities and Mitchell Freeway southbound access. The detailed design is scheduled for completion in 2023/24 with construction scheduled to commence in early 2024/25.

Joondalup Drive/Lakeside Drive (north) roundabout

This project will upgrade the Joondalup Drive/Lakeside Drive (north) intersection to a dual-lane roundabout. Planned works include a northbound cycle lane bypass, skid resistance treatments, and upgrades to lighting and pedestrian/cyclist facilities. The upgrades also include the installation of a single-lane roundabout at the Lakeside Drive/Aldgate Street intersection. The detailed design is scheduled for completion in 2023/24, with construction scheduled for completion in 2024/25.

Moolanda Boulevard pedestrian footbridge

Following removal of the Moolanda Footbridge in September 2022, the City and Main Roads WA procured the services of an engineering consultant to commence the design of the replacement footbridge. The funding of the footbridge will be considered by Council in 2023/24 as part of the mid-year budget review process.

Percy Doyle Football and Tee Ball Clubrooms

This project will deliver extension works to upgrade the existing change room building to support unisex standards, install a new park universal access toilet, and deliver general building refurbishments to support the activities of facility users at the Percy Doyle Football and Tee Ball Clubrooms. Detailed design is scheduled for completion in 2023/24, with construction scheduled to commence in 2024/25.

Percy Doyle skate park/youth facility

This project will develop a youth facility at Percy Doyle Reserve, Duncraig. The project will include a skate park, BMX pump track, 3x3 basketball and netball areas, play space, and a youth plaza with picnic infrastructure, barbecues, toilets, lighting, CCTV and food truck bays. Detailed design is scheduled for completion in 2023/24, with construction scheduled to commence in late 2023/24.

Prince Regent Park facility refurbishment

This project will refurbish the existing toilet and change rooms and construct an external park universal access toilet, kiosk and additional storage facilities at Prince Regent Park, Heathridge. Detailed design is scheduled for completion in 2023/24.

Warwick north cluster parks revitalisation

This revitalisation project will deliver landscape improvements to Hillwood Park North, Carr Park and Hillwood Park South in Warwick. Works include improvements to pathways, turf areas, irrigation upgrades, mulching and tree planting. Detailed design was completed in 2022/23, and construction is scheduled for completion in 2023/24.

Duncraig Edible Garden

Challenges ahead

Ageing population

With a higher proportion of people aged 60 plus years living in the City, we acknowledge and are planning for the challenges that come with an ageing population. Our *Age-Friendly Plan 2018–2023* was developed in alignment with the World Health Organisation's framework for Joondalup to be an age-friendly city. In partnership with Alzheimer's WA, the City provided staff with specific training to increase their understanding of the needs of those living with disability and long-term medical conditions. We have planned to tackle the increasing rate of dementia through the delivery of programs designed to help people living with the debilitating condition, as well as their family, friends and carers.

Weed control

Weed management in public open spaces, urban streetscapes and urban landscapes has been a continuous issue for the City, with increasing concern from some sections of the community about the use of chemical weed control. Weed management is integral to protect biodiversity and cultural values, reduce bushfire risk and damage to infrastructure, and preserve the amenity, functionality and aesthetics of local areas. A variety of new weed control methods have been implemented by the City in our public open spaces and urban landscaping, including steam, and hot water and WeedSeeker technology to reduce the use of chemicals in controlling weeds. The City is an active member of the Western Australian Local Government Association Local Government Integrated Weed Management Working Group, whose purpose is to build the capacity of local government by sharing information and addressing knowledge gaps. The Working Group helps us make informed decisions on weed management approaches that are most suitable for our local context.

Species under threat

Yellagonga Regional Park wetlands, including Lake Joondalup, Lake Goollelal, Beenyup Swamp and Walluburnup Swamp, are home to populations of the South-western snake-necked turtle. This species is under threat from a combination of predation by feral animals and native birds such as ravens, mortality from road strikes, and lack of suitable nesting habitat. The Cities of Joondalup and Wanneroo and Department of Biodiversity, Conservation and Attractions are collaborating with Murdoch University and the South West Group (now Perth South West Metropolitan Alliance) to participate in the Saving our Snake-necked Turtle Project, funded by Lotterywest. The project includes training volunteers to become Turtle Trackers and protect nesting turtles as well as encouraging community members to share turtle information through TurtleSAT — a citizen science app that provides information which will guide future management actions at Yellagonga Regional Park.

Safe beaches

By working collaboratively with the State Government, the City is committed to providing a safer swimming environment for the tens of thousands of people who visit our coastline every summer. After the removal of the Sorrento Beach Enclosure (shark net), we have worked closely with the Department of Primary Industries and Regional Development on alternative shark mitigation measures. Sorrento Beach is one of several locations along our coastline to benefit from new shark monitoring infrastructure that includes a shark warning system tower. The new tower uses lights, sirens and audio broadcasts to warn beach users of shark activity in the area. It acts on information sent to it from a network receiver; each solar power receiver features the latest technology and connects to a digital phone network. The towers are activated automatically if a shark is detected in the area and the City's Field Officers can manually activate each tower from a mobile device, following any reports of a shark sighting.

Kambarang Concert

Global Reporting Content Index

Global Reporting Content Index

The Global Reporting Initiative Disclosures Content Index shows how the City is reporting on its most significant impacts on the economy, environment, and people.

The Global Reporting Initiative Standards 2016 have been used in the Annual Report as they align with the measures identified in the City's 5-Year Corporate Business Plan.

Please note that the City is reporting on specific information for specific purposes, such as when complying with regulatory requirements, and has selected Standards, or parts of their content, to report with reference to, not in accordance with.

The Content Index is the full list of Standards and provides an overview of the City's reported information: the specific Standards used, disclosure number, disclosure name, and page number where the disclosure is located in the Annual Report. In addition, the content index provides information of what the City has not reported on or what was not applicable.

Statement of use: City of Joondalup has reported with reference to the Global Reporting Initiative Standards 2016 for the period 1 July 2022 to 30 June 2023.

Annual Financial Report 2022/23

Sir James McCusker Park, Iluka

How to read the Annual Financial Report

The *Annual Financial Report* shows how the City of Joondalup performed during the financial year, and the overall position at 30 June 2023. The financial report is prepared by the City in accordance with Australian Accounting Standards as they apply to local government, and in accordance with the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*. As required, the financial report is certified by the Chief Executive Officer and audited by an independent auditor.

The *Annual Financial Report* is provided in the following documents:

Independent Auditor's Report by the Auditor General

A written undertaking to the Councillors of the City of Joondalup that the financial report has been audited, and an opinion on whether the financial report presents a true and fair picture of the City's financial position and performance. Independent Auditor's Report is available from page 51.

Statement by the Chief Executive Officer

A written declaration that the financial report fairly presents the City's financial position and performance in compliance with applicable accounting standards and relevant legislation. Statement by the Chief Executive Officer is available on page 2.

Statement of comprehensive income *by nature*

A summary of the City's financial performance for the year, listing the various types of income and expenses in delivering the City's services. This provides a breakdown of the operating income and expenses for the year, excluding capital expenditure incurred on the cost of infrastructure, building or other assets acquired or constructed during the year, as well as non-operating revenue that pertains to these capital costs. Statement of Comprehensive Income is available on page 3.

Statement of financial position

A snapshot of the City's financial position as at 30 June 2023 showing the assets the City owns and liabilities or money the City owes, including current assets and liabilities that are expected to be recouped or settled within the next 12 months. Statement of Financial Position is available on page 4.

Statement of changes in equity

Shows the movement in the City's equity for the year. A change in equity from the previous year results from:

- a surplus or deficit from the year's operations
- use of money from, or transfer to, the City's reserves
- a change in value of non-current assets following a revaluation of these assets.

Statement of Changes in Equity is available on page 5.

Statement of cash flows

A summary of the City's cash receipts and payments for the year and the amount of cash and cash equivalents held as at 30 June 2023. Cash flow arises from operating activities, investing activities or financing activities. Statement of Cash Flows is available on page 6.

Statement of financial activity *by nature*

Shows all revenue and expenditure during the year, both operating and capital, as well as the different sources of funding in the year to meet the net costs of these activities, including rates raised and any resulting surplus or deficit at the end of the financial year. Statement of Financial Activity is available on page 7.

Notes to and forming part of the Financial Report

Supplemental notes that explain the bases used to prepare the figures in the financial statements, additional detail to substantiate these, as well as the accounting policies adopted and applied to the financial report. The notes are essential to fully understanding the statements. Notes to and Forming Part of the Financial Report are available from page 8.

Financial sustainability indicator

Financial sustainability guiding principles

The Financial Sustainability Guiding Principles guide the City in the preparation of the annual budget and strategic financial plan. The City is committed to financial sustainability where assets and services provide social, economic and/or environmental benefits to the community. The guiding principles summarise the City's:

- financial strategy
- key financial indicators explanation and targets
- key principles for capital expenditure.

The City has reviewed the principles every year since their introduction in 2009. The annual review is undertaken at the commencement of the annual budget process, providing direction to the preparation of the annual budget and strategic financial plan.

City of Joondalup financial sustainability indicator

The following applies to the **financial sustainability indicator** in relation to the table below:

<70 = Not sound 70–80 = Sound >80 = Good

Key Indicator	Description	2022/23	2021/22	2020/21	2019/20	2018/19
Operating surplus cash vs operating income*	Measures the adequacy of cash generated from day-to-day operations to fund asset renewal/upgrade/new	24%	24%	27%	26%	24%
Operating surplus*	Measures operating results (includes depreciation)	6%	3%	7%	7%	5%
Actual asset renewals vs end of life asset renewals	Measures actual timing of asset renewals compared to expected timing (not too early, not too late)	126%	114%	126%	122%	125%
Capital Works Program — upgrade/new vs operating surplus cash	Measures the extent to which new/upgrade capital expenditure is funded by cash from operating activity	31%	47%	40%	31%	23%
Debt service coverage	Measures the extent to which cash from operations services the City's debt	31	16	13	9	10
Net financial liabilities (total liabilities less financial assets)†	Measures whether City liabilities are excessive or not	-1	-1	-1	-1	-1
Current (quick) assets vs current liabilities	Measures liquidity: the extent to which current assets (excluding inventory) can settle current liabilities	4	4	5	4	4
Untied reserves vs rates revenue	Measures whether cash reserves are adequate, and neither excessive nor insufficient	100%	91%	99%	68%	67%
City of Joondalup financial sustainability indicator	Overall weighted score of financial health	72	72	75	75	76

* Excludes profit/loss on disposal, one-off items and is adjusted for federal assistance grants advance receipts.

† A negative value means that financial assets > total liabilities.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

1. BASIS OF PREPARATION

The financial report comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 31 of the financial report.

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- impairment of financial assets
- estimation of fair values of land and buildings, and infrastructure.
- estimation uncertainties made in relation to lease accounting

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- AASB 2020-3 *Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments*
- AASB 2020-6 *Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current - Deferral of Effective Date*
- AASB 2021-7a *Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [general editorials]*
- AASB 2022-3 *Amendments to Australian Accounting Standards - Illustrative Examples for Not-for-Profit Entities accompanying AASB 15*

These amendments have no material impact on the current annual financial report

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 *Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- AASB 2020-1 *Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current*
- AASB 2021-2 *Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates*
This standard will result in a terminology change for significant accounting policies
- AASB 2021-7c *Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*
- AASB 2022-5 *Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback*
- AASB 2022-6 *Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants*
- AASB 2022-7 *Editorial Corrections to Australian Accounting Standards and Repeal of Superseded and Redundant Standards*
- AASB 2022-10 *Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*

The amendment may result in changes to the fair value of non-financial assets. The impact is yet to be quantified.

Except as described above these amendments are not expected to have any material impact on the financial report on initial application.

CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023

2. REVENUE AND EXPENSES

(a) Revenue

Contracts with customers

Recognition of revenue is dependent on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/Warranties	Timing of revenue recognition
Grants, subsidies and contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and charges - licences, registrations, approvals	Building, planning, development and animal management.	Single point in time	Full payment prior to issue	None	On payment of the licence, registration or approval
Fees and charges - waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	On entry to facility
Other revenue - private works	Contracted private works	Single point in time	Monthly in arrears	None	At point of service

Consideration from contracts with customers is included in the transaction price.

Revenue Recognition

Revenue recognised during the year under each basis of recognition by nature of goods or services is provided in the table below:

For the year ended 30 June 2023

Nature	Contracts with customers	Capital grant/contributions	Statutory Requirements	Other	Total

- Restricted cash and cash equivalents	19,081,167	9,892,214
	44,278,285	39,269,487

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement and for which no liability has been recognised.

4. OTHER FINANCIAL ASSETS

Movement attributable to fair value increment	4,607	4,996
Units in Local Government House Trust - closing balance	101,862	97,255

SIGNIFICANT ACCOUNTING POLICIES

Other financial assets at amortised cost

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 25) due to the observable market rates).

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Financial assets at fair value through profit or loss

The City has elected to classify the following financial assets at fair value through profit or loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the City has elected to recognise as fair value gains and losses through profit or loss.

Impairment and risk

Information regarding impairment and exposure to risk can be found at Note 23.

Trade and other receivables from contracts with customers		333,643	2,369,176
Allowance for credit losses of trade receivables	5	(24,257)	(14,106)
Total trade and other receivables from contracts with customers		309,386	2,355,070

SIGNIFICANT ACCOUNTING POLICIES

Rates and statutory receivables

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations as part of the ordinary course of business.

Other receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers including grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 23.

6. INVENTORIES

Note	2023	2022
Current	\$	\$
Inventories	143,556	174,993
Land held for resale	90,442	90,442
Assets held for transfer (Note 1)	2	2
Tamala Park Regional Council - Land held for sale (Note 2)	526,689	442,990
	<u>760,689</u>	<u>708,427</u>
Non-current		
Land held for resale		
Tamala Park Regional Council - Land held for sale (Note 2)	2,699,325	2,059,599
	<u>2,699,325</u>	<u>2,059,599</u>

The following movements in inventories occurred during the year:

Balance at beginning of year	2,768,026	2,312,912
Inventories expensed during the year	(3,379,580)	(2,556,250)
Additions to inventory	4,071,568	3,011,364
Balance at end of year	<u>3,460,014</u>	<u>2,768,026</u>

Note 1- Assets held for transfer comprises: Two lots of land to be transferred to Development WA for the Ocean Reef Marina development. The two lots were originally recognised and presented at a combined cost of \$554,785. They are now held at their net realisable value, following revaluation in 2019-20. The land was presented in the 2018-19 financial year at a combined fair value of \$63,077,000 following revaluation in 2017. In addition peripheral assets previously held at a value of \$6,598,000 (\$2,745,000 buildings and \$3,853,000 infrastructure) relevant to the development are also held at net realisable value.

Note 2 - This land relates to the Tamala Park Regional Council (TPRC's) subsequently changed to Catalina Regional Council (CRC) on 1st August 2023 which was established in January 2006 for the purpose of the development of the Tamala Park land jointly owned by seven local governments, including the City of Joondalup.

SIGNIFICANT ACCOUNTING POLICIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

Land held for resale (Continued)

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the council's intentions to release for sale.

10. FIXED ASSETS (Continued)

SIGNIFICANT ACCOUNTING POLICIES

Fixed assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value (as indicated), less any accumulated depreciation and impairment losses.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost, the asset is initially recognised at fair value. Assets held at cost are depreciated and assessed for indicators of impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the City's revaluation policy, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next revaluation date consistent with *Financial Management Regulation 17A(4)*.

Revaluation

The fair value of land, buildings and infrastructure is determined at least every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on vested land acquired by the City.

At the end of each period, the carrying amount for each asset class is reviewed and, where appropriate, the fair value is updated to reflect current market conditions consistent with *Financial Management Regulation 17A(2)* which requires land, buildings infrastructure, investment properties and vested improvements to be shown at fair value.

Revaluation (continued)

For property, plant and equipment and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss. Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset.
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Impairment

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Comprehensive Income in the period in which they arise.

Balance at 30 June 2023	5,627,476	1,456,398	7,083,874
Gross balance amount at 30 June 2023	7,169,759	1,793,238	8,962,997
Accumulated depreciation at 30 June 2023	(1,542,283)	(336,840)	(1,879,123)
Balance at 30 June 2023	5,627,476	1,456,398	7,083,874

The following amounts were recognised in the statement of comprehensive income during the period in respect of leases where the entity is the lessee:

	2023 Actual \$	2022 Actual \$
Depreciation on right-of-use assets	589,873	521,851
Finance charge on lease liabilities	(185,738)	(177,442)
Total amount recognised in the statement of comprehensive income	404,135	344,409
Total cash outflow from leases	(679,269)	(632,938)

(b) Lease Liabilities

Current	653,487	492,772
Non-current	6,742,665	6,203,663
	29(b) 7,396,152	6,696,435

Secured liabilities and assets pledged as security

Lease liabilities are effectively secured, as the rights to the leased assets recognised in the financial statements revert to the lessor in the event of default.

SIGNIFICANT ACCOUNTING POLICIES

Leases

At inception of a contract, the City assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

All contracts that are classified as short-term leases (i.e. a lease with a term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Details of individual lease liabilities required by regulations are provided at Note 29(b).

Right-of-use assets - measurement

Right-of-use assets are measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (i.e. not recognised in the Statement of Financial Position). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value.

Refer to Note 10 under revaluation for details on the significant accounting policies applying to vested improvements.

Right-of-use assets - depreciation

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shorter. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the City anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

1 to 2 years	849,243	838,872
2 to 3 years	865,104	849,243
3 to 4 years	881,726	865,104
4 to 5 years	899,146	881,726
> 5 years	<u>5,201,156</u>	<u>6,100,302</u>
	9,535,247	10,317,992

Amounts recognised in profit or loss for Property, Plant and Equipment Subject to Lease

Rental income	782,745	786,045
---------------	---------	---------

The City leases part of facilities and land to incorporated associations, community groups, government departments and other organisations with rental payable monthly, quarterly or annually. These leases are classified as operating leases as they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets.

Lease payments include CPI increases, percentage increases or market rates. At the end of the current leases, the City typically enters into new operating leases and therefore does not expect any impact from any reduction in residual value at the end of these leases. Expectations about the future residual values are reflected in the fair value of the properties.

SIGNIFICANT ACCOUNTING POLICIES

The City as Lessor

Upon entering into each contract as a lessor, the City assesses if the lease is a finance or operating lease.

The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease.

Initial direct costs incurred in entering into an operating lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

When a contract is determined to include lease and non-lease components, the City applies AASB 15 to allocate the consideration under the contract to each component.

Rates received in advance	3,465,895	3,336,241
Bonds and deposits held	2,282,393	2,269,505
	<u>13,241,412</u>	<u>12,898,751</u>

SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the City becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises income for the prepaid rates that have not been refunded.

Less than 1 year	5,484,255	4,313,050
	<u>5,484,255</u>	<u>4,313,050</u>

The City expects to satisfy the performance obligations, from contracts with customers unsatisfied at the end of the reporting period, within the next 12 months.

Performance obligations in relation to capital grant/contribution liabilities are satisfied as project milestones are met or completion of construction or acquisition of the asset.

SIGNIFICANT ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the City's obligation to transfer goods or services to a customer for which the City has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Grant/contribution liabilities

Grant/contribution liabilities represent the City's obligations to construct recognisable non-financial assets to identified specifications to be controlled by the City which are yet to be satisfied. Grant/contribution liabilities are recognised as income when the obligations in the contract are satisfied.

Fair values for non-current capital grant/contribution liabilities, not expected to be extinguished within 12 months, are based on discounted cash flows of expected cashflows to satisfy the obligations using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 25) due to the unobservable inputs, including own credit risk.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

14. BORROWINGS

	Note	2023			2022

Secured liabilities and assets pledged as security

Loans are secured by a floating charge over the assets of the City of Joondalup.

The City of Joondalup has complied with the financial covenants of its borrowing facilities during the 2023 and 2022 years.

SIGNIFICANT ACCOUNTING POLICIES

Borrowing costs

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 25) due to the unobservable inputs, including own credit risk.

Risk

Information regarding exposure to risk can be found at Note 23.

Details of individual borrowings required by regulations are provided at Note 29(a).

Expected reimbursements of employee related provisions from other WA local governments included within other receivables

5 322,889 198,149

SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

The City's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

16 OTHER PROVISIONS

	Other Provisions	Total
	\$	\$
Opening balance at 1 July 2022		
Current provisions	9,415	9,415
	9,415	9,415
Balance at 30 June 2023	9,415	9,415
Comprises		
Current	9,415	9,415
	9,415	9,415

Other provisions

Amounts which are expected to be paid out within 12 months of the reporting date are classified as current. Exact timing of payment of non-current obligations is unable to be reliably estimated as it is dependent on factors beyond the control of the local government.

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

18. NOTES TO THE STATEMENT OF CASH FLOWS

(a) Reconciliation of Cash

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Cash at the end of the reporting period is reconciled to the related items in the Statement of Financial Position as follows:

	Note	2023 Actual	2022 Actual
		\$	\$
Cash and cash equivalents	3	44,278,285	39,269,487

Restrictions

The following classes of financial assets have restrictions imposed by regulations or other externally imposed requirements which limit or direct the purpose for which the resources may be used:

- Cash and cash equivalents	3	19,081,167	9,892,214
- Financial assets at amortised cost	4	107,380,000	101,210,000
		<u>126,461,167</u>	<u>111,102,214</u>

The restricted financial assets are a result of the following specific purposes to which the assets may be used:

Restricted reserve accounts	30	119,755,045	105,567,297
Grants and contributions liabilities	13	5,484,255	4,313,050
Contract liabilities	13	<u>1,221,867</u>	<u>1,221,867</u>
Total restricted financial assets		126,461,167	111,102,214

**(b) Reconciliation of Net Result to Net Cash Provided
By Operating Activities**

Net result	21,120,083	16,736,254
Non-cash items:		
Adjustments to fair value of financial assets at fair value through profit or loss	(4,607)	(4,996)
Depreciation/amortisation	30,205,721	32,865,308
(Profit)/loss on sale of asset	(170,097)	(116,390)
(Profit)/loss on sale of land held for resale	(2,993,238)	(2,869,862)
Changes in assets and liabilities:		
(Increase)/decrease in trade and other receivables	105,513	(13,291,233)
(Increase)/decrease in other assets	(1,570,707)	244,424
(Increase)/decrease in inventories	31,437	(39,162)
Increase/(decrease) in trade and other payables	342,661	14,526,113
Increase/(decrease) in employee related provisions	1,010,435	623,212
Capital grants, subsidies and contributions	<u>(9,580,228)</u>	<u>(13,209,118)</u>
Net cash provided by/(used in) operating activities	38,496,972	35,464,550

(c) Undrawn Borrowing Facilities

Credit Standby Arrangements

Bank overdraft limit	500,000	500,000
Credit card limit	47,000	47,000
Credit card balance at balance date	<u>(17,053)</u>	<u>(20,711)</u>
Total amount of credit unused	529,947	526,289

Loan facilities

Loan facilities - current	935,712	909,513
Loan facilities - non-current	<u>962,667</u>	<u>1,898,379</u>
Total facilities in use at balance date	1,898,379	2,807,892

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

19. CONTINGENT LIABILITIES

(a) Contaminated site – Mindarie Regional Council Landfill site

The most recent 2021 Mandatory Auditor's Report (MAR) report recommended that further works were required to close out the following:

- The adequacy of the landfill gas monitoring network including confirmation of screening intervals.
- Assessment of the potential for off-site migration of landfill gas particularly with relation to preferential pathways.
- Ongoing assessment of landfill gas and groundwater as part of an ongoing site management plan to inform long term trends and to inform the need or otherwise for mitigation measures.
- The MAR noted further long-term assessment of PFAS (in addition to other COPCs in groundwater including arsenic, nickel, ammonia, benzene and pathogens) would be appropriate.

The October 2023 MAR reports on those further investigations completed and provides an update on the conditions of the source site and affected site. The MRC MAR report is required by the Department of Water and Environmental Regulation (DWER) in respect of the Tamala Park Waste Management Facility site.

The purpose of the 2023 MAR audit was to:

- Confirm that the investigations undertaken adequately characterized the contamination status of the site.
- Confirm whether potentially significant risks to human health, the environment or environmental values exist on-site or off-site.
- Confirm the suitability of the site for the current and proposed land uses.
- Recommend a site classification under the Contaminated Sites Act 2003

The MAR auditor has determined, based on the analysis contained in the assessed reports, that:

- Source Site: Remains suitable for ongoing use as a Class II landfill, subject to implementation of a site management plan to prevent exposure to landfill gas, soil and groundwater contamination
- Affected Site: Remains suitable for current use as a development "buffer zone". The site is situated to the north of the MRC landfill.

The MAR report summary of findings for the Source and Affected sites are listed below:

Source site:

- Soil – No soil investigations were completed in 2021 and 2023
- Groundwater – Groundwater results indicate impact to aquifer immediately below the landfill. Elevated levels of contaminants were above the relevant drinking water guidelines, some also exceeded the criteria for non-potable water use. No contaminants of potential concern (COPCs) were detected in samples collected from the onsite abstraction bore above the non-potable criteria.
- Landfill gas – The site is considered capable of generating a significant quantity of landfill gases and vapours. Methane was detected at elevated levels in boreholes outside the waste mass and along the northern wall of the landfill. The extraction system appears to be effectively mitigating methane with negligible detections outside of the extraction well network. There are indications of fugitive emissions through damages areas of the cap which would require repair and maintenance.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

19 CONTINGENT LIABILITIES

Affected site:

- Groundwater results indicate some contaminants above the relevant drinking water guidelines but were below criteria for non-potable water uses. Certain COPCs detected above drinking water criteria were considered to be a reflection of natural site conditions.
- No methane has been recorded in recent events at monitoring wells outside the site boundary.

Site management plan (SMP)

A SMP was developed and received by the MRC in May 2020 and updated in May 2022. The SMP was required to provide a management plan for the site to ensure that potential hazards associated with soil, landfill gas, and groundwater contaminants are appropriately managed for the site's continued use as a landfill facility and leachate management. There are no "results" associated with this SMP, it is an ongoing document that continues to evolve to address the comprehensive management of landfill gas and groundwater in light of the most recent information obtained from periodic tests results.

The October 2023 MAR report concludes that:

- The auditor is satisfied that the information contained in the reviewed reports, considered as a whole, is sufficient to inform the current site and surrounding site condition and restrictions that may be applicable.
- Expectations of concerted effort to improve future reporting and reports to comply with relevant standards and guidelines.
- The assessments were sufficient to define the potential extents and types of contaminated media with an appropriate level of confidence.
- Investigation methodologies were sufficient to assess and manage risk.
- Ongoing assessment of landfill gas and groundwater as part of an ongoing Site Management Plan should be undertaken to inform long term trends and to inform the need or otherwise for mitigation measures.

Based on the above, MRC has no new information indicating that an additional landfill rehabilitation provision is required to address any specific remediation requirements nor do the October 2023 MAR report recommend such action.

(b) Contaminated sites- other

Under the contaminated sites Act 2003, the City is required to report known and suspected contaminated sites to the Department of Water and Environmental Regulation (DWER). In accordance with the Contaminated Sites Act 2003, DWER classifies these sites on the basis of the risk to human health, the environment and environmental values. Where sites are classified as contaminated - remediation required or possibly contaminated investigation required, the City may have a liability in respect of investigation or remediation expense.

During the year the City reported two suspected contaminated sites to DWER. These have been classified as "Possibly Contaminated Investigation is Required". The City is unable to assess the likely outcome of the classification process, and accordingly, it is not practicable to estimate the potential financial effect or to identify the uncertainties relating to the amount or timing of any outflows.

Trade and other receivables	129,087	22,587
Trade and other payables	142,107	96,456

Related Parties

The City's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any council member, are considered key management personnel and are detailed in Notes 21(a) and 21(b)

ii. Other Related Parties

An associate person of KMP employed by the City under normal employment terms and conditions.

Any entity that is controlled by or over which KMP, or close family members of KMP, have authority and responsibility for planning, directing and controlling the activity of the entity, directly or indirectly, are considered related parties in relation to the City.

iii. Entities subject to significant influence by the City

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

The City has significant influence over Mindarie Regional council and Tamala Park Regional Council; as the City is party to agreements establishing the regional councils and is correspondingly represented on the Council's of these entities.

22. INVESTMENT IN ASSOCIATES

(c) Tamala Park Regional Council

Tamala Park Regional Council (TPRC) subsequently changed to Catalina Regional Council (CRC) on 1st August 2023 was established in January 2006 for the purpose of the development of the Tamala Park land jointly owned by seven local governments, including the City of Joondalup, which has 1/6 equity in the land.

The West Australian Planning Commission (WAPC) requested that a portion of this land be retained as "Bush Forever", which the commission was prepared to acquire and pay for. The "Bush Forever" land was disposed of by the joint owners to the WAPC in November 2006. The City of Joondalup's share of the proceeds of disposal was \$2,703,573 which was subsequently contributed to the TPRC as equity investment to be used for TPRC purposes.

The City has determined it has significant influence over the Regional Council despite holding less than 20 percent of the voting rights as the City has representation on Council and participates in policy-making decisions including the decisions regarding contributions and distributions

The current fair value of the equity is estimated at \$7,806,654. As per the audited financial statements of Tamala Park Regional Council for the year ended 30 June 2023, the City's share of Net result of operations was a profit of \$200,123. The City has recognised this profit in the Statement of Comprehensive Income in accordance with the equity method of accounting.

(d) Contingent liabilities related to investments in associates

Refer to Note 19(a) for contingent liabilities relating to Mindarie Regional Council.

SIGNIFICANT ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the City has significant influence, that is it has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the City's share of net assets of the associate. In addition, the City's share of the profit or loss of the associate is included in the City's profit or loss.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

23. FINANCIAL RISK MANAGEMENT

This note explains the City's exposure to financial risks and how these risks could affect the City's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rates	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The City does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance department under policies approved by the council. The finance department identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The City's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the City to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the City to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents, term deposits, and Treasury bonds held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted Average Interest Rate	Carrying Amounts	Fixed Interest Rate	Variable Interest Rate	Non Interest Bearing
	%	\$	\$	\$	\$
2023					
Cash and cash equivalents	4.30%	44,278,285	0	44,269,500	8,785
Financial assets at amortised cost - term deposits	4.43%	107,380,000	107,380,000	0	0
2022					
Cash and cash equivalents	0.45%	39,269,487	2,750,000	36,479,388	40,099
Financial assets at amortised cost - term deposits	3.00%	101,210,000	101,210,000	0	0

CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023

23 FINANCIAL RISK MANAGEMENT (Continued)

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

	2023	2022
	\$	\$
Impact of a 1% movement in interest rates on profit or loss and equity*	442,695	364,794

* Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The City does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 29(a).

(b) Credit risk

Trade and Other Receivables

The City's major trade and other receivables comprise contractual non-statutory user fees and charges, grants, contributions and reimbursements. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery policies.

The level of outstanding receivables is reported to council monthly and benchmarks are set and monitored for acceptable collection performance.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade and other receivables. To measure the expected credit losses, receivables from grants, contributions and reimbursements are separated from other trade receivables due to the difference in payment terms and security.

The expected loss rates are based on the payment profiles of trade and other receivables over a period of 36 months before 1 July 2022 or 1 July 2023 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of users to settle the receivables.

The loss allowance as at 30 June 2023 and 30th June 2022 for rates receivable was determined as follows:

	Current	More than 1 year past due	More than 2 years past due	More than 3 years past due	Total
30 June 2023					
Rates receivable					
Gross carrying amount	0	3,560,248	0	0	3,560,248
30 June 2022					
Rates receivable					
Gross carrying amount	0	3,466,759	0	0	3,466,759

The loss allowance as at 30 June 2023 and 30 June 2022 was determined as follows for trade receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Total
30 June 2023					
Trade and other receivables					
Gross carrying amount	1,135,938	28,500	1,690	21,682	1,187,810
Loss allowance	0	885	1,690	21,682	24,257
30 June 2022					
Trade and other receivables					
Gross carrying amount	2,892,142	36,910	27,703	11,605	2,968,360
Loss allowance	0	0	2,501	11,605	14,106

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

23. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

The loss allowances for Trade and other receivables as at 30 June reconcile to the opening loss allowances as follows:

	Trade receivables		Other receivables		Contract Assets	
	2023	2022	2023	2022	2023	2022
	Actual	Actual	Actual	Actual	Actual	Actual
	\$	\$	\$	\$	\$	\$
Opening loss allowance as at 1 July	14,106	26,026	0	0	0	0
Receivables written off during the year as uncollectible	21,757	11,606	0	0	0	0
Unused amount reversed	(11,606)	(23,526)	0	0	0	0
Closing loss allowance at 30 June	24,257	14,106	0	0	0	0

Trade and other receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the City, and a failure to make contractual payments for a period of greater than 120 days past due.

Impairment losses on rates and statutory receivables, trade and other receivables are presented as net impairment losses within other expenditure. Subsequent recoveries of amounts previously written off are credited against the same line item.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

23. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

Payables and borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 18(c).

The contractual undiscounted cash flows of the City's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying values
	\$	\$	\$	\$	\$
2023					
Trade and other payables	13,241,412	0	0	13,241,412	13,241,412
Lease liabilities	872,301	2,990,001	4,901,612	8,763,914	7,396,152
Borrowings	979,875	979,875	0	1,959,750	1,898,379
	<u>15,093,588</u>	<u>3,969,876</u>	<u>4,901,612</u>	<u>23,965,076</u>	<u>22,535,943</u>
2022					
Trade and other payables	12,898,751	0	0	12,898,751	12,898,751
Lease liabilities	669,655	2,928,890	4,801,719	8,400,264	6,696,435
Borrowings	979,875	1,959,750	0	2,939,625	2,807,892
	<u>14,548,281</u>	<u>4,888,640</u>	<u>4,801,719</u>	<u>24,238,640</u>	<u>22,403,078</u>

24. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

There were no material events after 30 June 2023 that require inclusion in the notes to the financial statements.

CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023

25. OTHER SIGNIFICANT ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the City applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The City contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. enforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest revenue

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards the City's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

**CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023**

26. FUNCTION AND ACTIVITY

(a) Service objectives and descriptions

City operations as disclosed in this financial report encompass the following service orientated functions and activities.

Objective	Description
Governance To provide a decision making process for the efficient allocation of limited resources.	Governance relates to elected members costs and other costs that relate to the task of assisting elected members and ratepayers on matters which do not concern specific City Services.
General purpose funding To collect revenue to allow for the provision of services.	Rates income and expenditure, Grants Commission and pensioner deferred rates interest.
Law, order, public safety To provide services to help ensure a safer and environmentally conscious community.	Supervision and enforcement of various local laws relating to fire prevention including the animal control and other aspects of public safety.
Health To provide an operational framework for environmental and community health.	Prevention and treatment of human illnesses, including inspection of premises/food control, immunisation and child health services.
Education and welfare To provide services to disadvantaged persons, family, the elderly, children and youth.	Provision, management and support services for families, children and the aged and disabled within the community, including pre-school playgroups, day and after school care, assistance to schools and senior citizens support groups. Provision of aged persons units and resident funded units.
Housing Provision of housing and leased accommodation	Provision of housing and leased accommodation where the City acts as landlord.
Community amenities To provide services required by the community.	Town planning and development, rubbish collection services, stormwater drainage, the provision of public conveniences, bus shelters, roadside furniture and litter control.
Recreation and culture To establish and effectively manage infrastructure and resources to help the social wellbeing of the community.	Provision of facilities and support for organisations concerned with leisure time activities and sport, support for the performing and creative arts. This includes maintenance of halls, aquatic centres, recreation and community centres, parks, gardens, sports grounds and the operation of libraries.
Transport To provide safe, effective and efficient transport services to the community.	Construction, maintenance and cleaning of streets, roads, bridges, drainage works, footpaths, parking facilities, traffic signs and the City works operation centre, including development, plant purchase and maintenance.
Economic services To help promote the City and its economic well being.	Rural services, pest control and the implementation of building controls.
Other property and services To monitor and control Council's overheads and operating accounts.	Public works overheads, plant/vehicle operations, sundry and other outlays that cannot be assigned to one of the preceding programs

CITY OF JOONDALUP
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2023

30 RESERVE ACCOUNTS (Continued)

Name of reserve account	Purpose of the reserve account
Restricted by legislation/agreement	
(a) Non-current long service leave	Created in 2012/13 to facilitate the funding of the non-current portion of long service leave liabilities to City employees.
(b) Capital works Carried Forward Reserve	Created in 2006-07 to hold unspent capital works funds carried forward to subsequent financial year(s). The transfer to accumulated surplus is to fund capital works previously carried forward.
(c) Cash in lieu of Parking Reserve	Created in 1993/94 with funds previously held in Trust Fund. Represents funds received from developers in lieu of providing car parking. Funds transferred from the reserve will be utilised to fund future car parking requirements. Funds transferred to the reserve includes interest.
(d) Joondalup Performing Arts and Cultural Facility Reserve	Created in 2000-01 to assist with the design and development of a regional performing arts facility in the Joondalup City Centre. The reserve was renamed in 2005-06 and again in 2009-10 to more appropriately reflect its intent. The transfer from Reserve was mainly to fund the Jinan Garden, at Lot 1001, Teakle Court. The transfer from accumulated surplus represents interest.
(e) Marmion Car Park Reserve	Created in 2013-14 to receive the State Government's contribution and the unspent portion of City of Joondalup funds for the construction of a car park next to the Marmion Angling and Aquatic Club.
(f) Parking Facility Reserve	Created in 2008-09 to hold the operating surpluses arising from the paid parking in the Joondalup City Centre to be applied in the development and provision of facilities and services, both parking and non parking, in the Joondalup City Centre. The transfer from accumulated surplus represents parking operating surplus and interest. Transfer to accumulated surplus is to fund repayments on the \$8,500,000 loan taken in 2014-15 to construct the Reid Promenade Car Park.
(g) Percy Doyle Infrastructure Reserve	Created in 2020-21, for the purposes of providing new infrastructure and improving existing infrastructure at Percy Doyle Reserve. Transfer from accumulated surplus represents initial funding to establish the reserve and interest.
(h) Public Art Reserve	Created in 2012-13 for the purpose of providing for the commissioning and purchase of public art works. Transfer from accumulated surplus represents funding for this purpose.
(i) Specified area rating - Harbour Rise reserve	The reserve was created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Harbour Rise specified area. Transfer from accumulated surplus represents interest. Transfers from the reserve are to fund works undertaken in the Harbour Rise specified area.
(j) Specified area rating - Iluka reserve	The reserve was created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Iluka specified area. Transfer from accumulated surplus represents unspent funds levied during the year and interest.
(k) Specified area rating - Woodvale Waters reserve	The reserve was created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Woodvale specified area. Transfers from the reserve are to fund works undertaken in the Woodvale area. Transfers from accumulated surplus represents interest.
(l) Specified area rating - Burns Beach reserve	The reserve was created to hold unspent funds levied for the purpose of undertaking enhanced landscaping services in the Burns Beach specified area. Transfer from accumulated surplus represents unspent funds levied during the year and interest.
(m) Strategic Asset Reserve	The reserve was created in 2010-11 from the merger of the old Strategic Asset Management and Asset Replacement Reserves, and is intended to fund the acquisition and development of new and renewal of existing City infrastructure and building assets. The transfer from accumulated surplus represents interest. Transfer from reserve was for the funding of various capital works projects including Joondalup City Centre lighting.
(n) Tamala Park Land Sales Reserve	This reserve was created in 2013-14 to receive the City of Joondalup's share of the dividends from the proceeds of the sales of Tamala Park land to be held and subsequently applied for the purpose of investing in income producing facilities, to build significant one-off community facilities and to assist with the cash flow requirements of developing significant infrastructure assets aligned to the 10 Year Strategic Financial Plan. The transfer from accumulated surplus represents interest.
(o) Asset Renewal Reserve	Created in 2008-09 by consolidating the Heavy Vehicle, Light Vehicle and Plant Replacement reserves with the purpose of supporting the funding of vehicle, plant and equipment purchases. The transfer from accumulated surplus represents interest. Renamed to its current name in 2019-20.
(p) Waste Management Reserve	Renamed in 2009-10 and its purpose updated. The reserve is to fund and support waste management services including but not limited to refuse collection, waste management initiatives and

Auditor General

INDEPENDENT AUDITOR'S REPORT 2023 City of Joondalup

To the Council of the City of Joondalup

Opinion

I have audited the financial report of the City of Joondalup (City) which comprises:

- the Statement of Financial Position as at 30 June 2023, and the Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and Statement of Financial Activity for the year then ended
- Notes comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the financial report is:

- based on proper accounts and records
- presents fairly, in all material respects, the results of the operations of the City for the year ended 30 June 2023 and its financial position at the end of that period
- in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section below.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Chief Executive Officer (CEO) is responsible for the preparation and the Council for overseeing the other information. The other information is the information in the entity's annual report for the year ended 30 June 2023, but not the financial report and my auditor's report.

My opinion on the financial report does not cover the other information and accordingly, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to the date of this auditor's report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to the CEO and Council and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor's report and re-issue an amended report.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer (CEO) of the City is responsible for:

- keeping proper accounts and records
- preparation and fair presentation of the financial report in accordance with the requirements of the Act and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards
- managing internal control as required by the CEO to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for:

- assessing the City's ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the City.

The Council is responsible for overseeing the City's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

My independence and quality management relating to the report on the financial report

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQM 1 *Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements*, the Office of the Auditor General maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the City of Joondalup for the year ended 30 June 2023 included in the annual report on the City's website. The City's management is responsible for the integrity of the City's website. This audit does not provide assurance on the integrity of the City's website. The auditor's report refers only to the financial report. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to contact the City to confirm the information contained in the website version.
